

"DRY UP" CITY NOW IS FEDERAL PLAN

Additional Agents to Be Sent Here to Round Up Booze Traffic.

Enforcement of the prohibition laws here will commence with a purpose to close up every "bootleg" establishment as soon as the readjustment in the headquarters at Indianapolis is completed.

It was learned last night that plans are being laid by which at least five men will start work in this county within two weeks and will stay here until all liquor joints have been closed up.

The discovery of five stills by the fire department about a week ago has given the authorities at Indianapolis an outlook on the real situation in South Bend, one officer said, and they are expected to send as much help as is needed to "dry up" St. Joseph county.

Prohibition Enforcement Officer Mathers has spent much of his time during the last two months unearthing stills in the smaller towns. He discovered five stills in operation a short time ago at Granger, and a like number a short distance from that place. Much "white mule" is being manufactured somewhere in the near vicinity and the authorities intend to bend every effort to find it.

MANY OFFICERS TO 'STAND BY BAXTER' IN REMOVAL 'GAME'

Pledge Aid to Patrolman Despite Alleged Attitude of Chief Kline.

Officer Emmet Baxter's co-workers on the South Bend police department intend to lend him all possible aid in retaining his position on the department, despite the fact Chief of Police Kline is alleged to have announced that he would make no effort to shield him.

The consensus of opinion of the officers was that Baxter merely carried out his duties the same as any policeman would have done under like circumstances. Although the officers said they were not particularly surprised, they claimed they were disgusted with the alleged statement of the chief that he would take no action in behalf of Baxter.

Would Quit Jobs. Since the news has reached the public of the petition seeking Baxter's removal from the force, which was filed with the safety board by 23 citizens who are alleged to have seen Officer Baxter arrest Ernest Beckman on July 2, several more witnesses have volunteered to appear before the board to give Officer Baxter's side of the case.

Five masked bandits failed to relieve Ralph C. Harmon, 212 W. Sixth st., Mishawaka, of any of his valuables when they held him up at midnight last night while he was sitting with a girl in his automobile at 2211 S. Catawa ave. The masked men, each carrying a revolver, commanded him to throw up his hands. Instead of complying with their request he informed them that he had nothing of value and asked them if they were not working very close to home. Evidently the stick-up men thought that he knew them, for they beat a hasty retreat.

Harmon called the police and the motorcycle cops, Smith and Dwyer, hastened to the scene. Harmon said that the bandits fled into the woods, but the officers failed to gain trace of them.

Industrial WATCH COMPANY TO RESUME WORK SOON

Plant to Start Operation Again Monday After Completing Inventory.

The South Bend Watch Co., after a short shutdown in order to give an opportunity to complete the annual inventory, will resume operation next Monday, according to an announcement by the company Tuesday afternoon.

It is customary for many South Bend plants to take their inventories during the hot summer months. This not only gives the plants an opportunity to take their inventories during the dull part of the year, but it places the inventories at a time when employees and employers alike are usually anxious for vacations.

Several other South Bend plants are now in the course of taking inventories.

STOCKS REACT ON GOTHAM EXCHANGE

Harding Attitude Toward Tariff on Oil Imports Responsible for Gains.

By Associated Press: NEW YORK, July 12.—Tuesday's market was desultory and professional. The higher level of prices at the outset was directly due to President Harding's condemnation of the proposed tariff on oil imports. Foreign oil, particularly Mexican and Pan American petroleum and General Asphalt, rose two to nearly five points. Such diversified issues as steels, equipments, shippings, textiles, tobacco, leathers, and chemicals, most of which are selling at a premium because of the small floating supply, also made extreme gains of one to three points.

Shorts stubbornly opposed the advance, however, and before the last half of the session was well under way, many reactions occurred. Although gains predominated at the dull close, notwithstanding the sudden rise of call money.

Time Rates Unchanged. Call loans opened at six percent in contrast to Monday's easier rate but belated borrowers were obliged to pay six and a half percent. Time rates were unchanged for short maturities although the supply was less liberal. All foreign exchanges were stronger, sterling recovering about half its recent loss, the same holding with francs and remittances to neutral countries, but Scandinavian quotations were lower.

Dealings in Liberty bonds fell away appreciably and the tone was mixed. Great Northern, Northern Pacific and Chicago, Burlington & Quincy issues were strong. Internationals showing no definite trend. Total sales, par value, \$9,650,000.
