

George Shaw Cook, Mother Church, Boston, Lectures at Local Temple

Congregation Hears Discussion of "Christian Science; the Science of Being."

George Shaw Cook, C. S. B., member of the board of trusteeship of the Mother Church, The First Church of Christ, Scientist, in Boston, lectured before a large audience at the local Temple of the First Church of Christ, Scientist, Thursday evening. Mr. Cook discussed "Christian Science; the Science of Being." His lecture, in part, follows:

"Christian Science has come to reveal that God is divine Principle, Love, and to show mankind that knowledge of God is demonstrable. This Christian Science is reinstating primitive Christianity and re-establishing the teachings of the Master-Teacher as demonstrated by him and by his early followers in the healing of sickness and sin.

Spiritual Causation. "Causation, as understood by Jesus, and as taught by Christian Science, is spiritual. This spiritual cause is the one infinite, heavenly Father whom men call God. The scriptures not only declare God to be Father, but to be the Almighty, the Everlasting, I AM, Spirit, Life, Truth, Love. Christian Scientists accept these scriptural definitions of God without reservation, but they also think of God as being infinite good, as supreme intelligence, or Mind, the one self-existent and eternal Life, or Consciousness. God is thus seen as the only source, origin, cause, or creative Principle.

"These scriptural and Christianly scientific synonyms for Deity give us a better understanding of the omnipotence, omniscience, and omnipresence of God.

"From the standpoint of spiritual causation, it is readily seen that creation must be spiritual, since effect must always be like cause. If God, the only creator, is Mind, or Spirit, then His creation must be mental, or spiritual. Since God is infinite Consciousness, or divine Mind, His universe must be a conscious universe. The effect of Mind is to think, and the effect of thinking is thought; hence the universe of Mind is a universe of thought consisting of ideas which perfectly express their divine origin. The only real and enduring universe, then, existing in Mind, partakes of the exact nature of its Principle, or Creator. It, therefore, reflects all the divine attributes, including permanence, immortality, beauty, order, harmony, health, joy, peace, purity, freedom, and love.

Man Is Spiritual. "The Scriptures tell us in the first chapter of Genesis that man was created in the image and after the likeness of God. A true likeness is that which perfectly expresses its original. If, therefore, man is created in the likeness of God, he must be exactly like his creator. If God is Spirit, man, in His likeness, must be spiritual. If God is Truth, man, as the image of God, must be truthful, honest, sincere. If God is Love, man, in his true nature, must be loving, gentle, kind, compassionate. If God is Life, man must be and is the living image of life. This man, the true man, the only man, is not subject to chance nor change. He is as changeless as his eternal Principle. He is not the victim of lack nor of limitation. He reflects the infinite abundance of Spirit or God. He is not doomed to depravity and dissolution. He exists forever at the eternal noon of being. He is always at the standpoint of limitless opportunity, activity, and supply.

Material Misconceptions. "From the material point of view man seems to be nothing but an organism, with a mind inside of it, a mere machine controlled by a supposed intelligence, which is invisible and which has never been satisfactorily explained by human philosophy. Someone may be thinking, 'Why the explanation is very simple. The brain is the seat of man's intelligence, and it, through the nervous system, controls and regulates the functions and faculties, the movements and actions of the human body.' But what made the brain intelligent? What gave it the power to think and to direct activity? Who has ever seen the intelligence that is supposed to be in the brain, and how do we know that it is there? Many people in the orient believe the seat of intelligence to be in the stomach; and it might just as well be there as in the brain, for there is no essential difference between the kind of stuff that constitutes the stomach and that which constitutes the brain.

ment throughout all time. The wisdom, and inspiration of Mrs. Eddy's leadership are daily becoming more apparent and better appreciated.

"There is one thought in particular which, if you will carry it away with you from this lecture, will be found most helpful in your daily experience, whatever the nature of your occupation may be. The thought to which I refer is this: there is a power always available to you that is greater than any human power, bigger than any person or set of persons, superior to any circumstance or combination of circumstances. This power is the law of Love, the law of divine Principle. It is not necessary to go anywhere to find this law, for it is ever present. You need not wait for it to become operative, for it is always operating. You can rest in the assurance that this law of divine Principle will turn and overturn, adjust and readjust, until the conscious harmony of your being is revealed as an established fact."

WILL GIVE PRACTICAL GIFTS Gifts that are useful and wearable will be given this Christmas, judging from the great number of blouses, petticoats, petticoaters, sweaters, scarfs and camisoles being purchased at the Frances Shop, 111 S. Michigan st. A 15% discount is offered on all blouses and all other articles of apparel are specially priced for the Christmas shopper. 7350

A REAL PRESENT FOR HIM Life insurance will make an ideal gift for your BOY for Christmas. Teach him the habit of thrift by giving him a Penn Mutual Policy. Call Walter Fegan, J. M. S. Bldg. 350-47

Fear Is Ignorance. "Chief among the mental causes for disease is fear. Fear is mankind's worst foe. Consideration of some of the many things of which people are afraid will convince you of this fact. They are afraid of food, of climate, of germs, of criticism, of failure, of poverty, of disease, of death. Many other phases of fear, too numerous to mention, are familiar to us all. And, it may be said that sometimes we just fear 'fear.' Christian Science removes fear by first removing the ignorance which causes fear. A really intelligent or truly enlightened individual could not possibly be afraid. True spiritual enlightenment shows that God, infinite good, is the only real presence and power, and destroys the ignorant belief in an opposing power called evil. It is impossible for one who is really enlightened to believe that divine Love, the only creator, would create man in His image, and then make evil conditions to frighten and overpower him. The universe of Mind, Spirit includes only those ideas that express Love. It does not include anything that man could fear. This universe of God is the only real universe. There is nothing in it of which man could be afraid; hence fear has no real basis, and, absolutely speaking, there is no fear.

"The process employed by Christian Scientists in overcoming fear is to destroy all discordant, awful, and erroneous beliefs of the human mind. It is a process of education, or spiritual enlightenment, which substitutes as consciousness, right or true ideas for wrong beliefs. This process is a liberating one, and, eventually, it will bring complete freedom from all ills. Jesus said, 'If ye continue in my word, then are ye my disciples indeed; and ye shall know the truth, and the truth shall make you free'—free from ignorance, superstition, fear, and sin—free from the false, material beliefs, or man-made laws which seem to hold humanity in bondage.

Mrs. Eddy's Leadership. "After Mrs. Eddy discovered this Science of Christian healing, she demonstrated its truth in many wonderful instances of healing through spiritual power alone. She then wrote and published the great textbook of Christian Science, 'Science and Health with Key to the Scriptures,' and other books on the same subject. She later established the system of spiritual teaching and healing which is rapidly extending into all parts of the world. She founded The Mother Church, The First Church of Christ, Scientist, in Boston, which includes all the activities of this world-wide movement, and of which all other Christian Science churches are branches. She provided this church with a Manual of by-laws, which, she says if followed in letter and spirit, will prove adequate to guide this great movement, courage, faithfulness, consecra-

Hubby Criminal, Spouse Charges In Decree Plea

The marriage romance of Carrie F. Hurst and Edward Hurst was abruptly shattered, judging from the complaint of the wife, who petitioned for a divorce in superior court No. 2 Thursday. She alleges that her husband was wont to go away on business and stay away from home for four or five weeks. In August, he went to Denver and later told her to follow him. There he was arrested for stealing automobiles, was locked in jail, but escaped, the wife declares. He then notified her that he intended to leave the country. Their marriage lasted from April 25 of this year to Aug. 18, when they separated. The wife also charges failure to provide.

FOR YOUR MOTORIST FRIEND Think how many times he has given you a "lift" in his car. He will appreciate it if you give him something for his old bus. You might give him a Billmont socket wrench set, a King socket wrench set, Boyce Motometers, vases for closed cars, horns or other accessories. They may be had at reasonable prices at the Lincoln Automotive Supply Co., 113 E. Jefferson Blvd. 350
