

FIRE PREVENTION OBJECT OF FIRST CLEAN-UP EFFORTS

First Day of Campaign for Safer and More Beautiful City Productive of Good Results, Committee Says.

All rubbish and waste that has been lying in alleys and streets and vacant lots inside the city limits will have been removed today, thus abating a portion of the city's greatest fire risk.

Today, the first day of clean-up week, the fire prevention day, which has become no longer useful as places of storage or residence, and have become dangerous as firetraps.

The chairman of the committee reported himself satisfied with the results of the day's activities, although the results might have been slightly better.

Today was observed to a better extent in the west side than on the other side of the river. It seems that the foreign element of our city have at last taken to the idea of sanitation and good health.

In the churches of the city Sunday special attention was called by the pastors to the need of cleaning and painting up the city.

Wednesday will be known as repair day. Citizens will be expected then to remove dilapidated buildings, repair fences and build up in general.

The back yard will be improved Friday, and gardens will be planted. Vacant lots are to receive all possible attention on Saturday, the closing day of the campaign.

In connection with fire prevention day, city firemen under the direction of Irving Sibel, chief of the department, are making approximately 1,000 personal inspections of business houses and residences in all parts of the city.

Hundreds of club women, working under the direction of Mrs. L. S. Kinsinger, chairman of the women's committee, are at work distributing pamphlets and board of health cards against sidewalk spitting in every part of the city.

EPIDEMIC OF MUMPS BECOMING SERIOUS

Health Office Has Record of 129 Cases—139 Births During April.

Cases of mumps in the South Bend schools have become so numerous in the few days that the disease has reached the epidemic stage. According to the report of the clerk of the board of health, there are at present 129 cases in the city, and more are being reported every day.

The birth record for April was 139, against 74 deaths. Nineteen of the deaths reported were of infants who were born in 1914, impure milk and poor sanitary conditions are given by the board as reasons for this heavy infant mortality record.

According to the report of the sanitary officers, Philip Koettner and William Lichtenberger, the city is in better shape from a sanitary standpoint than it has been for some time. It seems, according to their report, that the citizens are endeavoring to cooperate with the board in the effort to make the city as free from insanitary conditions as possible.
