Through these columns the house wife not only secures her domestic help, seamstress, laundress, nurse and cook, but she trades her old piano for a nearly new dining room set, her old sealskin coat for a costly sideboard, and "hubby's" old overcoat for a load of kindling wood.

In the course of time she finds a better place to live at a lower rent, finds a cost buyer for that suburban lot, discovers a better music teacher for the children and rents an extra room in the house to pay the wages of the household help.

**Advises Lime for Tuberculosis**

According to the Journal of the American Medical Association (July 27, 1912, Page 308), Dr. C. F. Dixon, of Minneapolis, holds that a "deficiency of calcium" (lime) is responsible for the physical conditions which lead to tuberculosis, and the therapy he advocates rests on this basis.

One of the reasons for the widespread success of Eckman's Alternative in the treatment of tuberculosis and chronic throat and bronchial troubles is its ability to supply this deficiency.

It contains a lime salt in such form and so combined with other remedial agents as to be easily assimilated by the average person. There are on record many cases in which it seems to have effected complete and lasting betterment.

However, we make no exaggerated claims for Eckman's Alternative. We prefer that it be tried on the same basis as any other prescription, and we believe it will help, for IT HAS HELPED in many cases.

It contains no opiates, narcotics or habit-forming drugs. Therefore, it is safe to take. If your druggist is out of it, he will order, or you can get it direct.

Eckman Laboratory, Philadelphia.

If the theorizing Prohibitionist was compelled to work in a steel mill, grind shop or a stuffy factory, preferably in the hot summer months, then there a miracle would happen to him. He would learn that in the long day's grind the modern galley slave needs a mild stimulant to sustain him—to bridge him over to meet another day.
