

REPUBLICANS OPEN 'SPEECH' CAMPAIGN AT COLFAX SCHOOL

Eli F. Seebirt Reiterates Stand on Law Enforcement at District Meet.

Republican municipal candidates opened their speaking campaign for the approaching municipal election Wednesday night at a meeting of first ward voters at the Colfax school.

Reiteration of his program of law enforcement was voiced during the preliminary meeting by Mr. Seebirt. He again pledged himself to use his utmost in dealing with what he termed the great tripartite of vice, public gambling, houses of ill fame and bootlegging.

And the reason for this my friends, Mr. Seebirt continued, is that bootlegging is done in various places of concealment, in secret garrets and cellars, and this is a factor which will be hard to deal with.

Mr. Seebirt also touched on the subject of public improvements. "There can be no progress," he said, "unless we have progressive city expanding and growing, and as such, must be forward in meeting these conditions."

Mr. Seebirt advocated the development of the city's water supply system capable of meeting the need of 100,000 people. "It is all well to lay water mains, but you must have water to pump through them before you can have solved your water problem."

What we will be able to do, if I am elected mayor, with reference to street improvements depends considerably upon the financial condition of the city. If the thing is larger than the city's income, I should feel much better to call a halt rather than throw the city into bankruptcy.

After-Dinner Tricks

A clever little trick is to turn a glass of water upside down on a glass or stone table, or even a wood table, provided it is not polished mahogany.

Simply place a piece of paper over the mouth of the tumbler and invert the same. The water will not fall out, due to a physical law. Then set the glass, upside down, on the table, and slide it clear of the paper. If this is done neatly, not a drop will be spilled.

\$30,000 MARK NOW PASSED IN LOCAL CHARITY CAMPAIGN

Officials Enthusiastic Over Success of First Three Days in Drive.

When the battery of telephones at the Chamber of Commerce were silenced at nine o'clock last night, the \$30,000 mark had been reached in South Bend's great Charity drive.

Officials in charge of the drive were enthusiastic over the result of the first three days' work and were unanimous in expressing assurance that the \$100,000 goal would be reached by the end of the week.

During the first three days' work, until late last night workers were bending their efforts towards making the drive a success. Women in all walks of life, doctors, lawyers, ministers, and men prominent in the political and business life of the city, worked in unison for one objective—the Charity Drive.

Of the total received to date only a very small portion represents the personal solicitation work. The great majority of the personal workers have not yet announced their returns. Just as soon as the results have been received from all branches of the organization the grand total will show a decided increase, it is believed.

Women Outshine Men. In their results obtained yesterday the women outshone the men. 92 women were in attendance yesterday afternoon. Some of these reported for work as early as nine o'clock in the morning.

Speakers visited all performances at the local theaters last night and addressed the audiences in the interest of the drive and various other forms of promotion work were instituted throughout the city.

In past years the people of South Bend have always given ready response to the Welfare Drive and judging from the results shown so far, this year is no exception. The telephone system of getting donations has proved its value beyond a doubt and the percentage of refusals that workers have met with have been surprisingly low.

Ward L. Mack, chairman of the board of directors, emphasized the speed with which the city could be covered by means of the telephones. Mr. Mack also announced that this year's drive has been made more successful than any drive since he has been connected with the work.

Among the prominent local men who worked last night were: Marshall Collins, Edward Roche, A. A. Frederickson, D. A. Hines, G. G. Bradford, A. G. Volter, Warren Cass, C. O. West, Ralph Osborne, R. E. Arnold, H. A. Robinson, F. J. Murray, E. A. Clark, William H. App, E. A. Lucade and F. K. Shannon. Richard O. Morgan is in charge of all the men's teams.
