

## F. C. HOWE GUEST OF WOMAN'S CLUB

Immigration Commissioner at  
New York Delivers  
Address Here.

BY ETHEL PHELAN.

Following closely upon the cessation of hostilities Dr. Frederic C. Howe's lecture on "Immigration and Reconstruction After the War," delivered in the Rotary room of the Oliver hotel Tuesday night under the auspices of the South Bend Woman's club, proved most timely.

Dr. Howe, who is commissioner of immigration at the port of New York and Ellis Island, spoke with such a personal knowledge of his subject, that his words were doubly convincing.

The story of immigration as told by Dr. Howe, is not such a far-away one, but one which concerns us all closely, for were not our immediate ancestors immigrants, and in fact did not the whole race migrate from the countries of southern Asia?

According to Dr. Howe, 1,200,000 immigrants entered this country every year, that is, previous to the war, making one-third of our population either foreign born or the

children of foreign born. Since the beginning of the war immigration has ceased, but there have been imprisoned on Ellis Island all that time countless people who have been refused entrance to this country and have no way of returning to their native countries.

**Tells Pathetic Story.**  
The story that Dr. Howe tells of these imprisoned people is pathetic, interesting, and encouraging. He told of how, with tears, they gave vent to their joy at being allowed to leave the buildings and wander about the lawns, and how at his instigation 300 of them were released on parole, were given jobs, and have made good, only six having "gone wrong."

With regard to immigration after the war, Dr. Howe frankly admits that he does not know what course it will take. There will be millions who will want to come, but our laws will exclude them and there will be no ships to bring them. He believes that America's mission after peace has been declared will be to invite immigration to this country, to give the immigrants a start, to ask them to bring with them all that is best of the art of their country, to make a never ending monument to peace and civilization, an empire of the allies.

America, Dr. Howe said, unlike the other allied countries, has made no definite reconstruction plan. He himself has been engaged for several months in studying the plans outlined by England, Canada and Australia, and endeavoring to formulate from those plans one which will restore America to natural conditions.

**The Danish System.**  
Dr. Howe is a staunch admirer of the Danish educational system and wishes a form of it to be an outgrowth of the reconstruction period here. By this plan men and women, as well as boys and girls, will go to school, there will be no text books, but the very best of teachers will give intensive instruction for a period of six months or more.

The question of reconstruction is industrial as well as educational. Dr. Howe said, and told of how this problem can be solved by the soldier community farm. The farmers are to live in villages, not on isolated farms, and are to receive the benefit of concerted action. Artists are to select the site for the village and design the houses. The soldier is to be allowed to purchase as much land as he wishes; if he goes in for truck gardening he will want perhaps 15 acres, or if he wants to raise wheat he can purchase 50 or 100 acres. The larger tools the threshing machines, the tractors, etc., will be owned by the community, and the farmer will sell his produce through a community market.

**Soldier Farms.**  
Dr. Howe told many other details of the proposed soldier community farm, and removed the possibility of its being but a day dream by citing examples of such communities which have been established in California and have proved successful beyond all expectations.

Preceding the lecture the audience sang "America," followed by two vocal solos, a Russian composition and "The Americans Come," by Miss Hazel Harris, accompanied by Miss Valeria Bondurant. "Legende," by Dniawiski was rendered by Prof. Frederick H. Ingersoll on the violin, following the lecture. Miss Helen Burke accompanied Prof. Ingersoll, and also played the accompaniment for the singing of "The Star Spangled Banner," which closed the evening's program.

### FARMERS APPROVE LYDICK MARL PLANT

The establishment of a marl plant at Lydick was given hearty approval by the farmers who attended the meeting held at the Lydick school Monday night.

This marl, which is a calcareous shell composition, is found in great quantities at Lydick and can be used for liming purposes. County Agricultural Agent John S. Borden explained, instead of the ordinary ground lime.

Actual trial has proven that the marl is far superior to the lime. Through its use one farmer, Roy Peterson, explained at the meeting that he had been able to produce 100 inches of alfalfa in three cuttings on ground which had formerly been unproductive.

Lime is difficult to get at the present time and costs \$20 a ton, while marl will be sold for \$1 a load. Another advantage resulting from the establishment of the plant will be that the farmers may haul it at their convenience where previously they were obliged to unload their lime within two days or pay demurrage.

The local area which will be benefited by the plant will include 20,000 acres, that is the marl can be hauled economically within that distance. If the demand in districts outside that area is sufficiently great the installing of a siding will be taken up.

According to Mr. Borden the farmers of this community could double their production by the use of 50,000 tons of marl.

### EDMUND O'DONNELL IN OFFICERS' CAMP

Mrs. Ida O'Donnell, 103 N. St. Louis st. has received word that her son, Edmund O'Donnell, will be transferred from the soldiers' army training camp, of Springfield, Mass., to the office of training camp, at Camp Lee, Va.

Special at \$6.95

500 yards Berkley Cambric, regular 35c quality; Thursday at 25c yard.

**CURED HIS RUPTURE**

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no lost time, no trouble. I have nothing to sell, but will give full information about how you may find complete cure without operation. If you write to me, Eugene M. Pullen, Carpenter, 110 E. Marcellus Avenue, Manassas, Va., I will cut out this notice and show it to any others who are ruptured—you may save a life or at least stop the misery of rupture and the worry of danger of an operation.—Adv.

**GRIPPE GONE IN 24 HOURS**  
by the use of Red Devil Grippe Tablets. No acetanilid, no quinine. Ask your druggist to supply you. Owned by the Trusler Remedy Co., Huntington, Ind.
