Notre Dame Plans Drive For Second Million Dollars

Campaign To Be Opened In South Bend On October 16

Endowment Workers Will Seek to Raise \$250,000 in Local Solicitation—Preparations for Work Outlined at Meeting Held Thursday Night.

The University of Notre Dame will begin its drive for the second \$1,000,000 of its endowment fund in South Bend on Oct. 16. The South Bend campaign will be for \$250,000 and will extend over a period of three days, ending Thursday, Oct. 19.

First impetus to the local drive was given last night when 30 members of the South Bend endowment fund committee dined in the Turkish room of the Oliver hotel. At the dinner, Rev. John C. McGinn made announcement of the opening of the second leg of the campaign.

Father McGinn also revealed that \$1,048,164.65 has already been secured for the fund. Of this amount South Bend has subscribed \$252,138 of its pledge of \$500,000. The remainder is to be raised by popular subscription.

Headquarters are to be opened on the mezzanine floor of the Oliver hotel. The next three weeks will be occupied in organizing working and soliciting committees. The campaign will be conducted by dividing the city according to wards and precincts.

To Extend Campaign.

Following the drive here campaigns will be made in Michigan, Ohio and Pennsylvania. Centers will be Detroit and Pittsburgh. No Ohio center has been selected yet.

Practical matters, Walsh, newly chosen head of the university, made his first public appearance in his official capacity last night. Besides Father Walsh, speakers were Father Cavanaugh and Father Burns, both former presidents of the South Bend chapter of the Lippincott, Mayor Eli F. Seebirt and Rev. McGinn.

The increase in students at Notre Dame for this year has again rendered acute the question of providing accommodations for the students. Dr. C. A. Lippincott, president of the board of trustees, said that the school is not merely a question of new dormitories but on every hand the need is felt for greater facilities for laboratories and additional classrooms. Last year 200 college men withdrew their registration after they became aware of the situation.

This year it is safe to say that this number has been increased by at least an additional 300.

1,990 Students Registered.

At the present time there are 1,990 students registered, and 500 of them are obliged to reside in South Bend.

In the hopes of overcoming in part the present trying situation, construction of a temporary building was rushed through the summer and in this way we will be able to care for the additional students on the campus. This year it is safe to say that this number has been increased by at least an additional 300.

Tunes Of Ireland And Scotland On Orpheum Program

Musical Revue Warmly Received by Theatregoers—Other Numbers Please.

Sure, it is a fine bill that they're havin' at the Orpheum the last half of the week. What with the Scotch-Irish revue and several other first class numbers, it won't do to miss it, at all, at all. Hoot Mon! The way that revue sings the songs of bonny old Scotland, it's "gude" to hear them! But Burns they sang up the old Irish tunes, then does the spirit of the Emerald Isle captivate the whole house.

Ray La Pearl is a very clownish clown. He spends a great part of his time giddling through the atmosphere and doing all sorts of comical stunts, as indeed becomes a clown who styles himself, "the world's greatest acrobat." Kinno, the juggler, has a style all his own and keeps folks interested. Lillian Gonne is a sprightly little girl who has a knack of getting laughs. So have Peter and Burns, who have a lively little comedy sketch. Daly & Burch in "The Heights of Ignorance" complete a worth-while bill that ought to send the gloomiest away with a smile.

Now that we are on the second million," he said, "it will be a great thing if we can start out from here as we did on the first million. There are from 300 to 500 on our preferred list in South Bend whom we are yet to see. I'd like to emphasize the fact that it is a community campaign."

Mayor Seebirt called attention to the close relationship between the university and South Bend. "The university's problems now are our problems," he said. "I surely trust and hope that the citizens of South Bend will be behind this movement from now on."

"You can judge the character of any civilization by the emphasis it lays on activities and the honor it accords them," declared Father Cavanaugh in the course of his speech.

"Speaking of our own little community special emphasis has been placed on industrial life. I am glad to see it being transferred to something higher. One difficulty which we all have to face is that it is hard to start the flame from the embers of an interrupted fire. You will succeed in this work just as you are in earnest about it."

"Y" CANVASSERS ENTER INTO LAST DAY OF CAMPAIGN

Platner Asks Kiwanis Club Members to Aid in Underwriting Movement.

"This is Y. M. C. A. day," says Pres't Shafer of the 'Y'. There will be a workers' conference in the 'Y' lobby at 8 o'clock this morning. At 12:15 o'clock this noon there will be a luncheon meeting of campaign workers. Final reports will be made at the 'Y' supper at 8:15 o'clock tonight.

It's open territory after 5 o'clock this morning for "Y" canvassers. Hitherto they have been going by cards and soliciting from selected individuals, but this morning begins the last few hours for the getting of that \$25,000. The campaign ends at 6:15 o'clock tonight; the money must be had by then.

George M. Platner, business manager of the Kiwanis club at the Oliver hotel in a speech endorsing the "Y" campaign and calling for the support of the Kiwanis, he said in part:

"No doubt I was selected to make this announcement on account of my age and, yet I am not as old as some of you think. I am a charter member of the South Bend Kiwanis club. I have always been thoroughly interested in its activities and through it in all the civic activities. A fellow business man, I approached me on the street the other day and solicited a subscription to the Y. M. C. A. for its current operating expenses. Before going further with my talk, I want to give you a little personal history.

What the "Y" Does.

"I was born in St. Joseph county, Indiana, some miles from here, in 1863, which makes me today, I am one of four children—brother and two sisters. As you know this was during the civil war. I was born January 18, 1863, and in December of 1864, my father was unfortunately killed, or fortunate enough, to be drafted into the war. He never came back. This left my mother with four children to be cared for, and I want you men to know that I appreciate what the Y. M. C. A. is doing for children left in our circumstances.

"You must remember that in the year 1865 and for the 15 or 20 years following, this was a wilderness. Studebakers and other factories located here because of the virgin forests which gave them an outlet for their products. In those days men did not think of the boys as we do these days. Children were left to seek their own amusement, but as they had no city environment, they did not have the problems to meet which they have today.

"I learned that the Y. M. C. A. serves approximately 36,000 each year which means from 1,500 to 1,600 each day. You who operate stores know how many folks one clerk can wait on in a business day, and in this way we can realize the tremendous work which is handled by the Y. M. C. A. officials. I am a member of the Y. M. C. A. and I want to recommend that Kiwanians 100 per cent do their part for this institution.

Amount of Campaign.

The following is a detailed account of the campaign so far according to division reports:

Division M. J. B. Campbell commanding	2108
Division C. W. Hyde commanding	2108

Y., where he has been endeavoring to gain admission into the country for Eusebius Cudowski, formerly of South Bend baker, is in Washington, D. C., to hold an interview with the secretary of labor, with whom he has arranged a discussion of the rejected alien's case. At Ellis Island he was informed that the decision of the United States commissioner of immigration not to admit Cudowski to this country was final, but Mr. Werwinski is optimistic of obtaining permission through the offices of the secretary.

Cudowski, who at one time was associated with his brother in the bakery business in South Bend and who has entered this country from abroad three times, is refused re-admission now on the grounds of defective physique which might tend to make him a public charge.

SLAYERS OF TAXI MAN ARE INDICTED

John Bauer and Charles Hanson Go to Marshall Court for Murder Trial.

John Bauer and Charles Hanson, confessed murderers of Charles V. Johnson, local taxicab driver, were taken to Plymouth yesterday afternoon for arraignment in the Marshall court. The two men had been held at the county jail here since their capture by Chief of Police Lane and Capt. Hamilton which occurred a week following the murder of Johnson on Saturday, Sept. 2.

They were indicted on murder charges in Marshall county Tuesday afternoon.

Both men confessed their parts in the crime to Chief Lane and Hamilton on their first apprehending. Bauer confessed shooting Johnson in the latter's taxicab while the three men were enroute to Plymouth, while Hanson in confession corroborated Bauer's story and admitted that he planned assisting Bauer in robbing the taxicab.

At the time of the murder the two made good their escape by boarding an east-bound train from the Pennsylvania railroad station at Plymouth. Laundry marks on several articles of clothing found near Johnson's body furnished a basis for a chain of circumstantial evidence which led to the arrest of the men in Zanesville and Mansville, O.

Life imprisonment or the electric chair is the fate in store for the young men if they are found guilty of the murder.

LOCAL POLICE SEIZE ALLEGED SAFE BURGLAR

A tireless search by Sgt. Delincki and officers Kish, Winther and Pinter of the local detective department yesterday afternoon and evening for Joseph Nicum, 20, who is wanted in Elkhardt on a charge of robbery and safe burglary, resulted at midnight when the officers arrested the Nicum youth near the Grand Trunk station.

Frank Zilm, 19, formerly of this city and Henry Harman, 20, of Elkhardt, have already been jailed at Elkhardt for their participation in the removal of a safe containing \$500 from the Farley delicatessen and cafeteria in Elkhardt. In their confessions they implicated Nicum in having been a party to the crime.

The local department was notified yesterday morning to aid in the search for Nicum, who has a sister living here.

Delincki and Officer Kish found Nicum in a restaurant on W. Division st. He admitted that he was wanted in Elkhardt. He said he was preparing to leave the city when the officer found him. He had checked a suitcase containing his clothing at the Grand Trunk station.

Nicum will be returned to Elkhardt today.

REVEALS PERILS OF FINANCING BY MODERN METHODS

Speaker at Credit Men's Banquet Discusses Instability of Stocks.

"Modern Industrial Financing," one that places industry in a precarious position, was the subject of an address given last night by E. C. Beece, general secretary of the Association of Commerce, Grand Rapids, Mich., at the first banquet of the season of the South Bend Association of Credit Men at the Oliver hotel.

With him on the program was Col. W. S. Wood, state and municipal recreation director, who spoke on "Facts and Fun on Finance."

In the opinion of Mr. Beece modern industry faces a perilous situation because of the methods used in financing corporations during the past two years. "There is a stability in the method of financing," the speaker pointed out, "placed these industries which when forced to compete in normal times with such industries which have not been financed at a peak era, will impair the ability of such industries to do business."

The speaker particularly stressed expanding corporations which borrowed to the limit from banks and then sought further extension by borrowing from the public through the sale of preferred stock. "There is probably today more preferred and yellow paper in the hands of the private investor which is worthless than ever before in history," Mr. Beece said.

Evils of High Financing.

"For instance," he said, "concern which sells its preferred stock and pays 25 per cent to a selling agency for disposing of its paper. Then further a bonus of common stock may be thrown in. Third a high interest rate, probably eight percent. Fourth a rate of interest, 10 percent. These are the evils of high financing. The speaker pointed out, placed these industries which when forced to compete in normal times with such industries which have not been financed at a peak era, will impair the ability of such industries to do business."
