MAN OF FAMILY IS GIVEN CHANCE

Ike Kaminsky Guilty of Receiving Stolen Goods Draws Suspended Sentence.

Because he is the sole support of seven children, ranging in age from three to 18 years, Ike Kaminsky, proprietor of a second hand store on Taylor st., was saved from a penitentiary sentence Tuesday morning. Kaminsky pleaded guilty in the circuit court to receiving stolen goods to the value of less than \$25. Judge Funk gave him a suspended sentence of four months in the county jail and fined him \$25. Kaminsky was the man to whom Joseph Smith, Archie King and Roy Holton sold dress goods which it is alleged they stole from New York Central last January. Smith is serving a term in the penitentiary. Roy Holton is out on parole and the case against Archie King is pending. The court condemned Kaminsky severely for contributing to the relinquishment of children, a thing which, the court held, there was too much money which should be punished by a penitentiary sentence. Kaminsky had paid \$8 for eight silk dresses which, it was admitted by counsel, he should have known were stolen goods.

Joseph Beroult, 19 years old, entered a plea of guilty to petit larceny and was sentenced to 90 days in jail and fined \$25. The jail sentence was suspended as it was shown that the defendant had been working steadily and that he was under the influence of liquor when he did the stealing. The theft was committed when the defendant and one William McNamara took three rugs from the store of a rug dealer and used them to lie on. The rugs were later found by another party to whom Beroult went in an attempt to have them returned to the owner.

Irvin Richardson, charged with stealing a suit case of goods from a canvasser staying at a rooming house on Colfax av., pleaded guilty and was sentenced to the penal farm for four months.

THIRTEEN CASES OF DIPHTHERIA IN CITY

Situation is Serious According to Dr. Bosenbury—Is Spread by Schools.

The diphtheria situation in South Bend is becoming serious, according to Dr. Charles S. Bosenbury, secretary of the local board of public health. There are at present 13 cases in the city and the public schools of the west side have practically all been exposed to the disease. The fact, according to Dr. Bosenbury, that parents refuse to take their children from schools at the first sign of throat ailment, has aided in the spreading of the disease.

"Throat trouble is prevalent in northern Indiana this year," said Dr. Bosenbury, "and much of it can develop into diphtheria. Every child upon first complaint of throat illness should be given over to the care of a physician and cultures from its throat should be analyzed in the local laboratory. This is done free of charge, and in many cases will probably save the life of the child."
