The primary is to be held next Tuesday for the purpose of selecting the nominees of the party and the meeting is expected to discuss various matters pertinent to the primary. LATE OPENING IS HANDICAP TO MEN

Other Teams Have Advantage Over South Bend Football Squad.

Owing to the late opening of the high school here this fall, the tan and blue football team is being put to a decided disadvantage when compared with the schools of this vicinity which will be played by the locals this year. Most of these institutions have been put on the practice field for two or three weeks.

Although Capt. Rowe's men have been practicing for the past week not all of the men have made their appearance. A number who are expected to star on the eleven this year are working and will not come out until the opening day of school.

Benton Harbor, the only team that defeated the tan and blue last season is out on the field in full force. Coach Stephenson has 25 huskies out on the field, nine of whom are last year's men and six of them played on the second team.

Benton Harbor is blessed with having no eligibility rules to contend with as the local school has. As long as a player is in school he is eligible for the team and the charge has been made that many of the players there spend the greater part of their young lives in high school.

One of the stars of last year's team, a Negro who played right half, was said to have been in high school seven years.
