Voters! Choose Ye Your Governor
 Be Fair To
FRANK H. FARRIS

He was born in Missouri, raised in Missouri, knows the needs of Missourians. A quarter of a century's experience in making the laws of Missouri.

Stands For—Efficiency, Economy, Reduced Taxes—THE PEOPLE!

Against the High Cost of Service and Vested Interests! Here is His "Wetness" in his own language, "I stand squarely behind the President who vetoed the Volstead Act because he believed it too drastic. I don't believe it is right that a farmer should be denied the right to make his apples into cider. I believe that the farmer's wife should have the right to gather grapes and press out the juice. And because the juice ferments I do not believe that she should be made a criminal."

Other candidates are as parched as pop corn in the country, but are fawning for the wet vote of the cities.

Frank Farris is being opposed by those who are close to the Burlington Rail Road, by "Mori," and other representatives of special interests.

Why? Because Farris opposes the pernicious practices of the Utilities Commission. He says in his platform—"If elected Governor I expect to recognize the Utility Commission in accordance with the idea and intention of the authors of the law; if that cannot be done successfully and beneficially, to Recommend its repeal." Another candidate claims the authorship of the present law, was the commission's chairman, and granted the first increased rail road rates ever given in Missouri.

This adv. is paid for by the Farris for Governor Association.
