CITIZENS LEADERS WANT TO FORGET

Advisory Board Promised Early in Campaign May Not Split the Party.

Trouble between the two elements of the citizens' party, which was carefully avoided during the recent campaign, with some difficulty is beginning to become manifest.

The two factions are the "political element" which ran the campaign and the "reform element," which made it successful.

The two sides may split up. It is asserted now, even before Mayor-elect Keller takes office, on the question of an advisory board.

The political faction, including such leaders as Happ and Guilfoyle, are opposed to this, as a plan needlessly to interfere with running the city.

The reform party is strong for it, it being an effective means of participation by the people in the government and as an effective way of securing the reforms set forth in their program.

The promise to institute an advisory board of ten members to consult with the mayor on civic problems, was a strong plank in the citizens' platform.

While the matter is not vitally important, it is considered significant by students of local politics, as indicating lines of division in the new party that they prophesy may become more pronounced as time goes on.

It is generally admitted that within the ranks of the citizens' party there was an element which was much more anxious about party success than anything else and regarded the city platform simply as a catch vote plan to draw the people to their side.

The people, won over by these pledges, flocked to the citizens' side in such numbers as to make it successful at the polls.

Among them were hundreds of men who had been moved by the Billy Sunday revival services to the belief that many things should be corrected in the city's administration. They were deeply in earnest about it, and were ready to spend time and money to bring about what they considered reforms.

The citizens' party with its attractive program seemed a means most suitable to that end.

It is leaked out since there was on two or three occasions some doubt on the part of the reform element as to whether the politicians who are conducting the party's fight were "on the level" with them. One of the threatened revolts, and required much pliancy and reassurances to get the matter adjusted.

Ready to Get Busy. This reform element, now aroused, flushed with victory, anxious to carry out its conservative platform, is organized and anxious for its work to begin.

The disciplinarian of the citizens' leaders to carry out the first effective plank in the platform, in the matter of the advisory board, is one of the first signs of trouble.

This political element is not anxious to make the matter an issue. They want it simply forgotten about. They are admittedly unwilling to antagonize their supporters and it is expected that aiding of reform element against any demonstration of strength in the matter, the political element will gracefully back down.

FIREMEN WANT SALARIES RAISED

Committee of Three Captains Appears Before Mayor Goetz Seeking Increase for All Men and Officers.

Once more due the ever increasing cost of living South Bend firemen are asking for an increase in wages.

Friday morning a committee of three captains from local fire stations appeared before Mayor Goetz and made their plea for more wages. The committee consisted of Capt. Irving Sibrel, Capt. John Howard and Capt. John Wentland. A raise in the wages of the entire department from the chief down, is asked. The increases asked range from \$120 up to \$300 a year.

The present salary of the chief is \$1500; an increase of \$300, or \$1800 is asked. The \$1350 salary of the assistant chief is asked to be raised to \$1500; captains from \$1000 to \$1200; lieutenants from \$960 to \$1080; wagonmen from \$900 to \$1000.

Mayor Goetz informed the committee that he will take up the matter. He will ask an investigation of the status of the city's pocketbook to determine if the requested increase is possible.

The mayor is doubtful if the increase can be allowed for the present. The firemen have been seeking the raise for two years, he said, but the city's finances have not warranted the raise.

Compared with other cities of South Bend's size, the salaries drawn by the firemen are below the usual range. Due to the efficiency of the local department and the stellar work that the men have done, Mayor Goetz indicated that the requested raise asked would be looked upon with favor by him if the money is found available.

Moses Clapp of Minnesota, and Cong. Victor Murdock of Kansas.

The state committee and the state executive committee will also hold meetings on the same day. All the sessions will be held in the progressive club rooms in the Hume-Mansur building and will mark the formal disjunction of the club.

On this ground the court refused the annulment which Mours asked, charging that the woman had made false representations to him before the marriage. Mours has filed suit for divorce in the circuit court.

Kline was fined \$1 and costs and will be compelled to pay the doctor bill for the injured boy.

Halloween night a number of boys were creating a disturbance near his window. Kline asserted, and he got out of bed and fired a 22 caliber rifle out of the window to frighten them.
