Fruit Not Damaged. H. E. Wadsworth, of the Michigan City Dispatch, says the fruit crop of Northern Indiana has not been materially damaged by the winter weather. He says there is always a great deal of rattle-headed talk about the fruit being killed from newspaper correspondents who know nothing at all about such matters and are not quite sure they know a peach tree from a strawberry vine. Of course, seasons vary in fruit products as they do with other crops, and there are many causes for it besides the winters, but the promise this year seems up to the average, as far as can now be determined. Spring frosts may change the present outlook, but they also may not, and there is no use of getting silly about it.

Coming to Its Senses. Now that the conventions are over, we are inclined to say that such early district and county conventions are not wise. But with the uncertainty, the aspirants begin early, and the crop gets ripe altogether too soon in the spring. After this let's have later conventions.—Elkhart Review.

Your Liver and Kidneys are the Sieves that drain the Blood. No other organs in the body have such direct effect on the general health. See that you keep them in good repair. Every drop of blood is strained by them. If they fail in their work, it will result in the accumulation of poisons that cause rheumatism, urinary troubles and many worse disorders often ending in dreaded Bright's disease. WATCH YOUR LIVER AND KIDNEYS and at the first sign of incapacity and inability to perform their natural functions, take a remedy which will gently force them to renewed vigor. McLEAN'S LIVER AND KIDNEY BALM stimulates these organs to immediate healthy action, reduces acute pain, purifies the blood, and so removes the cause of disease. Better buy a bottle to-day and be prepared. It may save you years of suffering. THE DR. J. H. McLEAN MEDICINE CO., St. Louis, Mo.
