Turmoil in Senate.
Before the bill was brought to a final vote there was a turbulent scene with the result that the committee amendment—that proposing a "tax investigating committee"—was left at the post. It is understood that an effort will be made to have the senate committee insert it in the bill.

The house was thrown into disorder when Rep. Connolly, Texas, democrat, undertook to reply to a prepared address by Rep. Mondell, of Wyoming, the republican leader, praising the bill's action. There were jeers and calls from the republican sides and protests from the democratic side that Mr. Mondell was interrupting the Texas member without obtaining recognition from the chair. Order finally was restored, but when it came time to vote on the bill, the democratic sprang a surprise. Rep. Cochran, of New York, rising to the question of the "highest privilege" introduced and had read a resolution criticizing President Harding for delivering a message to the senate on July 22 urging passage of the bill. The republican side without having members of the house present to hear him.

Rep. Mann, republican, Illinois, tried to shut off introduction of the measure, but after a debate, speaker Gilchrist ruled that the republican side could not be heard. The republican countered with a motion to lay it on the table, which prevailed, and then the house got to a vote on the democratic motion to recommend, offered by Rep. Gardner, democrat, Texas.

IRISH MAY ISSUE MANIFESTO ON NEW BRITISH PROPOSAL

Would Point Out Alleged Unfairness of Offer—See "Double Crossing."

By United Press:
DUBLIN, Aug. 20.—Sinn Feiners today seriously considered issuing a manifesto to the world, pointing out the alleged unfairness of the British peace offer.

Members of the Dail Eireann in private conferences discussed this single alternative to counter proposals. The issuance of such a manifesto would be considered a preliminary to a resumption of hostilities. Despite the favorable reception of Lloyd-George's speech in other than Sinn Fein circles, the republican cabinet was known to feel that it has been "double crossed" by the British premier.

This, it was said, was the inside story of the sudden switch of Sinn Fein from its determination to accept the British offer to its present stand of absolute rejection. On July 31, the republican leaders, influenced by the favorable attitude of the most powerful single individual in Ireland, were disposed to accept Lloyd-George's terms. But when De Valera acquainted the members of the Dail Eireann at Monday's secret session, with the actual terms, a stiffening attitude developed for the purpose of obtaining the utmost from Britain at the present time.

The present offer does not embrace the kind of dominion status which Gen. Smuts, the peacemaker, inferred. It was said and Sinn Fein now claims that Lloyd-George had given Gen. Smuts as well as Ireland the wrong impression of the actual terms. Despite the reported attitude of Sinn Fein, most of Ireland still clings to its hope of peace. The press today was strongly favorable to a settlement.

FOIL ALLEGED MURDERER IN LIBERTY DASH

(Continued from page one)
A warning blow on the head with the end of the pistol failed to phase Bibb and he continued to bluff the officers.

Asked For Doctor.
The "blackjacks" of the officers then began to get in a few "good licks" and soon Bibb, bleeding from the "bumps" on his head, was "ready" to quit.

That Bibb, who weighs nearly 200 pounds and who is six feet tall, did not succeed in firing past Officer Lavelle, who is but five feet, four inches tall, is attributed to Officer Lavelle's quick action in grabbing him by the legs and flooring him as he struck him.

Bibb, finally yowling for a doctor, was informed by Capt. Schock that he would get an undertaker for him if he ever tried to "pull a trick" like that again.

According to the story told the police by Curran, Bibb killed his wife in the Alabama town five years ago, and said that a big reward awaits his arrest. Curran also told the police that he had been following Bibb around the town since that time. He says that shortly after Bibb killed his wife, he met him in a Louisiana town and that Bibb stole his wife and \$175 in cash.

Curran Mate Held.
This is the first chance, he says, that he has been close enough to Bibb to have him arrested. He says that Bibb has been living with his wife for the past few years. Curran's wife was later arrested by the police and will be held pending further investigation of the case.

Bibb's attempt to get away from the officers, the police believe, is evidence of the fact that he is wanted on the murder charges. He will be held at the city jail without bonds until the local police receive instructions from the officials of the southern city.

SHIP GROUNDS IN TERRIFIC STORM

LONDON, Aug. 20.—The British Petroleum tanker *Paxilla*, anchored near New York is aground outside Lisbon Harbor according to a dispatch from the Portuguese capital today. The cargo has been jettisoned.

Say Barred Fight Pictures Better Than Sex Variety

Woman Temperance Union Says Movie Censorship is Purely Commercial.

SAN FRANCISCO, Cal., Aug. 20. Prize fight motion pictures which are barred by law may be more inspiring and desirable than some sex appeal pictures whose display is allowed, Mrs. Culin J. Vayhinger, Upland, Ind., a national director of the Women's Christian Temperance Union, said today in a discussion at the Sabbath conference of the forty-eighth annual convention of the union. She charged that the present censorship is left in the hands of the industry.

The conference resolved for a closer observance of the Sabbath with any undue restrictions on amusements as they now exist under the law.

Former Congressman C. H. Randall, of Los Angeles, addressing the anti-narcotic section, said tobacco interests of the country launched a fight against him because he suggested that there might be at least a 10 per cent saving in white print paper if cigarette advertising were eliminated.

Attacks Cigarettes.
Mrs. Francis E. Beauchamp, a Kentucky delegate, told the conference that "if it had been a campaign to get rid of liquor or cigarettes she would have entered the anti-cigarette fight."

She quoted authorities to the effect that 20,000 deaths in the United States last year were due directly or indirectly to cigarette smoking.

The pending Towner bill for a national department of education was endorsed and adopted by the general session. Other resolutions adopted included a declaration in favor of a single standard of morals for men and women; endorsing the movement for more widespread education; and pledging renewed and vigorous effort to secure enforcement of the prohibition amendment and renewing the pledge of allegiance to the world prohibition movement.

AGREEMENT SIGNED FOR AMERICAN AID IN STRICKEN AREA

Gigantic Task of Rushing Aid to Russian People Detailed in Pact.

RIGA, Aug. 20.—The agreement for American relief in Russia was signed at 11:15 o'clock this morning. The document stipulated in detail how the gigantic work of hastening food and sanitary relief to the millions of starving Russians in the Volga district was to be carried out. Walter D. Brown will act as a representative of the American relief administration and Max Litvinoff for the Russian soviet government.

The signing ceremony was impressive. It took place on the top floor of the foreign office in a room filled with newspaper correspondents from many countries, to the accompaniment of the clicking of three moving picture cameras. Commissioner Brown read the text of the agreement to the assemblage which listened with intense interest. Three copies were signed and then sealed.

M. Litvinoff in a brief speech thanked the government of Latvia, of which Riga is the capital, for its aid in bringing America and Russia together.

Likened to Peace.
Litvinoff declared that the result of this agreement was virtually the same as signing of peace between the United States and Russia. He paid eloquent tribute to the humanitarian motives actuating the United States in undertaking the great relief work and held how it would result in mitigating the sufferings of numberless men, women and children. He complimented Commissioner Brown on his fair minded attitude throughout the long wearisome preliminary arrangements. Commissioner Brown replied:

"On behalf of Mr. Hoover, I thank Latvia. My friend, M. Litvinoff, shared our spirit, the keynote of which was to save the children first. I earnestly hope that the work will prove of great benefit."

HARDING ASKS FOR ACTION ON BOARD LOSSES

President Urges Congress to Cooperate With Shipping Board.

(Continued from page one)

affairs came about. Our great problem is curing the situation. Chairman Lasker is making a very heavy sacrifice to give his time and talents to this most difficult work. He has been able to bring many distinguished advisers to his assistance but it is impossible for the board, in creating its various departments, to establish such organizations by the ordinary methods of government appointment and compensation.

Sacrifice Interests.
"Many of the men called to service have been obliged to completely sacrifice their private interests and in some cases the sacrifice is made with the period of employment with the government is only temporary. Under these conditions, and because of the fact that hundreds of millions are involved, it is undignified that some compensation in responsible places are much beyond the ordinary run of government compensation. There are approximately \$200,000,000 in claims against the shipping board. No business man would venture on the settlement of these claims without highly capable legal representation. The staggering losses in operation can only be cured by a board of operators whose members know something concerning the business. These men could not be secured without giving up private pursuits which are vastly more profitable than the average administration salary under the government and Chairman Lasker has proceeded with my hearty approval in the acquisition of men necessary to perform this work."

"If these men make it possible that we can put to an end our operating losses as we very much hope the acquisition for government service will be justified a hundred-fold."

"The error heretofore committed seems to have been the employment of incapable men at excessive salaries, while the present program calls for vastness and the compensation is vastly less than in private pursuits. I have been to some pains to assure myself that there is no over-payment in selecting men for specific places and I believe I can assure you that this over-payment has been avoided in recent appointments."

Intolerable Arrangement.
"I would like congress to know we are speedily arranging the discontinuance of many lines of service which are being operated at a loss to the government and we are hoping soon to have an end to all the unfortunate charter contracts under which the charterers are made whole, and share in the profits, if any, while the government bears the brunt of all the losses. This is a very intolerable arrangement and is being ended as speedily as the situation will permit."

"It must be kept in mind at all times that the administrative agents who are now asking for the confidence and the co-operation of congress are in no wise responsible for the conditions of affairs which have shocked the country, and given the congress such great concern. They have only recently been called to the service of correcting the intolerable state of affairs which we inherited after which we very much hoped they may make great progress toward the formation of a credible merchant marine."

SEVERE STORMS HIT TWO STATES

CHICAGO, Aug. 20.—Northern Illinois and Southern Wisconsin are drying out today after one of the most severe rainstorms in recent years.

No loss of life has been reported. In parts of Wisconsin the storm bordered on a tornado. A building at the golf club in Madison collapsed and injured several caddies. The towns of Waterford, Burlington, Browns Lake and Elkhorn were darkened when the storm crippled the lighting service. In Chicago hundreds of basements were flooded and viaducts were inundated. Basement cells in the Englewood police station were flooded and prisoners had to be removed. Electric light and telephone service was demoralized in many sections of the city. A score of fires are attributed to bolts of lightning.
