### Want Better Shows.

Theatre-goers in the smaller cities of the country are demanding a better class of theatrical attractions. A star, to do a successful business nowadays, must possess true merit, or else retire from the field where competition is keen and genius is bound to assert itself. In this connection it is noteworthy that the art of play reading is rapidly growing popular. As an example of this may be cited the case of booksellers in towns where Mildred Holland appears in "The Power Behind the Throne." The play is based on Schiller's "Love and Intrigue," and cases are not unknown where booksellers report a lively demand for the works of Schiller after the actress has appeared at the local theatre.

### Bremen to Start New Well.

Drilling will be suspended in the present experimental oil well on the fair grounds, and a new well started. The present well is down to a depth of 850 feet. It is proposed to drill the new well down to the trenton rock that was struck a few weeks ago and then shoot the well. A fair pressure of gas and some oil was struck at a depth of 370 feet in the old well, but not a good test was made as to the pressure or quantity of gas. The rock in which the gas was found was a good quality of trenton and 35 feet in thickness.—Bremen Enquirer.

### BICYCLE TRUST

Review of Year's Business With Report on Our Old Novelty.

A late issue of the New York Commercial and Financial World contains a review of the American Bicycle company's report for the year just closed. From which it appears that the popularity of the bicycle is falling off rapidly and that the business of the trust is largely given over to automobiles and during the coming year that branch will be more vigorously pushed than ever. It has acquired many of the most important automobile patents in the world and has at Toledo the largest and most complete automobile factory in the world.

The company's Indianapolis plant is occupied wholly with electric automobiles while other plants build wagons moved by other power, such as steam, gasoline, naphtha, etc. A new self-propelling delivery wagon, to be sold at low cost, will be put on the market this year, and heavy steam trucks, carrying as high as four tons on ordinary streets, are already perfected and being built on orders. An auto-sweeper, for cleaning streets, is a novelty just taken up by the company, out of which it expects to realize very great profits for many years.

Concerning the old Novelty works it is said:

"The American Wood Rim company, to which the company sold their wood rim plant at Plymouth, Indiana, and in which they are large stockholders, is in flourishing condition and paid on the past year's business a dividend of 10 per cent."

### TREASON TO THE FLAG

Is the One Unpardonable Sin, Says the G. A. R.

The department of Indiana, Grand Army of the Republic, has issued a general order that is attracting wide spread attention. It devotes considerable space to the death of President McKinley and praises his virtues. The portion which is being so universally commended is as follows:

"The Grand Army of the Republic stands like a stone wall for the speedy enactment and vigorous enforcement of statutes that shall prevent the abuse of free speech and free press, which spreads treason, anarchy and disension and cause such atrocious crimes to be committed in our land. Our flag is the embodiment of good ideas, and grand and true. Its defense the one lesson of patriotism; treason to its cause is the one unpardonable sin. Now that our great comrade has gone on before let our ranks be closed up and united in the accomplishment of our mission. We anticipate with bounding hearts how we shall come to meet our lamented hero in the last reunion, with flowers fresh as Eden, with celestial music and silken standards bannered with peace and laureled with fadeless renown, under the walls of a city not made with hands."

### A GAY PARTY

### Queer Prank of a Horse.

Jacob E. Laudeman, residing southeast of town, is now trying to figure out if there is any money in horses. He attended the public sale of the John Lasar estate on last Tuesday and purchased a horse. Starting home with the "trotter," he was congratulating himself upon his excellent purchase, when, without any notice, his horse fell dead in the road. He says he did not mind the loss of the money he had paid for the horse so much as the work of burying the animal.—Bremen Enquirer.

Arty Earl Shafer, an 18-year-old boy living with his mother in German township, was brought to the jail Friday night as an incorrigible, at the instance of his mother. Being brought before Judge Capron next morning, he was discharged because he is beyond the statutory age.

In the divorce proceedings of Chas. W. T. Allbright against his wife, the plaintiff was ordered to pay \$25 for his wife's attorney fees. Charles M. Sarber was granted a divorce from his wife, Sarah. Clemmie Eshelman introduced evidence and obtained a decree of divorce from her husband, Joseph Eshelman.

Three claims of Miriam A. Walker against the estate of her husband, F. M. Walker, were allowed, and one was disallowed.

A petition was filed asking that William A. Johnson be declared of unsound mind, and that a guardian be appointed for him.

### COMES TO PLYMOUTH

Important Lawsuit Venued From Laporte Circuit Court.

Last spring a vote was taken in Laporte county for the construction of a certain stone road, the vote was favorable, contracts were let and the work begun. A large number of citizens became satisfied that the road would not be up to specifications, meetings were held and an injunction suit resulted, in which the county commissioners were joined as defendants. Great interest has been taken in the proceedings by all the people of Laporte county and the suit is the most important case pending there. Lately a change of venue was asked by the defendants and the case was sent to Marshall county for trial. There will be a large number of witnesses and the trial will be a long one. An effort will be made to have it set for hearing at the present term of circuit court.

### Boom in Kankakee Lands.

LAPORTE, Oct. 18.—The activity in Kankakee lands is little short of phenomenal. Since the Pontiac syndicate bought thousands of acres in Dewey township, of Laporte county, the advance in prices has been steady. During the past forty-eight hours six transfers, covering 1,200 acres in Hanna township, have been filed for record in the county recorder's office the aggregate consideration being \$42,500. The papers are now being prepared for the transfer of a tract of land in Dewey township from James Long to the Lacrosse Land company for \$90,000. Within a few years land along the Kankakee has risen in value from \$5 and \$10 an acre to \$35 and \$50.

### Death of Dr. William Geddes.

### A GREAT MAN'S IDEA.

GENIUS, as Ruskin defines it, is simply a superior power of seeing. Have you the genius to see how important an element in the success of your house-keeping is the use of Ivory Soap? Judged by the work it does Ivory is the cheapest soap in America to-day. It is harmless. Embroideries, laces and delicate stuffs should be washed only with Ivory Soap.
