Frank Obermuller, Engineer of Mining, Manager Director.

## SECOND PUBLIC OFFERING

### OF OBER OIL GAS, COAL AND MINERALS INTERESTS

PAR-VALUE INTEREST AT \$5.00

FOREVER NON-ASSESSABLE

THE OBER OIL, GAS, COAL & MINERALS COMPANY to be incorporated under the BLUE SKY LAWS OF MISSOURI immediately upon the present issue of the PRE-ORGANIZATION INTEREST, being subscribed which from the past weeks sales, are very flattering and from present indications will be over subscribed within a very near future.

#### IMMEDIATE PLANS

Our drilling campaign for 1920 is to extensive to give in full, but our immediate plans are as follows: To offer only enough interests for sale at present to create a drilling fund sufficient to purchase our own equipment and drilling WELL number ONE, after which the TREASURY INTERESTS, of 100,000 will be sold at Par-Value, \$5.00.

#### GENERAL PLAN

Our general plan is as follows: We expect to carry on an active drilling campaign, drilling first where the most favorable indications which are the surest of oil in largest quantities; selling only such interest as is necessary for development purposes and turning the largest practical percentage of OIL PROFITS into dividends should we be fortunate as the indications read to the GEOLOGIST.

#### POLICY

The policy of the officers and directors of this company is to put forth an honest effort to make it one of the great, big OIL producing, dividend paying company, and give an honest, efficient management of the companies affairs.

It is part of our policy to keep our INTEREST HOLDERS fully informed as to the company's progress and plans; to consult them as frequently as is practical, and at all times to recognize the fact that this company belongs to the INTEREST HOLDERS and that the management is the employee of the INTEREST HOLDERS, and that every share of interest will be entitled to one vote, thereby, giving all interest holders a voice in the election of officers who are to be chosen from those who are holders of the OBER OIL GAS COAL & MINERALS CO.

#### PERSONNEL

The management of this ASSOCIATION is in the hands of successful business men and practical OIL and MINERAL operator. All money's are held in the BANK OF STE. GENEVIEVE, MO. under the TRUSTEES.

MR. C. W. MEYERS, TRUSTEE, personally, will attend in the matter of signing such checks for meeting all obligations until such time as the present association becomes duly incorporated. TRUSTEE C. W. MEYERS' method of business speaks volumes in its self which is a guarantee that your money's are in proper hands for the proposed business and may you meet with flattering success in your new venture which we hope will develop into some great magnitude—YOUR CITY, COUNTY and STATE put into the OIL FIELDS MAP, "WE SHOW YOU".

#### THE MANAGER DIRECTOR

Who will be in active charge of the properties and developments and through his field management, will maintain an efficient and successful field organization that gets results. The officers of this company thoroughly believe that the oil business can be built up just as efficiently and that an oil company can be made as big a permanent success as any other legitimate enterprise.

#### HOLDINGS

The company's acreage is 15,000 acres, and every interest holder owns an equal interest as his interest is pro rated in the entire 15,000 acres, or, whatever the production may be there from in its entirety or in the form of dividends.

To this already great State, and its people; do you not believe in advancing its great probable OIL RESOURCES and the SHOW YOU SPIRIT, that we can develop oil right here in this STATE? I say YES, and with your assistance what do you say as to showing the whole world that there is OIL here, and right within this very section where the OBER OIL GAS, COAL & MINERALS CO. is going to prove that there is oil in commercial quantities.

Is it plausible and good reason to believe that the STATE of MISSOURI, has been left out in its entirety in the oil, when you with a little fore thought can point in every direction of the compass when standing in MISSOURI, and so learn that we are surrounded with OIL-FIELDS? NOW I rather feel that you will not only join this great possession but will also boost its good purpose.

#### A KNOCK IS A BOOST

In every community there are some who by nature are SKEPTICS, and disbelievers, their disposition seems to hurt them so for these unfortunates, I extend my great sympathy. There are also another kind who begrudge a progressive spirit and so wish to keep or instruct with their teachings thereby if in their power to prevent their community from the present dormant stage. To those I would advise to change and so instead of retaining such spirit which is both UN-AMERICAN AND UN-MODERN. It would be wise if YOU CANT BOOST DON'T KNOCK.

NOW what are you going to do? Join the above and become one of the lucky ones, or remain out of this progressive company, and later tell your neighbors of your misfortune? I have now paved the way for you and the opportunity is yours as well as all others. Do you prefer continuing to walk the balance of your life or, will you get into the JITNEY or perhaps some other good CAR? Those who hesitate and who will not take a chance are the ones who usually linger with an existence rather then keep well up in the very first rank. Do you not believe that a progressive spirit is a winning one?

In conclusion, we wish to make it clear to the investing public that the PRE-ORGANIZATION will soon be subscribed and then YOU will have another chance to get some of this ASSOCIATIONS INTEREST, however, at an advanced price THE PAR-VALUE, \$5.00

By filling out coupon below and sending to the Bank of Ste. Genevieve, Ste. Genevieve, Mo., or wire in your reservation, you are getting in on the ground floor.

To You and To-Day a most excellent Opportunity
