FOURTEEN RAGERS HERE TO COMPETE

Final Event on the Night Card Will be 25 Mile Race For \$1,500.

With 14 speedy racing cars parked at the 24th Century garage on S. Lafayette st., a dozen amateur drivers tuning up their big roadsters for a go on the Springbrook track, all eyes are turned to the new amusement park for Thursday's big events.

The lighting equipment is being installed at the park track. Powerful carbide illuminating lamps will make the track as bright as day for the night races and in the afternoon events the white canvas side wall will serve to bring out the speeding racers very distinctly all around the track. The management completed the big wire paddock in the infield Wednesday morning and will have accommodations in this space for 10,000 people. This space will take care of the 50 cent admissions and is good for standing room only, although a perfect view of the speedway can be had. The track was scraped and lightly sprinkled, forming a hard crust which will allow the autos to smash records and raise little dust.

Will Hold 25-Mile Race.

The official programs were given out today, showing that the afternoon and evening events are practically the same except that the final event on the night card is the St. Joe Valley Endurance Derby of 25 miles for \$1,500 will not be run in the afternoon. The final event of the matinee program will be a free-for-all handicap of 100 miles. The cars will be handicapped in accordance with their performance in the elimination trials.

The first event on the afternoon program is the elimination or qualifying in time trials. These will be run in one lap and the cars making the fastest time will start in the long race at night. Owing to the track being but a half mile more than seven cars will be permitted to start in this long event, as the racing rules do not permit of more than one car for each 450 feet of track.

Eleven Cars Entered.

The cars that will start in this first event are as follows:

- Cornelian, manufactured by Cornelian Mfg. Co.; driver, Dutch Kline.
- Cornelian, manufactured by Cornelian Mfg. Co.; driver, Bert Dinsmore.
- Cornelian, manufactured by Cornelian Mfg. Co.; driver, Paul LeCocq.
- Marmion, manufactured by Nurdyke & Marmion; driver, Carl Soules.
- Warren-Detroit, manufactured by Warren Motor Co.; driver, Al Burland.
- Isotta, manufactured by Isotta Frasconi; driver, Lorie Valdez.
- Chalmers, manufactured by Chalmers Motor Co.; driver, Louis LeClair.
- Ford, manufactured by Ford Motor Co.; driver, George Sebott.
- Great Western, manufactured by G. W. Mfg. Co.; driver, Ben Botof.
- Edwards Special, manufactured by Kennedy Motor Co.; driver, Harvey ennedy.
- Maxwell, manufactured by Maxwell Motor Co.; driver, Billy Tidmarsh.

In this connection the management wish to state that eight of the principal events are free-for-all, open to any car and any driver in the world.

Cheaper cuts of meat are turned into real delicacies by the addition of

Free from Benzoate of Soda

TO END CATARRHAL DEAFNESS AND HEAD NOISES

If you have Catarrhal Deafness or head noises go to your druggist and get 1 ounce of Parment (double strength), and add to it 1-4 pint of hot water and 4 ounces of granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Any one who has Catarrhal Deafness or head noises should give this prescription a trial.

Lime-Loss in Tuberculosis

In the Journal of the American Medical Association (January 17, 1914) was the following:

"It has been many times stated that in tuberculosis or in the pre-tuberculous stage an increased amount of calcium (lime) is lost both in the urine and feces. In fact, a demineralization has been thought to be a forerunner of the development of tuberculosis."

If tuberculosis is due to lime loss, the success of Eckman's Alternative in its treatment may be due, in part, to its content of a lime salt so combined with other valuable ingredients as to be easily assimilated.

Always we have urged consumptives to attend strictly to matters of food, but often some effective medicinal agent is needed. In many cases of apparent recovery Eckman's Alternative seems to have supplied this need. It contains no opiates, narcotics or half-forging drugs, so is safe to try. From our druggist or direct, Eckman Laboratory, Philadelphia.

EARTH TREMBLED AS GUNS ROARED

Bombardment is Described as the Underground Growling of Distant Volcano.

BERLIN (via London), Sept. 29.—The Cologne Gazette publishes the following account by the German author, Dr. George Wegner, of the terrific bombardment which preceded the French attack in Champagne:

German General Headquarters, Western Front, Sept. 24. It is Friday morning. During the night we have been hearing the sound of distant gun fire which in volume and duration exceeded anything experienced since we have been here. Yesterday evening already the bombardment was exceptionally lively. Then it died down towards midnight, but about 4 o'clock this morning it started afresh with unprecedented disturbance, typical of the long bombardment, with shot following shot in an unbroken growl of thunder like the roll of drums.

One hour—two hours—four hours—still there was no end to it. There was excitement on the top. The air of it had not been heard since the days of the first German advance passed like a storm over this section. Where is it? What does it mean?

The thunder of distant guns can be better heard upon the hills than in the valley, so we went up to the top of the hill which rises outside the town. Still Under Way.

I have just returned. It is now 11 a. m. and the guns are still thundering the extraneous roll of a bombardment in the Argonne, which was the prelude to a French attack on the Marie Terese field works. It has lasted from 8 to 11—three hours, and the other bombardment has already been going on more than twice as long.

The whole atmosphere is in a state of dull vibration. It seems as if one perceived the sound not only with the ear, but as if one had the physical sensation of being shaken by air waves. It is as if the sound came up from unknown depths of the earth. Indeed, more than anything, it is like the uncanny underground growling of a distant volcano in eruption, shaking the earth's crust and making it tremble like a man in a fit of rage.

It is a most remarkable and exciting sensation. All around as far as the eye can reach the countryside is bathed in grayish peace, and through the clear sunlight air from beyond the sky line the awe-inspiring sounds seem to come straight from the south or perhaps southwest and therefore from Champagne. The atmosphere is peculiarly sultry, heavy and oppressive, a sort of sirocco, unusual in these parts, is blowing from that quarter and it may be this wind which carries the sound with unwonted clearness.

In any case something tremendous and awful is going on. What it is, whether we, or the French, or both, I cannot as yet tell, but I think it is likely to be the rolling of French guns, probably between Tann and Argonne. Nor was I altogether surprised by it. On the contrary I had almost with certainty expected it. It is an open secret that we are reckoning with the possibility of an attempt by the enemy to start a new and great offensive somewhere on the west front. We are ready for it. The whole front is in a state of electric tension. I am not going too far when I say there is hope, too, in the hearts of our troops, who are eager for the fray. I cannot state at which point our supreme command primarily expects the attack—at several points, perhaps at many points at once.

It may be towards noon. The voice of the guns at last is still. Every one who has heard it on the spot knows how awful and terrible a thing, even for the victor who holds the ground at last, is the sound, as I heard it today, like the rolling of drums.

MANY FAMILIES HAVE NO CHURCH CONNECTION

Religious Census Taken by Westminster Church Shows Situation in One Section of City.

Of the 2,000 families living north and west of Navarre and Lafayette sts., and LaSalle and Layette avs., and between these thoroughfares and the "Three I" R. R. tracks and the river, there are 500 families who have no church connections. In this section of the city there are 600 young people below the age of 20 years who are not attending Sunday school.

These facts have been ascertained through a religious census taken by the Westminster Presbyterian church. The work of taking the census was completed at noon Wednesday. It has been carried on by 80 members of the congregation.

Membership in some church was reported by 1,500 families, while 290 of the remaining 500 expressed a preference for some particular denomination. There were only nine families who expressed themselves as being hostile toward the church. There are 2,500 adults in the territory visited who are not making any systematic study of the Bible.

Westminster church is working out a plan whereby it is hoped to secure the cooperation of churches of all denominations in gaining the membership of the families not now connected with the churches.

E. C. YELTON TO BE GUEST

Left South Bend Five Years Ago to Take Up Missionary Work.

J. Q. Ames, general secretary of the Y. M. C. A., will give a luncheon Thursday noon at 12:30 o'clock for Elmer C. Yelton, former educational director of the local association, who is now doing missionary work in China. Mr. Yelton resigned his position with the South Bend "Y" about five years ago to go to China, but was forced to return on account of the illness of his wife. He will return soon.

At the luncheon Thursday a campaign will be launched to raise \$1,200, which the local association gives annually for missionary work. Over half the amount has already been raised. No money will be taken at the luncheon.

With Mr. Yelton will be J. M. Clinton, secretary of the Y. M. C. A. in China, and J. H. Warner, South American secretary. Talks will be given by all of these men.

GIVES GEORGE STANTON 60 DAYS AT PENAL FARM

Fine of \$100 Also Assessed Against Defendant—Knepper Fined For Entering Church.

Sixty days at the penal farm and \$100 fine was the penalty imposed on George Stanton, 39 years old, by Judge Funk Wednesday morning. The defendant pleaded guilty to theft larceny. He had been charged with grand larceny on evidence that while drunk, he had stolen a horse and buggy valued at \$200 from Emma Newman.

Ralph Knepper, 24 years old, pleaded guilty to a charge of trespass and was fined \$30. It was alleged that he had entered St. Hedwig's church and had attempted to rob the poor box. The defendant maintained that he had merely entered the church for the purpose of praying and of depositing money in the poor box.

The case against Joe Csernits, charged with allowing persons in his saloon at unlawful hours, was dismissed. The defendant is not now in the saloon business.

Fred Cabanaw pleaded guilty in the superior court to disposing of the bodies of dead animals without a license and was fined \$25, the fine being suspended upon showing that the defendant had secured a license since the case had been brought against him. The defendant had been fined in the city court on the same charge.

RIVER PARK

Miss Ruth Rogers entertained at dinner Wednesday in honor of Miss Dorothy Reasor and covers were set for six at table centered with lavender and white asters.
