THE CHRISTIAN IN MODERN BUSINESS

Dr. Edwards Says Business Should Recognize Employees as Having Souls.

In the Methodist Memorial church last night, Dr. Loren M. Edwards, in the second of a series of sermons on "The Christian in the Modern World," spoke on "The Christian in Modern Business." He gathered up the Christian teachings on the subject of industry and wealth and gave such interpretation in modern terms as would direct those who are anxious to solve the problems of business as such in both legitimate and necessary. If there is or has been any challenge of the business world it is not because business is inherently bad but because the greed and inhumanity of men have made it so," said the speaker. He asserted that modern business can never lay claim to being Christian until it recognizes men and women in employment as having souls. An honest, earnest faithful worker puts more into his daily work than the mere manual toil; he puts in thought and nerve power, he puts in himself. The compensation should take account of these human elements, so that after years of such toil, the values of labor not recognized in wages, should be recognized in extra profits to the workers, stock dividends etc.

In contending that modern business must meet the test of service to be called Christian, Dr. Edwards said the Christian message was not capitalism nor yet socialism. Jesus Christ was not a capitalist nor was he a socialist. He was a Saviour, a Saviour first to the individual and then through the individual to society and the world. Modern business could be made conform to the standard of Christian brotherhood, the speaker said, giving several apt illustrations in this connection.

METHODISTS OBSERVE OLD PEOPLE'S DAY

The annual observance of Old People's day at the Methodist Memorial church yesterday was one of the most interesting yet held by this body. A large attendance was present, and when Dr. Edwards, the pastor, invited those who had been members of the church for 25 years to rise, about 50 stood up. Mrs. Barbara Damp, who was present, has been a member of the church in Mishawaka and elsewhere, for 63 years, and was presented with a bouquet of carnations by the pastor in token of her long connection with the Methodist body. Mrs. Julius McQuillen was also present, and has been a member of the local church for the long period of 57 years. Various committees carried out the arrangements in connection with the service. Automobiles were provided to bring and to take back from the church all those who required them. An abundance of flowers were used in the decorations of the pulpit and altar.

PREMONA ELEVEN SWAMPS BUCHANNAN

Open Field Playing Too Much for Michigan Team—Score 40 to 0.

Mishawaka's professional football team, the Premonas, motored to Buchanan, Mich., yesterday morning and returned last night with the scalps of the "Michigansers" hanging to their belts. The Buchanan players were unable to cope with the effective field playing of the locals, who made the majority of their goals from passes. The score was 40 to 0.

Although the Buchanan team played strong ball it never was without. At the end of the first half the score stood 23 to 0. Manager Ellsasser replaced his regulars by substitutes in the last period and only one more touchdown was made. Weinberg, right end, received three forward passes for touchdowns. His effectual punting also featured the game. Spencer, guard, was easily the star on the line. His effective tackling and breaking up plays won him admiration from all. Ganser and Boney, left ends, also played stellar games. Manager Ellsasser guided the game from quarterback position in excellent manner. Neuland and Howland played good games. Touchdowns were made by Weinberg, 3; Neuland, 2; Howland. Weinberg kicked four out of the six goals.

E. LINCOLN ROADWAY DISCUSSED BY BOARD

City to Push Completion; High School Asks For Better Track.

The roadway east of the pavement on E. Lincoln, was discussed Monday morning by the board of public works on its disgraceful condition. The contractors for the county roads started grading there some time ago, but left it unfinished. The result is that it is almost impassable, for big holes and loose dirt and stones cover it. The board referred the matter to City Atty. Ralph Jernegan and City Engineer Charles Cole, who were instructed to see that it was remedied as soon as possible.

In order to improve the city's gas pressure the Northern Indiana Gas and Electric company asked the board for permission to erect a concrete block building at the foot of the alley on the river bank, between Mishawaka av. and south of Main st. The board has agreed to let the high school have the building, which they are going to move from Nineteenth st. It was referred to the city attorney and city engineer.

PROTESTS MADE ON RAILWAY THROUGH CHINA

Japanese and Russian Opposition May Become Diplomatic Subject in Near Future.

WASHINGTON, Oct. 15.—Japanese and Russian protests against the latest American railway enterprise in China may become a diplomatic subject eventually but there is no immediate prospect of the government becoming concerned unless the American interests affected should ask aid or contend that their rights as Americans are being infringed. Dispatches from Peking indicated that protests were being made against location of the proposed American built line through territory in which Russia and Japan claim special interests by prior concession. Inasmuch as the location of the American line has not been chosen and the contract makes provision for relocation in case such a protest should be encountered there is a possibility that a solution may be found between the parties themselves without the intervention of the state department, which up to the present has not been identified in any way with the project.

SAYS U-53 BROKE MONROE DOCTRINE

French Military Writer Says Maxim Includes Waters as Well as Land. PARIS, Oct. 16. (Via London).—According to Jean Herbette, military strategist and writer on international affairs, the German submarine U-53 made a breach in the Monroe Doctrine by sinking vessels off the New England coast and it remains to be seen whether the United States will "sustain the celebrated American tradition or let it be cast aside."

"France is only a disinterested spectator in the debate," says M. Herbette, "because it makes little difference to her whether the Germans operate on one side of the Atlantic or the other, but it will produce a great change in the political equilibrium of the world if the doctrine shall be abrogated by President Wilson. The Jeffersonian maxim against European interference on the other side of the Atlantic applies in fact to American waters as well as to the continent itself, and when President Monroe in formulating his doctrine prohibited European powers from controlling the destiny of the American people he opposed naval as well as military control. One cannot be tolerated without opening the door to the other."

M. Herbette recalls the case of French warships in 1879 cruising off New York in watch for German vessels, he says, yet their action resulted in the American secretary of state sending a warning note to France. The principle then laid down has not been forgotten, he adds.
