

MISHAWAKA

TO START WORK AT PLANT THIS FRIDAY ANNUAL COALBUSH PICNIC A SUCCESS QUARTER CENTURY CLUB MEETS ON FIELD DAY

Walls of South Race and Foundations of Electric Station to Be Strengthened - New Board for Arc Conduit.

Wednesday afternoon D. L. Chase, construction contractor of Elkhart, Ind., who was hired by Supt. Kline of the water and electric department of the city, to make the necessary repairs to the walls along the race at the city plant, began the unloading of material. Mr. Chase was hired by Kline on authorization of the board of public works and the work will be paid on the cost and percentage basis.

It is expected that the work will be commenced next Friday morning when the water will be let out of the race and the headgates will be closed for two weeks during the layoff of the Mishawaka Woolen Manufacturing company. The concern will also make extensive repairs to the plant during the close down.

Wednesday afternoon tracks for the cars which will be used to haul cement and material, arrived, and also several cement mixers. Necessary equipment is expected to be on the site by Thursday evening. It is expected that the work will require the full two weeks and it may be necessary to work night shifts to complete it in that time. Wires and lights will be supplied and every necessary arrangement to push the work will be made.

The walls along the race east of the plant will be repaired and if necessary reconstructed. The walls have already sunk several inches and are leaning out in a dangerous manner. It is feared they might cave out any time. The wall which is now being used will be left in place and the new one built about it.

The foundations under the plant will also come under the improvement. The far east corner of the old electric light plant is in such a condition that it is feared that the next time high water is experienced the whole end of the building might slide into the race. The entire corner of the building has cracked.

The plant of the old electric station will also be repaired and a new board for the arc circuit will be installed. The old board is cracked and is in a dangerous condition.

JUST A SIMPLE WHITE DRESS. It is not the idea of the WHITE DRESS PARADE to wear a simple or expensive gown. Just a simple white dress you already have; that is all that is necessary to make you a participant in the fete at SPRINGBROOK PARK on WEDNESDAY, AUG. 12th. Do not wear a hat as it may detract from the white dress rather than add to its effectiveness.

What young lady's would not sparkle with joy and delight if she found herself the possessor of a diamond ring like her grown up sister wears. The young miss appearing in the white dress parade whose grace of manner the judges think most worthy of the title will be chosen queen and receive just such a diamond as her heart desires.

Three Maids of honor will receive diamond rings also not so large as that given the Queen but large enough to thrill their little hearts.

BOOSTERS PLAN TODAY TO GET NEW BUSINESS. Mishawaka is today making a determined effort to capture more of the trade of the country contiguous to this city. Not that it does not at present, but it is felt that the idea is to add to this and to show to these people who are trading elsewhere that "Mishawaka has the goods." The booster club is a new idea which recently originated in the fertile imaginations of some of the more enterprising merchants. Such clubs take the place of the more old fashioned business men's organizations almost exclusively throughout the south, and the change is said to have done much towards helping the cities which have such clubs.

In any case, Mishawaka is launching its new organization today, when automobiles are taking some 50 business men who will invade the territory south and east of the city. Dinner was served at Woodland to those having the price. There were some orators in the party and these expounded the virtues of the grass, and the greatness of their city. Everywhere in the itinerary the farmers were talked to and their good offices sought so that they may be induced to do their trading nearer home in the future. Incidentally there will be told all about the home coming next month to which everyone will receive a hearty welcome.

This was the first of a series of such trips into the country adjacent to Mishawaka. Among those who made the trip were A. C. Haslinger, Judge Feig, Stanley McIntosh, Z. W. Maxwell, J. F. Wurz, Aloys Van Rie, H. W. Jones, Vern Lowe, F. M. Barrows, O. E. Lang, Fred Ullmann, A. R. McNeely, C. H. Behar, J. Q. Swanger, George M. Raab, Carl Wilke, Stanley Niles, Charles Doolittle, C. Kreighbaum, F. W. Bunn, Fred Kizer, Charles Ostrom, Peter Lehman.

ENJOY "WEEENIE ROAST." Eighteen young people of this city on Wednesday evening enjoyed a "weenie roast" at the Lake View cottage at Eagle Point. The affair was in the nature of a farewell to the Messrs. Roy Phillips, Plenny Ditz and Ed. Steff, who will leave Saturday for Akron, O., where they have taken positions.

from the southeast and circled about over the forts defending Liege. The Belgian guns fired and it came within range and they fired. A second shot the machine was seen to fall. It was later reported from the fort near which it fell, that one man was found alive.

It is reported here that a squadron of Belgian cavalry surprised Gen. Von Emmich and his staff and a German commander narrowly escaped capture. Seven of his officers were killed.

BRUSSELS, Aug. 6.—The German invasion of Belgium has been smashed. The war office announced today that the German army commanded by Gen. Von Emmich, advancing in two columns from Aix-La-Chapelle, had been repulsed at Liege and Spa.

The Germans lost at least 3,500 killed, wounded and prisoners said the statement issued by the war office. "Belgium has defended its soil from foreign invasion. The Germans are retreating northward. The Belgian army has conducted itself with great bravery. Our losses are small."

Hold Many Prisoners. The prisoners taken by the Belgian troops began arriving here today. Many of them were wounded and had to be taken to hospitals. By 10 a. m. six hundred of the defeated Germans had arrived under guard of Belgian sailors detached from active duty. The latter brought thrilling stories of a battle east of Liege that lasted for 17 hours. The murderous fire of the Belgian artillery at Liege moved down hundreds of the Germans as they advanced on that city shelling and burning Vise and Argentan.

Among the Germans killed were one colonel, three captains and a lieutenant.

AUGUST PODELWITZ.

and taken active command. Part of the German artillery sent against Liege has been captured and scores of prisoners are being taken by the Belgians as they press forward.

Belgian officers stationed at the war office believe that Gen. Von Emmich committed a grave tactical error in dividing his forces. The Germans, 80,000 strong, set out from Aix La Chapelle with heavy artillery and proceeded west, crossing the frontier near Evesden, a town of Netherlands. Within Belgium, Gen. Emmich detached 20,000 cavalry and infantry and sent them south toward Spa.

The main body, consisting of the seventh and tenth imperial corps, crossed the Meuse after leaving Vise in ruins, and then advanced south-east on Liege. All the artillery was taken with the main force, that proceeding toward Spa taking only a few light field guns.

Sieze Railroad. The southern army sent with the purpose of flanking the Belgians on their right wing, seized the railroad as it advanced, pressed successfully through Vervins and Pepinster without meeting desperate resistance.

One report received here said that the train had been blown up, but the war office has received no confirmation of this rumor.

up. They were compelled to halt their armored trains and as they left the cars they received a withering fire from the Belgians protected by trenches that they had hastily dug. With the Belgian rifle fire pouring upon them, the Germans finally succeeded in forming for the conflict.

With two regiments of Uhlans at their head, the Germans advanced and drove the Belgians from their trenches and back toward Spa. Retreating slowly, the Belgians drew their fire into a trap that had been set. Heavy artillery posted on hills along a ravine through which the Germans had to pass as they pursued the Belgians, suddenly opened fire.

Rain Shells on Uhlans. Deadly shells rained upon the Uhlans, each one killing scores as it exploded. Within a few moments the two regiments of cavalry had been practically annihilated, those surviving the terrific fire surrendering. Unable to advance without the support of the Uhlans, the German infantry fell back, fighting desperately. Under cover of their few machine guns they succeeded in boarding their armored cars which proceeded to Pepinster.

One report received here said that the train had been blown up, but the war office has received no confirmation of this rumor.
