WORK ON UNION ST. ROAD WILL BE DISCONTINUED

For Season Saturday—New
Main Highway Will be Big
Boom for City—Work Will
be Finished Early Spring.

The new Union st. road, south of the city, which is costing the county in the neighborhood of \$10,000, will be finished in four weeks time after the work is resumed in the early spring. Saturday next, work will be discontinued for the present season. H. W. Keen & Sons of Mishawaka, who are the contractors for the improvement have been at work on the job since August 4, and have had 50 men continuously employed. Their equipment is most complete and comprises a narrow gauge railway with a train of cars which has been making daily trips between the work and the Lake Shore station a distance of about four miles. This miniature train hauled all the gravel from this city necessary for the improvement.

Three miles of the road have been completed, and the contractors say they will have no difficulty in finishing the job within a month after they get started in the spring.

Mishawaka business men look on the new road as one of the best enterprises for the city that it has ever had. For one thing it will bring the farmers of Wyatt, Bremen and Wakarusa four and a half miles nearer this city over a splendid main macadam road. The trouble in the past has been that these farmers could not get to Mishawaka with their produce, unless by a round about way which made it almost an impossibility for them to come here.

The contractors have had to encounter many obstacles in their work, such as cutting down hills of rock and overcoming other such impediments.

The Business Men's association has taken considerable interest in the new road, and a committee consisting of Messrs. O. E. Lang, J. de Lorenzo, F. A. Vogt are at present arranging with the contractors to make a trip over the road within the next few days. C. L. Ostrander, president of the association, in conversation with the News-Times Friday, said that the new road would mean even more for the city than could possibly be imagined. Owing to there having been no means of communication between these outlying places and Mishawaka in the past, trade had been diverted elsewhere which would otherwise have come to the larger city.

TO PLAY LAKE SHORE.
Owing to a previous engagement, the New Carlisle basketball squad will be unable to play the Mishawaka High school second team, tonight. Instead, the second squad will play the Lake Shore office team, as a curtain raiser to the Michigan City vs. Mishawaka game.

SOME NEWS NOTES.

Joseph Pacific, proprietor of a saloon at 230 Hovey st., was found guilty of charges of permitting obstructions to bar the view into his place in city court Friday morning. He was fined \$100 and costs, and charged with allowing persons in his saloon on Sunday was also fined against him but the court held there was not sufficient evidence to fine him on that charge.

WINE ROOM ORDER STUCKS TO LETTER IS BOARD'S ORDER

(CONTINUED FROM PAGE ONE.)
The definite location of neither was decided at the meeting.
Saturday afternoon at 1:15 o'clock the board and the public in general will witness a practical test of a new extinguisher, one that is said to have been used in other cities with entire satisfaction. The new machine is called the minimax, and its agent, G. B. Haines, declares that he will extinguish a blaze in fewer seconds than the old-fashioned water extinguisher. The test will be held near the Oliver race at the foot of E. Washington st. The extinguisher was highly recommended to the board by J. M. Schneider, st.

The report of City Electrician Dickey showed that there had been a total of 318 inspections in his department through the month, with 65 connections. The percentage of all the denunciations was unusually high, the figure being 19.8 per cent.

SEALER MILLER REPORTS.

City Sealer Miller's report stated that out of 72 computing scales sealed 18 had been found defective and condemned for repairs. It also stated that 789 loads had been weighed on the public scales through November. The percentage of all the denunciations was unusually high, the figure being 19.8 per cent.

NOVEMBER LOSS HEAVY.

There was the greatest fire loss of the year in November, according to the report filed by Fire Chief Sidel. The estimated value of buildings at risk was \$169,910, while the value of their contents was given at \$126,995. The loss on buildings amounted to \$14,740, while the estimated loss on contents was \$50,895.

The Twentieth Century garage fire, in which the garage was totally destroyed, with its entire contents of more than 40 automobiles and the Davies team laundry suffered great losses on its building and contents, was the cause of the abnormal losses, according to the chief.

The chief also pointed out the fact that the list of accidents in which fires were blamable was abnormally large. With the killing of Bartley McLaughlin and George McGee at the O'Brien Varnish Co. factory as the most serious, the list contained the names of Capt. Frank Strickler, injured by a falling wall at the garage fire, and the boy who was seriously burned about the face and hands when she attempted to light a stove with gasoline. Thomas Welch and John McGrath also were injured when they attempted to save McLaughlin and McGee.

CHIMNEYS CAUSE FIRES.

Most of the runs by the fire department through the month, according to the figures reported by the chief with the board, were caused by defective chimneys and overheated furnaces. Two blazes were traced to the fact that children had been playing with matches. The fire chief reported his warning to South Bend citizens to keep matches away from young children.

Chief Kerr repeated that the incidental expenses of the police department for the past month had been \$201.97. There were 170 arrests of which 152 were men and 18 were women. Twenty-seven men were sentenced to the city jail from city court. The city jail lodging house started fair for the winter, housing 282 homeless men through the month. The lodging house was completely filled through the blustery days of mid-November.

The patrol made 111 runs and the police ambulance 16 runs. Articles, merchandise and money to the amount of \$3,200 were reported stolen from city. The fire department reported 12 fires were recovered and returned to their proper owners through the month.

U. S. GETS OFFICIAL NOTIFICATION OF TURK'S HOLY WAR

(CONTINUED FROM PAGE ONE.)
Listed that the United States is now men facing each other on the battle front between Ostend and Arrmentiers. The allies, though outnumbered, hold powerful positions and are being held by the floods of water which the Germans use to use certain highways ill adapted to offensive movements.

There has been further stormy weather in the North sea and west Flanders and the weather has been wet, foggy and very cold. The storms which swept the North sea and the Straits of Dover drove inland from the north adding to the sufferings which the soldiers were already compelled to bear.

There has been an outbreak of typhoid fever in the Belgian army, the disease being fostered and increased by the rains of the winter. The Belgians hold the lines nearest to the coast and they caught the full force of the recent storms.

The Germans in West Flanders have been hit by a recent action against the allied troops immediately south of Dixmude. These guns, which are among those recently rushed to the front, are located along the coast. The allied troops were turned against the French and British which were directed against a number of houses which obstructed the view of the Germans.

These houses were soon destroyed. The Allies hold Ypres.

Ypres still remains in the hands of the allies, but the troops defending it are compelled to undergo terrific hardships. The recent rains have turned some of the trenches into running brooks. The wet weather has also added to the disastrous conditions of the roads.

In order to overcome these difficulties employed by the bad roads the Germans have mounted a number of guns on light automobile frames. Some of these guns have a range of 10 miles and the cartridges upon which they are carried are so light that they can pass over the mirey highways.

It is reported that Earl Kitchener, the British secretary of state for war, came to France at the same time as King George and that he is paying a round of visits to the trenches on the front line to inspect actual conditions with his own eyes.

FINED ON ONE CHARGE; IS FREED ON ANOTHER

Joseph Pacific, proprietor of a saloon at 230 Hovey st., was found guilty of charges of permitting obstructions to bar the view into his place in city court Friday morning. He was fined \$100 and costs, and charged with allowing persons in his saloon on Sunday was also fined against him but the court held there was not sufficient evidence to fine him on that charge.

DAVIES TEAM SAVED.

The Davies team, which was reported lost in the fire at the garage, was found safe and sound in the barn at the garage.

RUDOLPH MARKER IS "CHAMP" CORN GROWER

Madison Township Boy Wins
First Prize in St. Joseph
County Contest.

Rudolph Marker of Madison township, is the champion boy corn grower of St. Joseph county for 1914. Marker raised more and better corn to the acre at a smaller cost than any other lad of the county who entered in the annual corn growing contest for 1914. Marker's yield averaged 87 bushels per acre. He raised this at a cost of 17 cents per bushel and at the end of the season after paying for his seed, his labor, the fertilizer, etc., he had a net profit of \$43.77 per acre.

NEED BETTER DISCIPLINE AND INSTRUCTION IN U. S. NAVAL MILITIA

WASHINGTON, Dec. 4.—Need for better instruction and more discipline in the naval militia of the country is emphasized in the annual report today of the division of the naval militia affairs to Secy Daniels, Commander F. B. Bassett, Jr., U. S. N., head of the division, urges that the navy at once furnish sufficient inspectors-instructors, naval militia and that the allotment of vessels to this service be increased.

Appeal is also made to the states to make larger appropriations in view of the grant of \$25,000 to this work by congress for the current fiscal year. Naval militia organization on June 30, 1914, totaled 596 officers and 7,132 men.
