—Select Garden Spots.

The entries for the second annual lawn contest conducted by a committee of the civics department of the Mishawaka Woman's club, will close this evening. Those still desiring to participate in the contest and not yet entered may do so by giving their names and addresses to Mrs. J. W. Russell of 1016 Lincoln way E., Home phone 509, or Mrs. J. W. Keller of 910 Lincoln way E., Home phone 185.

According to Mrs. Russell and Mrs. Keller, who have had the entry list in charge, the required number of entries from each ward have been received. An inspection tour will be made within the next week by the committee in charge. Another tour will be made following the close of the contest when judges will award the prizes.

The total prize list aggregates a sum of \$150. As there are five wards in the city, this fund has been divided and allows \$30 which will be subdivided into four prizes of \$12, \$8, \$6 and \$4, for each ward.

The following are the conditions and rules governing the contest. Improvements and general appearance of lawns from curb line to rear line of property. The care of lawns, flower and vegetable gardens; neatness and evenness of edges; elimination of weeds; covering old buildings, fences, etc., with vines and shrubbery. General sanitary conditions.

The committee in charge this year is composed of Mrs. George B. Williams, chairman; Mrs. George Eberhart, Mrs. E. H. Ahara, Mrs. Robert Robertson, Mrs. Ralph S. Feig, Mrs. William E. Tupper, Mrs. Schuyler Rose, Mrs. Ralph Nash, Mrs. Fred C. Grimes, Mrs. E. A. Beamer and Mrs. Katherine Bressler.

Aside from the efforts to make Mishawaka a city beautiful by the lawn contest, the civics department has arranged this year to beautify several unsightly unimproved pieces of property in various sections of the city. Six have been so far selected and are now under the care of committees in their vicinity. These lots were formerly eyesores, but by the use of grass seed, gravel for paths, and vines and flowers gardens, the spots have been greatly improved.

The beauty spots under the care of the Woman's club are located and under the supervision of the following people: 800 block, Lincoln way E., Mrs. A. B. BOWLERS STILL PLANNING PROGRAM FOR BIG BANQUET

The committee composed of Dr. Walton, Charles Roy and E. C. Went are still busy planning the program for the first annual bowlers' banquet which will be given Wednesday evening at the Hotel Mishawaka. Just what is to occur at that big event has not been fully decided upon and probably would not be given out at the last, as the entire entertainment will be composed of surprises which will be put on at the expense of several of the bowlers present. However, added features will be Martin's orchestra, and a quartet which has not yet been selected.

Over 100 bowlers of Mishawaka and South Bend who have participated in bowling schedules during past years rolled on local alleys, will be present according to the committee. This is the first bowling entertainment of this nature ever attempted in Mishawaka and it is expected that it will be a success.

FORMER MISHAWAKAN KILLS BEAR IN WIS.

Carl Wilke Monday received an interesting account of a bear hunt, in which Walter Stickler, a former Mishawakan, took a leading part. Mr. Stickler is now located at Marcell, Wis., and had been told that a bear had been seen prowling around the neighborhood of the resort which he manages. One morning recently a guest of Mr. Stickler reported that he had been chased by master bruiser. Stickler and a guide started in pursuit of the enemy which was found lurking in the neighborhood. A shot was sent into his system, but the result was hardly what the hunter anticipated. Bruin displayed some temper and made a hurried sprint to the nearest tree which he mounted. The picture shown at an excellent target and another heavy charge of shot found the vital spot in his anatomy and brought his bearship to the ground dead. Mr. Stickler having done the shooting.

PRINCESS THEATER HAS BIG DRAMATIC FEATURES

The nightly offerings at the Princess theater continue to draw immense crowds, and Monday the place was literally jammed from the time the doors opened until the closing hour. The pictures shown at this popular playhouse are always good, but last night's series were exceptionally so. Charlie Chaplin, the versatile English comedian, is featured at the Princess every Monday night, and this alone is sufficient to draw from all parts of the city. However, he had splendid company last night, the other films being of a high class and most interesting character. Under the management of George Senger, Mishawaka's two playhouses set the best of their standard, and that his efforts are appreciated is evident from his large clientele.

BIRTH RATE ON DECLINE

British Statistics Show Falling in Death Rate, Also.
LONDON, May 25.—Statistics of 1913 just published show the birth rate in England and Wales is still falling, being 2.9 per 10,000. The death rate is also slightly lower, but not enough to compensate for the fall in the birth rate. Fifty-two persons aged 100 years or over died, of whom only 13 were men.

PEEKSKILL, N. Y.—Miss Elizabeth Umberford fractured her arm while showing her friends some gymnastics she had seen Billy Sunday do.

War Brings Climax in British Temperance

By Philip Everett

LONDON, May 25.—Great Britain was drinking less liquor every year when the war broke out, but since the conflict began there has been a decrease in the amount of beers consumed and an increase in the amount of spirits. The rise in the sale of spirits has been due principally to the high wages in the ship building and other industrial areas.

Eight years ago there were 197,000 convictions for drunkenness in England and Wales. With the population steadily increasing in numbers, the number of convictions had fallen to 168,000 in the year before the war started.

The effect of the war on convictions is not obtainable in figures, but since Aug. 1, 1914, there has been a decrease in consumption of 2,000,000 gallons of beer compared with the same period of 1913-1914, an increase of 71,000 gallons of spirits and a decrease of nearly 2,000,000 gallons of wine.

An interesting map published here shows the prevalence of drunkenness in different parts of England and Wales. The dark areas of hard drinking lie in the center and north, especially the latter. Here, it is to be noticed, the consumption of spirits is highest and the beers drunk are heavier, i. e., contains more alcohol, than in the south and southeast.

Drunkenness drinking are comparatively non-existent on the east and south coasts; indeed, in all areas in which agriculture provides work for most of the people and sunshine and sobriety go hand in hand in the British isles.

In these sunny areas light beers are preferred to the heavier beers of the hilllands and the much heavier beers of the north.

In the war districts of the lowlands of Scotland, as well as in the highlands, whisky may well be accounted a national drink.

When in 1909 the tax of whisky was appreciably increased, the number of convictions for the year fell by 18,285. The effect was extraordinary in Scotland, where convictions in the towns fell by 27 per cent. Until a few months ago the distilleries had not recovered from the blow dealt them in 1909, the consumption of whisky having steadily fallen until it reached 10,000,000 gallons a year.

Apart from outbursts which are spasmodic, drunkenness and drinking are steadily decreasing among all classes.

In Glasgow, where the whisky is the drink, 21,000 persons were arrested in 1907 for drunkenness, 1,706 on Sunday, which is supposed to be a closed day for the public houses. The 1909 increase in convictions caused Glasgow to record 7,000 fewer cases of drunkenness a year.

ANNUAL EXODUS FROM UNITED STATES STOPS

War Proves Effective Crimp to Trans-Atlantic Travel, Say Agents.

WASHINGTON, May 25.—The exodus from Washington for the summer this year will carry but few Washingtonians to Europe.

Usually by this time those who generally go abroad have left the ranks of society and officialdom depleted. But not so this year. The war is the cause. Europe's playgrounds have been turned into battle fields and its hotels and villas into hospitals.

So the American traveler, he will be the first tourist, or the frequent visitor, must remain within his own domain. He must content himself with what is afforded on this side of the "pond."

For if he attempts to cross he will traverse a body of water now charted into war zones, dotted with floating mines and infested with deadly submarines. It is this probably more than anything else that makes the would-be voyager think twice before embarking. For the man who fears none of these there is an almost insurmountable barrier erected by no less a person than his Uncle Sam.

State Department Interfers. The department of state has put into effect a rule not to issue passports except to those traveling on urgent business. Steamship agents here are complaining of business this year. Their bookings, they say, have been reduced to almost nothing, there is no visible prospect of an improvement during this summer. The only customers this year, they say, are those persons whose business abroad is imperative.

Agents of the great trans-Atlantic lines all over the United States say that there are having similar experiences. This situation, however, will result to the profit of the United States gold abroad, as has been the annual custom for years. Americans will be compelled to "see America first," get acquainted with their own country, and spend their gold here.

Foreigners who come to the United States seem to be favorably impressed with the "show," so there's no reason why the native should think it other than "not half bad." American departures for Europe for the month of May are not expected by local agents to exceed 12,000. The bookings for May last year were 20,000. So far, the advance bookings for May, June and July combined indicate that they will not equal the normal bookings for one month in peace times.

In the first four months of last year 166,740 passengers were attracted to Paris, Berlin and the Riviera. The grand total for all European points for the same period this year was only 45,950.

WHEN, WHERE AND HOW TO SING.

On arising, take several deep breaths (always in a well-aired room or out-of-doors). Draw in your breath for four or five seconds, then hold it for the same length of time. Then let out your breath slowly. Do these things several times every morning. Sing before meals rather than after meals. If you are a hearty eater wait at least an hour after eating. Then sing. Sing until your voice "warms up," and you feel that you can sing easily. Do not square your shoulders, but stand at ease, upright and with your head slightly thrown back. You must breathe freely for good singing is fully one-half good breathing. A simple test for breath-control is this: Hold some book you know well and after taking a good, long breath about to read, do not draw and do not hurry. Read easily and in the tone you use when talking to your friends. Take your watch in hand and after reading without taking breath. You should be able to read 60 seconds on one breath. If you cannot do this you need breathing exercises.

If possible, arrange your affairs so that you can sing for a few minutes—no less than 10 and no more than 25—three times a day, morning, afternoon and evening. If you cannot do after your day's work before you begin to sing. If your work keeps you much indoors, a short walk is the best preparation for low morning air. At the end of the day, you are too tired to walk. lie down in a well-aired room and relax completely till well rested.—Woman's World for June.

WORKS BOARD OPENS BIDS FOR TWO NEW PAVEMENTS

Bids for two pavements were opened at the regular meeting of the board of public works Tuesday morning. These were for pavements on Bowman and Fellows sts. These were turned over to City Engineer Anderson for tabulation and will be reported back to the board at tonight's meeting.

An assessment roll for a pipe sewer on Milton av. from High to Miami was filed.

The board adopted a resolution calling for a grade, curb and sidewalk on Hill st., from Corby to Howard. Proposed pavements at Frierlinger st., Fulton ct., and Allen st., will be considered by the board at tonight's meeting, as will also the petition filed recently by residents of Franklin st. for a pavement.

NO PARCEL POST TO ITALY

Service With U. S. Is Temporarily Suspended.

WASHINGTON, May 25.—Italy today called the postoffice department that parcel post service between the United States and that country has been suspended temporarily.

Postmaster Gen. Harrison immediately notified all postmasters that, until further notice, they shall not accept any parcel post matter for Italy. Other classes of mail matter are not affected by the order.

TO RESPECT NEUTRALITY.

BERNE, Switzerland, May 25.—Official announcement was made today that the German Austro-Hungarian and Italian governments had pledged themselves to respect the neutrality of Switzerland.

The British have a new American gun which they are using to arm their aeroplanes. It is loaded in the middle and the shock caused by the discharge of the weapon is neutralized by an air cushion in the end that does not contain the bore.

In South Africa there is the "sneeze wood" tree, which is so called because one cannot cut it with a saw without sneezing, as the fine dust has exactly the effect of snuff. No insect or worm will touch it; it is very bitter to the taste, and when placed in water it sinks.
