

GOOD HEALTH IS NEEDED TO TEACH

Cannot Do Their Best Work for Their Pupils Unless They Feel Fit—In Many Cases Illness is a Disgrace.

The St. Joseph county teachers' institute closed Friday afternoon after an all week session, which, according to Supt. H. H. Longfield, has been the most helpful and instructive ever held in the county.

Every meeting was attended by nearly all the teachers and the interest was held up to the last. Dr. F. H. Green and Dr. S. C. Schmucker, both of the State Normal school at West Chester, Pa., have been the principal speakers, each delivering two addresses every day. The lectures contained most valuable information to the teachers in preparing them for their fall work.

With the close of the institute in the afternoon, Dr. Schmucker took a very appropriate subject for his lecture. "Ready! Set! Go!" were the words, familiar to all athletes, used by the professor. No one, he claimed, was ready to do good school work who had failed to keep good health. "For nine-tenths of the people it should be a disgrace to be sick," said he. "To keep well he emphasized the importance of sleep, the sleeping room windows open all night during the entire year.

His last suggestion was to get the modern attitude toward teaching today, which is to teach boys and girls, not text books.

Dr. Green talked on the subject, "Counting." He pointed out that each should count his blessings, such as health, learning, home, good parents, surroundings, friends and books, as well as the benefactions or good done. Lastly he said that a count should be made of the blunders made that we can profit by the mistakes.

He particularly mentioned Florence Kingsley's "An Unrecorded Miracle" as a helpful book to read.

A few chemicals properly applied will make the American farmer a millionaire, according to Dr. S. C. Schmucker. In the views set forth in his lecture, "The Future of Agriculture," given at the county institute Friday morning.

When the American farmer applies chemistry and physics to agriculture as have been applied to commerce and manufacturing, his rewards will be as great as have been derived from commerce and manufacturing, Dr. Schmucker said.

The farmer should rejoice at the universal era of "the high cost of living," Dr. Schmucker said, since it heralds the coming of better times for the man on the farm.

Dr. Schmucker asserted that the abuse of accumulated wealth by the second generation is one of the great curses of today.

The greatest factors in the uplift of the farmer, when the farmers recognize its value and learn to work together. The first problem the farmer has to solve is to get a much greater share of the price now paid for their commodities by the consumer. This can only be done by co-operation and he advocated the forming of co-operative societies throughout the country.

Another necessity, he declared, is an honest grading of goods for the m. and honest commission men. With the proper application of chemicals to soil, Indiana, because of its location and its natural advantages, should rank among the leading agricultural states, American soil is only yielding half what it should yield, he said.

Dr. Green spoke during the first period Friday morning and gave an exposition of Tennyson's poem, "In Memoriam." The poem, he said, was among the five great elegies in English literature that grew out of personal friendships.

MAY HOLD SON FOR MURDER OF FATHER

Strikes Parent During Dispute While on a Visit to His Old Home.

RISHVILLE, Ind., Aug. 30.—William Price, age 60, former sheriff of Rush county and Marshal of this city, is dead as a result of an altercation with his son, Erdie, age 25, in this city Friday. Price and his son, who lives at Fort Wayne and who has been visiting his father for a week, met in front of his father's drug store and became involved in a quarrel. Persons who saw them, say the father was the aggressor, and pushed his son off the sidewalk. The son at once retaliated, it is declared, by striking his father a blow on the neck. The father was knocked to the sidewalk with great force and the authorities are not certain whether it was the blow or the fall that caused his death.

The coroner is making an investigation and young Price will be held until the coroner's verdict is returned. Price died about 30 minutes after he fell to the sidewalk.

SUMMER TRAFFIC IS NEARING THE FINISH

Interurbans Expect to Have Winter Schedules Arranged by End of Next Month.

Labor day will conclude the extra heavy traffic for the three interurbans that enter South Bend, Parks and summer resorts at Hudson lake, Pine lake and other points along the lines will close for the season on that day, and it is planned by the last of next month to have the winter schedules made out.

During the past week the fair at Laporte has attracted considerable traffic in that direction while on Sunday the last triangle excursion trip arranged by the Southern Michigan and Northern Indiana lines will make this last trip.

The Goshen fair will no doubt draw large crowds from this territory this week.

IDEAL HOME SITES NOT AVAILABLE

New Sunnyside Sub-division Offers Many Advantages.

Savings lead to wealth! Good investments bring riches! Prosperity fosters contentment! Own your own home and be happy!

The first Sunnyside Sub-division has been placed on the market by E. Louis Kuhns and lots selling at very low prices. The plot is situated on East Colfax and East LaSalle avenues, within one short block of the Madison street car line. Lots are selling for as little as \$450, and the purchase price includes ALL improvements.

Never before has an opportunity such as this been offered South Bend investors. Never before have the owners of any addition had sufficient confidence in their property to go ahead and spend \$15,000 for street improvements alone. Never before have you been able to buy a lot where the sidewalk, curb, gas, sewer, and shade trees have been installed and included in the purchase price.

In all South Bend there is no subdivision like this! What an inducement to own a home! Thousands of families pay rent year after year without a thought as to the foolishness of that method, compared to buying a lot on an easy payment plan, with a view to the future possession of their own home.

Every head of a family should well consider this point and we are confident that the 53 delightful home sites available in this plot will be quickly picked up by wise investors. The location is perfect. Pure air, away from disagreeable smoke and noise, convenient to the city's center with all the advantages that such a location insures, rapid transportation if desired, a walk of less from the shopping district—doesn't this interest you as a site for a home?

Happ and Taggart are the selling agents; offices in the Jefferson building, and they will be glad to assist you in your investigation of the plot.

G. O. P. FIGURES ON FINISHING SECOND

Citizens' Party Attacked in a Meeting Held by Republicans. Joseph M. Callahan Quits Ranks of the Cits.

Marking the beginning of a change in the make-up of local politics, Joseph M. Callahan, recently affiliated with the citizens party as a candidate for city judge, was elected secretary of the city central committee of the republican city organization, to succeed Herbert Warner, at a meeting of the party in the new headquarters on the third floor of the Summers building, Friday night.

William Neis, nominee for city clerk, who has been acting secretary for the republican organization, gave over the office to him Friday night.

The meeting was called for the purpose of shaping the organization to carry out the campaign. Besides the candidates and committeemen, several old time republicans were for the first time, since organization in the spring, seen in the audience.

Since the citizens' primaries sentiment for the old party has been increasing at a rapid rate. Many old time republicans who lined up with the new party in the spring have become disgusted and are now ready to take up with their own party.

Speeches were made by candidates and a large number of boosters. R. W. Rogers, in a short talk, said: "A large number of old republican voters were disgusted with the management of the citizens' primaries, seeing that there was a nigger in the fence; they are coming back and there is no doubt but what the election fight next fall will lay between the democrats and the republicans, with the citizens hustling for third and possibly fourth place."

Reports of the wards was given in by precincts and a meeting will be held next Friday night on which it is hoped to arrange and make the organization perfect.

D. B. J. Schafer, in a speech, urged the necessity of a solid organization, saying that he believed that when one is established, the citizens' party will be forced to "take to the fence" with theirs, which he stated was in a state of chaos.

F. H. Wurzer extended a hearty vote of thanks for his actions taken in past campaigns. Dr. Chas. Calvert, Nelson Jones and all the candidates gave short talks.

MOTORMAN STOPS CAR AND AVERTS ACCIDENT

A fatal accident was narrowly averted early Friday morning at Main and Washington sts., opposite the Olive hotel. The quick thinking and equally quick manipulation of the brakes on a Chapin st. car by the motorman prevented the accident.

A prominent attorney was rounding up a car company with several other attorneys when a strong gust of wind blowing down Main st. carried his hat onto the Washington av. car tracks. A Chapin st. car bore down, the attorney made a dash for the hat but before he could reach it the car swept onto it. The attorney stepped back and with horror written on his face turned away awaiting to hear the crunch of the wheels over the hat.

In its stead he heard the grating grind of the brakes and upon turning saw the wheels stop within one inch of his hat, which he picked up immediately.

EDITOR REFUSED TO EAT PAPER; KILLED

Slayer of Sulphur, Okla., Man is Taken to Adjoining Jail to Escape Mob.

SULPHUR, Okla., Aug. 30.—J. Y. Schenck, editor of the Sulphur Democrat, was shot and killed here Friday and John Lindsay, former treasurer of Murray county, charged with the killing, was hurried from the Sulphur jail Friday night to the more secure prison at the nearby town of Norman, when mob violence was threatened. Lindsay, it is alleged, opened fire on Schenck with a shot gun when the editor refused to "eat" a copy of his paper which contained adverse editorial comment concerning Lindsay.

OPINIONS OF THE DOCTORS DIFFERED

Woman Tells Graphic Story of Suffering and of Hope Abandoned—Then She Was Miraculously Restored to Health.

This letter recently received by Dr. Bartlett, the specialist in charge of the United Doctors' institute, located on the second floor of the Teopp Building, opposite the Post Office, is but one of many which tell of the life of misery and suffering which seems to be the heritage of many women.

Many women suffer constantly, as did Mrs. Fuller, not knowing that it is possible to obtain relief. Thus they drag through life chronic invalids, unable to attend to their household duties, a prey to nervous depression and despondency, never knowing the real zest of living, or that sense of well being and comfort that attends those who are more fortunate sisters who are living healthy, vigorous and normal lives. To such women the following letter should come as a revelation, pointing them unerringly to a source of hope and recovery:

"South Bend, Ind., May 21, 1913.
"Dear Doctors:
For the last four or five years I have been in a very serious physical condition. I had such a long time that I grew weak, could hardly drag about the house. Finally I was compelled to take to my bed, the doctors said I had consumption. Then I was taken to the hospital, where I remained four weeks, and for a time was apparently better, but in a short time the trouble returned, and I suffered again most acute pain in my back and chest. It seemed that this awful suffering would never cease and that I would finally have to give up the fight for relief. I was like so many other women who have constant misery which one doctor says is due to one cause while the next doctor gives an entirely different reason for the distress. Reasons and opinions are plenty, but not much relief. This is the way I went on from bad to worse until I had given up all hope of ever getting back my health, and when I went to the United Doctors I expected to get a prescription for a little medicine for temporary relief. The specialist in charge gave me a careful examination and to my surprise told me that I could get back my health. This I doubted as I had tried so many doctors without any permanent relief. Now I am so happy over the great results I have obtained that words fail to tell my feelings, and I can freely recommend the services of these great specialists to any one who may be suffering as I did.

MRS. WINONA FULLER.
514 W. Division St.

If you are suffering as did the lady who wrote it to your friends, and those you hold most dear, to make every effort possible toward recovery. An opportunity is now offered you to consult a specialist, especially skilled in handling of this type of cases, whose many successes should recommend him to you as thoroughly reliable and trustworthy.

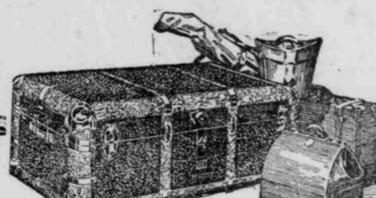

Dr. Bartlett's consultations and examinations are given absolutely free of charge. His terms are moderate, in many cases being only sufficient to cover the cost of the medicines used. You may call upon him at the South Bend Institute at any time during the regular office hours from 9 to 12 a. m., from 2 to 5 p. m., from 7 to 8 p. m., and Sundays from 10 to 12 a. m. Adv.
