MARVELOUS RECOVERY OF YOUNG INDIANA GIRL

ESTHER MAY BAUGHN

Mrs. Sallie Baughn, of R. F. D. No. 2, Lyons, Ind., in a circular, dated July 24, 1914, gives praise to Nature's Creation for the remarkable recovery of her daughter, Esther May Baughn. "Seven years ago last September," she writes, "my daughter was struck accidentally with a ball and she doctored her all winter for rheumatism. The following June an abscess formed on the limb and Dr. ... of Indianapolis, operated and scathed the bone. The following February she was again operated on in the same place. It did not heal, but kept running and pieces of bone came out. She took four bottles of Nature's Creation and her limb has been healed up now for three or four years. She is growing and looks fine."

For children and grown-ups alike, Nature's Creation is the most successful remedy known for tuberculosis and conditions leading to it—such as asthma, bronchitis, catarrh, emphysema and run-down system. Hundreds of letters in our files—open to your inspection—are convincing evidence of the merits of this remedy. If you would like to know more about Nature's Creation, write for "Truth," our free booklet, containing photos and testimonials from local parties. M. L. Haymann, 417 State Life Building, Indianapolis, Ind.
