

BREAK OF LA FORCES IS EXPECTED

Rebel Leader Said to Be in Revengeful Mood—Gen. Scott May Be Ordered to Mex Border.

LAST CHANCE TO BE GIVEN RIVAL LEADERS

United States to Have Backing of American Republics to Stop Bloodshed in Mexico.

BROWNVILLE, Texas, Aug. 6.—A man and woman were killed today at Sebastian by Mexican outlaws, who raided that village.

Sebastian is 37 miles south of here. United States cavalry men from Herlingen, 12 miles distant, have gone to Sebastian.

WASHINGTON, Aug. 6.—Gen. Scott, chief of staff of the army, may be sent to the Mexican border at once to prevent a possible series of depredations by Gen. Villa. This belief gained credence today when Gen. Scott held a long conference with Sec'y of State Lansing.

That officials fear a Villa rampage has been known for several days. It is felt that the rebel leader, realizing he is to be crushed, and blaming the United States for failing to recognize him, may take revenge by "shooting up" several towns along the border.

Gen. Scott is a strong personal friend of Villa and department officials believe he can exercise enough influence over the rebel chieftain to keep him from breaking over the border.

Sec'y Lansing refused to discuss the report. He did say, however, that it was not planned to send any more troops to the border. He said he believed the forces now there could cope with any situation that might arise.

Vice Consul Zoeller at Juarez reported to the state department today that Villa arrived there yesterday. Zoeller stated that the rebel chief did not confiscate any property, as reported, nor did he confer with storekeepers.

EL PASO, Texas, Aug. 6.—Heavy shipments of munitions to Torreón indicates that Gen. Villa expects a decisive battle there in the near future. While Villa, who has come to the border for conferences, professes to be confident that he will be able to defeat the forces of Gen. Obregon now at Monterey, Villista officers in Juarez indicated that their leader was planning an immediate return to Torreón.

From Carranza headquarters there came a report today that Villa had come to the border to get a loan of \$250,000 in gold from American mining operators, who own property

(CONTINUED ON PAGE THREE.)

BAY IS SEARCHED FOR MORE BODIES

State Lends Hand to Prevent Possible Outbreak of Disease at Erie.

ERIE, Pa., Aug. 6.—The machinery of the state turned today to the aid and protection of the victims of the muddy broom which swept a path through the heart of Erie Tuesday night. Health officials from Harrisburg planned measures to prevent water pollution and a possible outbreak of disease. The menace of the many carcasses of animals in the flood district received first attention today.

A squad of state police from Butler arrived today to guard the devastated section and protect all homes and workers in the district from molestation.

Four bodies were recovered yesterday, all of them previously having been reported missing. The list of identified and known missing victims is not expected to exceed 25. The bay now is the center of the efforts of those searching for bodies and in its waters were found all those recovered Thursday.

As a more calm survey of the disaster is taken, the total of the property damage grows. Although the spectacle strikes all observers as a terrible ruin, the actual monetary loss will not pass \$6,000,000.

Today friends and relatives of those to whom the torrent spelled death held funerals. At least a dozen sorrowful processions were seen in Erie.

With the turning on of the gas last night the flood situation was relieved, and most of the citizens welcomed warm meals and light.

PLACING TELEPHONE WIRES UNDER GROUND

Work Ordered by the Board of Works Being Done by Central Union Co.

Work of placing all telephone wires in underground conduits within the fire limits as ordered by the board of public works has begun by the Central Union Telephone Co. According to E. T. Bonds, general manager of the local branch, new equipment which has been ordered, has arrived and active work has begun.

The cost of removing the overhead wires and taking up the unsightly poles will exceed \$50,000, said Mr. Bonds. The war, he said, has set the price of cable, copper, and other metals used in wiring up to an almost prohibitive price. Many delays because of this have been occasioned which has prevented the corps of linemen from beginning active operations weeks ago.

Most of the overhead wires within the fire limits of this company have been disposed of, said Mr. Bonds. "The remainder, however, will entail much additional expense."

OLD SOL GREETED HERE

Sun Finally Finds His Way Back to South Bend.

J. Jupiter Pluvius made a most auspicious showing during the first few August days, but Friday he was foiled. The sun shone Friday for the greater part of the afternoon, the first time since Sunday.

Warm weather has been announced for Saturday, and still fairer weather next week. Heavy losses to farmers are expected unless there are a few warm days of sunshine immediately. The crop condition, especially the wheat and oats is scarcely touched as yet, but unless a few warm days come along and dry out the grain for threshing, there is liable to be a shortage around in northern Indiana, the farmers say.

KITTEN MAD; IS KILLED

"That's My Kitty," Says Small Delay in Adjoining Yard.

Excitement prevailed at 299 W. La Salle avenue Friday morning when neighbors telephoned the police station complaining that a cat which apparently looked as though it had rabies was running around in circles. It took Motorcycle Patrolman W. J. Wesolok just a jiffy to get to the scene of the mad cat. He found a little kitten slumbering peacefully before the front door.

The officer said the cat looked tame. The neighbors thought it was mad, so Wesolok shot it. A small voice from the next yard then cried, "That's my kitty."

HEALTH OF CITY IS GOOD

Not a Contagious Disease Here, Says Health Report.

Dangerous contagious diseases have been blotted out of South Bend for the time being. According to a report of the health officer Friday, there is not a dangerous case of a contagious disease in the city.

CONCERN IS INCORPORATED

George E. Stouffer Co. Is Capitalized at \$50,000.

Articles of incorporation for the George E. Stouffer Co. have been filed with the county recorder. The proposed capital stock of the company is \$50,000 and the incorporators are George E. Stouffer, president; Meta Stouffer of South Bend, and Abraham Rosenberg and Samuel Rosenberg of Brooklyn, N. Y. The purpose of the organization is to deal in farm produce.

ARE FIRST TO REGISTER

Two South Americans Arrive to Attend Notre Dame.

The first two students for the year 1915-16 were registered at Notre Dame Friday morning. They are Gabriel Restrepo Jaranillo and Eladio Restrepo Jaranillo of Medellin, Columbia, South America. The two brothers will enter the preparatory department of the university. They were accompanied to Notre Dame by their father, Nacimo Restrepo Jaranillo, a prominent merchant of South America.

FAILS TO SUPPORT WIFE

Frank Warner Denies Charge When Arraigned in Court.

Frank Warner of the Turkey creek road was arraigned in city court Friday morning charged with wife desertion. His wife, Eulalia Warner, was complaining witness. She alleged that Warner had left her in destitute circumstances after they had had trouble, and that he refused to provide for her. Warner pleaded not guilty to the charge and the case was set for Aug. 7.

WIFE FAILS TO PROSECUTE

Charges of Assault and Battery Are Dismissed.

Charges of assault and battery filed against Ignatz Mittamyer recently by Mrs. Mittamyer were dismissed in city court Friday morning when the wife stated her unwillingness to prosecute. It was said the couple had patched up their differences and that the wife was willing to give her husband another chance.

MARRIAGE LICENSES

Elton A. Choupek, physician, Chicago; E. Lettie Shaw, Chicago.

MORE RULES FOR TRAFFIC ARE WANTED

Board of Works in Lengthy Session Discusses Handling of Motor Driven Vehicles.

POLICE FORCE CAN'T HANDLE SITUATION

More Men Needed Is Contention of Board—Would Keep Women Drivers Off the Main Streets.

South Bend traffic regulation and the city's need for more men to control it was discussed at length by the board of public safety at its regular meeting Friday morning. It was declared by John A. Hilberd, member of the board, that unless the city council appropriated funds sufficient for the appointment of two or more police officers, congested conditions in the central business district would become more dangerous and hazardous instead of improved.

Police Chief Millard F. Kerr presented the board with a list of recommendations forwarded to his office by the Safety First federation of America, of New York. Martin V. Cole, former street commissioner, offered several suggestions for the control of motor vehicle traffic, and for bettering conditions on Michigan st. between Colfax av. and Washington av.

Kerr urged the placing of warning signs at the most conspicuous points in the city, and placed several samples before the board. These signs have been adopted in other cities, and were recommended to the city by several municipalities in which they have been tested. The board refused to purchase any number at present, but stated that in all probability there would be need of them later.

Chief Makes Recommendations

Kerr also recommended the following stipulations in a proposed list of traffic regulations:

- A standard code of hand signals to be used by traffic policemen at all intersections.
- Elimination of glare of head and tail lights.
- Standardization of left hand turns at congested corners.
- Rear lights on all horse drawn vehicles.
- Elimination of steps on all horse drawn vehicles and motor trucks.
- Standard size, color, design and means of attaching for all traffic signs, including school, hospital, church, safety zones, fire hydrants, railroad and street railway crossings, alley, mail boxes, cross-walks, parking.
- Licensing of drivers and operators of all motor vehicles.
- Exclusive use of siren whistles on police and fire vehicles.
- Standardization of accident reports from all departments of the city government.
- Compelling motor vehicles to detour around a block instead of turning completely around at a street intersection.

Is Growing Problem

Traffic regulation, according to members of the board, is a growing problem and one with which the local police department is little fitted to cope. The jitney bus traffic, according to Mr. Hilberd, is becoming a menace to the safety of the public in that these are so numerous that their control at congested street intersections is practically impossible.

(CONTINUED ON PAGE EIGHT.)

HOME FOR INDIANA'S MILITIA IS WANTED

INDIANAPOLIS, Aug. 6.—A movement for the erecting of a national guard armory adequate to house the entire membership of Indiana's citizen soldiery was definitely inaugurated today by 30 prominent men, representing the chamber of commerce and all other bodies of the city. A committee headed by A. G. Blosser took up the work of organizing the Indianapolis Armory Building association.

Another committee of national guard officers acting with Carl Fisher of the Indianapolis speedway began plans for the state military tournament to be staged at the speedway during the state fair week from which it is expected that an initial fund of \$25,000 to \$100,000 will be raised toward the occupying of the new armory.

The military demonstration outlined will comprise every phase of modern warfare maneuvers from the striking of shelter tents to the firing of bombs from rapidly moving automobiles and aerial craft.

LONDON, Aug. 6.—The British steamer Midland Queen has been sunk by a German submarine. Her crew was landed today.

DAUGHTER OF ASQUITH IS TO MARRY SOON

MISS VIOLET ASQUITH.

LONDON, Aug. 6.—Marriages have increased 50 per cent since the beginning of the war. Among the prominent marriages announced for the near future is that of Miss Violet Asquith, daughter of the premier, who will wed Maurice Bonham-Carter, the premier's private secretary. The marriage was to have been solemnized on July 27, but was postponed owing to the illness of Miss Asquith, who contracted typhoid fever while nursing her brother, an officer under Sir Ian Hamilton in Egypt. The wedding will take place as soon as Miss Asquith has recovered.

TO MAKE REPORT ON SHIP DISASTER

Samuel Gompers Will Present Labor Leaders' Findings in Eastland Case.

CHICAGO, Aug. 6.—Samuel Gompers, president of the American Federation of Labor, will leave Chicago tonight for Washington to lay before President Wilson the findings of himself and a committee of labor leaders in their private investigation of the steamer Eastland disaster. He refused to disclose anything regarding this, but would report to the president.

WASHINGTON, Aug. 6.—The people of Chicago have no criticism to make against the inquiry being conducted by the department of justice into the Eastland disaster.

LEAVES \$4,000 ESTATE TO ELEVEN RELATIVES

John Kline of Madison Township Remembers Nephews and Nieces and Forestalls Contest.

Personal property valued at \$4,000 is left to five nephews and six nieces by the will of John Kline, who died in Madison township on July 31. The will is dated July 12, 1897, and was entered for probate Friday afternoon. The executors are a brother, John Adam Kline, and a brother-in-law, Adam Dietl.

The largest single bequest is that of \$1,000 to Walter V. Kline, eight hundred dollars is left to Lena Elita Dietl. The remainder of the property is to be divided between the other nephews and nieces. The will states that if any of the relatives were not largely remembered and the provision is made that if anyone shall start a contest of the will that person shall thereby forfeit any provision made for him.

Large Army Still Needed By Germans Against Russians

PARIS, Aug. 6.—The German victory at Warsaw and the great military operations elsewhere in Poland were analyzed for the International News Service by Georges Clemenceau, premier of France, and three of the leading French military experts. Their analysis follows:

By Georges Clemenceau. While the German armies are preparing to enter Warsaw, those in supreme command and the kaiser doubtless think that they will not derive very definite results from the difficult Polish campaign.

BRITISH MAY BE MADE TO AID COUNTRY

Lord Kitchener Confers with Premier Asquith and Report Says That Conscription is Favored by Cabinet.

NEW COMMANDER FOR FRENCH AT DARDANELLES

Several Attacks Made by Germans in West, But Paris Claims They Were Driven Back.

LONDON, Aug. 6.—Lord Kitchener conferred with Premier Asquith today for the third time in four days. The war secretary also has held conferences with several other ministers of the coalition cabinet and a report is in general circulation that as a result of his efforts the cabinet has practically decided upon a policy of conscription.

No official announcement has yet been made and it is possible that none will come before parliament reconvenes on Sept. 24, but it is by that time the Germans have not been checked in the eastern theater of war it is probable that conscription will be deemed necessary.

Some members of the cabinet are said to oppose conscription in any form, but Lord Kitchener is reported to have gained the support of the most influential minister.

PARIS, Aug. 6.—Gen. Maurice Sarrail has been appointed commander of the French forces at the Dardanelles, it was announced today. The shift in commanders at this time is believed to forecast a more energetic offensive by the land forces against the Turks.

Gen. Sarrail is one of the popular heroes of France. Though but little known at the outbreak of the war, he became famous through his defense of Verdun. Leading the third army he defeated every effort of Crown Prince Frederick William to capture the fortress and thus open the way to Paris.

PARIS, Aug. 6.—German troops made several attacks along the French front during the night, but the war office announced this afternoon that all these assaults had been repulsed.

The text of the communique follows: "In Artois there were grenade attacks around Souchez all night. Before dawn the Germans attempted a German attack was easily and quickly broken up."

"In the Argonne, the battle with bombs and petards, supported by artillery, continued with intensity during the night, particularly around Hill No. 212. In the region of Fontaine-Aux-Charmes and toward St. Hubert, to the west of Hill No. 213, the Germans attempted to debouch from their trenches, but they were immediately checked by our fire."

"On the Meuse heights, at Boisse Haut, the enemy made two unsuccessful attacks. The attacking forces were thrown back by grenades and rifle fire. "In Lorraine the Germans bombarded during the night the village of Embornel and our positions around Reillon."

"Two German aviators threw 10 bombs on Fraize, in the valley of the Meurthe, killing two women and a soldier. "In the Vosges the night was quiet."

WEATHER DELAYS WORK ON LINCOLN HIGHWAY

Steam Shovel Work on the Road Has Been Finished and Three Miles Are Ready for Concrete.

Construction work on the Lincoln way has been delayed considerably lately by the weather. All of the steam shovel work on the 12-mile stretch has been completed. There remains now 18,000 yards of dirt to be moved by team. A stretch of three-quarters of a mile of the highway north of Terre Coupee station has been completed. The subgrade on this stretch has been finished ready for the concrete.

HAITI WILL ELECT PRESIDENT SUNDAY

WASHINGTON, Aug. 6.—State department advices today indicated that the Haitian situation is clearing rapidly.

Charles d'Affaires Davis at Port au Prince reported that Admiral Caperton had placed Col. Cole of the marines in military control of Port au Prince. Capt. Beach was designated to handle civil matters and negotiations for transfer of the government back to the Haitians. They are making their headquarters in the Port au Prince barracks.

The new president in Port au Prince announced that congress would meet on Sunday to elect a new president. The commission named by Caperton still was at Cape Haitien continuing its work.

RUSSIAN LOSSES UP IN MILLIONS

PETROGRAD, Aug. 6.—Evacuation of Warsaw by the Russian government \$25,000,000. It was officially announced today. This amount was granted by the war office for the removal of mills and factories from the Polish capital to the interior of Russia.

Military experts estimate that fully \$50,000,000 worth of property were destroyed by the Russians before they gave up the Warsaw and Ivangorod forts. The bridges over the Vistula which the Russians destroyed alone were worth more than \$15,000,000.

ALLEN QUITS AS JOLIET WARDEN

Refusal to Permit to Live Outside of Prison Cause of Resignation.

CHICAGO, Aug. 6.—Warden Allen of the state prison at Joliet, Ill., today wired his resignation to Gov. Dunne. The warden was in Chicago awaiting a response to his telegram. The warden requested that he be allowed to live outside the prison, since the brutal murder of his wife, Gov. Dunne yesterday announced in Springfield that he was unable to grant the request because the law specifically states that the warden of the prison must live within the confines of the penitentiary.

SPRINGFIELD, Ill., Aug. 6.—Gov. Dunne was quite angry today when he heard that Warden Allen of Joliet in announcing his resignation had blamed the governor for not permitting him to live in Chicago.

"Why, I am merely following the statutes," the governor exclaimed. "The statutes specifically provide that the warden shall live within the prison, and I think it is a wise precaution. With the warden in Chicago an emergency might arise which would be serious. But no matter what my opinion might be I have no discretion in the matter."

The governor appointed Lawrence Ryan of Decatur, who has been serving for three months as deputy warden, to serve as warden until the appointment is made.

It is reported that the reason for Allen's resignation is his decision to run for the democratic nomination for governor.

NINE MEN SENT TO STATE PENAL FARM

Report of Police Department Shows 308 Arrests Made During Month of July.

Nine men were sent to the Indiana state penal farm near Putnamville from the local city court during July, according to a report for that month filed by Police Chief Kerr with the board of public safety Friday morning. There were a total of 308 arrests, 123 of which were for drunkenness. It was estimated that 25 per cent of these were from Michigan.

There were 294 men arrested and 14 women. The patrol wagon made 184 calls and 37 auxiliary calls, traveling a total of 710 miles. Lost and stolen property valued at \$793 was recovered and returned to its proper owners.

The city sealer reported that he had made 237 inspections of scales, measures and pumps with a total of 16 condemnations for repairs. According to his report there were 609 producers on the public market through the month.

City Electrician Diekey reported that he had made 231 inspections, out of which he had had 18 condemnations. He said that 120 permits had been issued from his office through the month.

TURK CITY SHELLED

CONSTANTINOPLE, Aug. 6.—A French cruiser shelled the Turkish city of Adalia on Tuesday. It was announced today. Adalia is on the Gulf of Adalia, northwest of the island of Cyprus.

BANKER KILLED

LAUSANNE, Aug. 6.—A dispatch from Frankfort on the Main states that M. Paupet, manager of the Persian bank, died here today of a heart attack. He had been in the city for the reform of Persian finances, has been assassinated at Teheran.

HAITI WILL ELECT PRESIDENT SUNDAY

WASHINGTON, Aug. 6.—State department advices today indicated that the Haitian situation is clearing rapidly.

IVANGOROD IS EVALUATED BY CZAR'S ARMY

Novo Georgievsk Is Only Remaining Russian Fortress Along the Vistula Uncaptured by Germans.

"ON TO PETROGRAD" IS CRY IN BERLIN

Occupation of Riga on Baltic Is Expected Soon—Main Army Saved by the Grand Duke.

VIENNA (by wireless via Berlin), Aug. 6.—Ivangorod, the great Russian fortress on the Vistula river, 55 miles southeast of Warsaw, has been occupied by Austro-German troops. It was officially announced today by the Austrian war office.

This is the second important victory for the Teutonic allies in Poland to be announced within 24 hours, and following so closely upon news of the capture of Warsaw, it roused this city to the highest pitch of patriotic enthusiasm.

With the fall of Ivangorod, Novo Georgievsk is the only remaining Russian fortress upon the Vistula uncaptured by the Germanic forces, and in view of the renewed offensive of Field Marshal von Hindenburg's army on the Sarew river front, Novo Georgievsk will probably fall within the next few days.

The following official statement was issued this morning: "We have occupied Ivangorod. Our troops entered the fortress yesterday."

By Frederick Werner. BERLIN, Aug. 6.—From the Baltic sea to Galicia the Russian army is in retreat over a front approximately 500 miles long.

"On to Petrograd!" has replaced the battle cry of "On to Paris!" Ivangorod, the strong Polish fortress on the Vistula southeast of Warsaw has fallen. Austro-German troops entered the city on Thursday. It was officially announced today.

The evacuation of Ivangorod on the Baltic, is expected hourly, as the great cavalry army of Gen. von Blouew is less than 10 miles from the city, and driving straight against the rear guard of the retreating Russians.

To Strike at Railroads. After occupying Riga the German army of the north is expected to strike at the Warsaw-Petrograd railway and cut in two this important line of communication.

In central Poland the army of Field Marshal von Hindenburg is pursuing the Russians, who are falling back in the direction of Ivangorod, where they hope to take refuge behind the extensive area of swampy ground in that region. With feverish desperation the Germans engineers at Warsaw and Ivangorod are repairing the bridges over the Vistula, which the Russians blew up before they retreated.

The evacuation of Ivangorod was part of the general plan of Grand Duke Nicholas to withdraw his troops all along the line. The city is an important railway center. One line runs into Ivangorod from Warsaw, another

(CONTINUED ON PAGE TWO)

AUSTRIANS BRING DOWN DIRIGIBLE

Italian Airship Attacking Naval Base at Pola Fails to Return, Says Rome.

ROME, Aug. 6.—An Italian dirigible airship bombarded the Austrian naval base of Pola on the Adriatic sea Thursday, but subsequently fell and its crew of three officers and three men was captured.

The official announcement of the loss of the airship states that the cause of the fall are not known, but it is believed here that it was hit by an Austrian shell as it flew above Pola and was unable to make its escape.

ROME, Aug. 6.—Fighting under tremendous handicaps in the Cordiove valley, Italian troops are capturing positions after positions from the Austrians. The Italian objective is Lana pass, which is more than 8,000 feet above sea level.

The Alpine troops are acquiring themselves with glory. Wednesday night a company of these soldiers fastened the ground works, scaled a height, dropped behind them a machine gun and mounted it where it commanded Austrian trenches guarding the pass.

At dawn on Thursday, they opened fire on the trenches and after sweeping them for 15 minutes, their comrades below charged the Austrians. Three of the trenches were taken in the charge.

The victorious Italians found more than 200 dead in the excavations. Practically all of the French defenders had been killed by the gun on the height which the Alpine soldiers had scaled.
