

ST. JOSEPH COUNTY FARMERS AGREE TO POOL WOOL SUPPLY

Accept Bid of Michigan Organization at Meeting Held Here Saturday.

St. Joseph county wool growers will pool their product through the wool department of the Michigan farm bureau.

This was definitely decided at a meeting of the wool committee of the county farm bureau yesterday.

The plan of operation was explained by E. C. Hird, county farm agent. He said farmers of this county would participate in the basis and in the same measure of benefits as those of Michigan.

On member told the committee that speculators and buyers offered in his neighborhood during the last week as low as 10 cents per pound for staple wool, while the top figure was 15 cents for the grades that was bringing from 21 to 33 cents in the large market centers.

Parmer of this section pooled their wool last year and shipped it to a Chicago concern. More than a year has elapsed and they have not received final settlement.

Michigan Plan Popular. Considerable wool is manufactured into blankets, cloth, automobile robes and other articles by Michigan mills, which farmers are privileged to purchase at a hard price.

While no exact estimate could be made yesterday covering the amount of wool which will be sold in this country enough was pledged, however, to insure a first shipment ranging anywhere from 6,000 to 10,000 pounds.

FIND STOLEN CAR.

Everyday Ad-Ventures

Once upon a time—meaning day before yesterday—Timkins had a house to sell. It was a fine little house with a hot water heater, parquet floors, all modern conveniences and everything—except one or two prospective buyers.

Now, it so happened that Timkins needed to get his money out of the house, and he was worried. Two months ago he had put a large "For Sale" sign on the property, but it attracted considerably less attention than one of those placards that call for "See Today."

FAIR PROGRAM SETS ASIDE DAY FOR ALL CLASSES, ANNOUNCE

Officials Seek to Simplify Choice of Days for Those Who Limit Attendance.

FAIR PROGRAM

CHILDREN'S DAY. Tuesday, Sept. 13.—Children properly chaperoned will be admitted free on Tuesday, September 13, for a purpose of the fair Tuesday. Parent and teachers will chaperone the children.

MERCHANTS DAY. Wednesday, Sept. 14.—All South Bend and Mishawaka union and homecoming orders that everyone will be thoroughly familiar and conversant with this great exhibition.

COMMUNITY DAY. Friday, Sept. 16.—An old-fashioned get-together day of reunion and homecoming. Good music and a splendid program on this day.

MANUFACTURERS AND WORKERS DAY. Saturday, Sept. 17.—A day especially devoted to the workers in the shops. Many special features on this day which will doubtless be one of the biggest of the fair.

With the opening day of the seventh Inter-State fair only about three weeks away, a program covering the five gala days has been arranged that sets apart a special day for practically every class of people in the St. Joseph valley.

Each day is given a different classification because of the opportunity it affords people engaged in the same line of work to attend the fair at the same time. For instance, on Merchants Day, hundreds of clerks from the town stores will be at the fair together, and they are all acquainted and have common interests.

Boxes Being Reserved. Although two things stand out prominently as evidence of the general interest in the 1921 fair, in the first place the space reservations by exhibitors exceed those of any other year by a wide margin. For the first time in the history of an Inter-State fair, grandstand boxes are being reserved three weeks in advance of the opening date.

Scouting for Talent. The big fairs that will be held in the central west prior to the opening of the South Bend event will be scouting for talent, scouts operating under the direction of the local fair officials, and an excellent booking of amusements is a certainty.

Business House Adre. A small blaze in which the skylight of the building at 222 S. Michigan st., was slightly damaged was extinguished early yesterday afternoon by the Central fire station.

"VISION AND LIFE" IS PASTOR'S TOPIC

Rev. Law Says People Divided Into Two Classes, Idealists and Realists.

"Vision and Life was the title of Rev. Charles E. Law's sermon addressed at the St. Paul Memorial Methodist church, Sunday morning. The pastor related that the great explorer general classes of people, the idealists and realist, that the idealists resemble men as Columbus, Napoleon and Wilson, and that these are the men who pave the way for the realist.

Lincoln's Vision. "There are two thousand classes of people—the idealists and the realists. There are few idealists and many realists. The idealists and dreamers provide blue prints for progress for the idealists. They build air castles in order that there may be real things to dream of."

Chose the Letter. "No matter what He said or did to prove His coming to fulfill the Messianic prophecy, the Jews and Gentiles stopped their ears and conspired to murder Him and caused Him to be nailed to the cross, although He was blameless in the eyes of the law."

"When the miraculous life. There were many things to influence him to the disgraceful. "What will the Jews say or what of public opinion?"

"God speed the time when South Bend will have a city administration that will do the many thing, close up the houses of prostitution and dens of iniquity and vice. Men who will be men and not like."

Rev. Sickafosse Pleads for Administration That Will Banish Vice.

Rev. C. A. Sickafosse, pastor of the Conference Memorial church, Sunday took his text from Matthew. Men who will be men and not like."

GENIUS' QUALITIES APPLY TO PERSONS IN RELIGION, SAYS

Rev. Phillips Compares Characteristics of Two in His Sunday Sermon.

"If a man makes a novel creation, or very early in his life shows signs of talent, either musical, literary or along the lines of invention, we immediately call him a genius," said the Rev. Russell L. Phillips in his Sunday sermon at Trinity M. E. church. "We ascribe three characteristics to such persons of genius. We say they are precocious, or have an innate quality to invent; they feel the necessity to produce something; and they stamp it with their own individuality. It is to be noted that these same qualities are to be found in the genuinely Christian people, making them persons of genius for Christianity."
