School Notes

The High School has now reached the 60 mark. Two new pupils were enrolled this week. On account of the hardships due to train services, Miss Mozell Dudley had to discontinue coming up from St. Mary's. Miss Dudley promises to be with us again after Christmas and will be here in time to swell our graduating class to twelve.

One afternoon of the week was taken to talking over the literary society possibilities of the school. On Thursday and Friday afternoons the pupils will be tried out for the dramatic club that is to take the place of a literary society. Through this club we hope to entertain the public to several plays as well as some real programs of other types.

The girls are getting ready for basketball. They have had two meetings already and promise the coach that they are ready to begin now and intend to keep the practice up the two months before the first scheduled game. We hope to enter the girls' team in the league this year and the chances are good for them. The boys will not take up scheduled practice yet.

The teachers certainly hope some one will "start 'er", a live parents-teacher association. This would be an excellent contact of the parents with the school and ought to create more interest on the parts of the pupils as well as the teachers and parents. We are sure that our problems of discipline would be easier under this contact. If you do not know what is going on at school, if you do not know just why some certain things take place; a Parents-Teacher Association would give an opportunity to ask "what" or "why."

Notice to Taxpayers.

The State authorities failed to certify the state tax levy to the county clerk at the usual time, hence the county clerk could not get the book to me before September and for this reason I am unable to get my books in shape to visit the various townships in the county, but by steady work I will be ready by October first to serve you on short notice.

The taxes over the county have increased materially and I would advise you to take a tonic to stimulate your heart action before coming to my office and upon arrival take a seat or brace yourself, ask for the amount and hold your breath until I tell you the amount. In this way you can withstand the possible shock. After I tell you the amount of your taxes please do not express your thoughts. You may think anything but it is sometimes better not to express your thoughts. Those writing for statements should take the same treatment before opening my letter.

Many taxpayers unload their feelings at this office and as I am of a very nervous disposition I wish they would express themselves outside of my office.

Yours very truly, WM. P. HUCK, Collector. adv

Grass and Greminger will open a Gents Furnishing Store next Monday, September 26th, in their new building on Merchant St., one door west of the Eagle Bakery. A complete line of goods will always be carried in stock and the young men invite the public to call and inspect their store.

Whenever anyone comes to you with a lot of evil things someone else has said of you, simply ask the fellow what he said about you.
