

# A TALENTED WRITER

## Praises Peruna as a Catarrh Remedy

Mrs. E. M. Tinney, story writer, 325 E. Nueva St., San Antonio, Tex., writes: "During 1901 I suffered from nasal catarrh, which various other remedies failed to relieve. Six bottles of Peruna, which I took, entirely cured me, the catarrh disappearing and never returning. I therefore cheerfully recommend Peruna to all similarly afflicted."

Mrs. Ellen Nagle, 414 4th street, Green Bay, Wis., writes: "I have often heard Peruna praised and it is more widely known here than any other medicine, but I never knew until a few weeks ago, when I caught a bad cold which settled all over me. The doctor wanted to prescribe, but I told him I was going to try Peruna and sent for a bottle and tried it. I felt much better the next morning and within five days I had not a trace of any lameness or a cough."

"I consider it the finest cough remedy." PERUNA TABLETS—Some people prefer to take tablets, rather than to take medicine in a bottle form. Such people can obtain Peruna tablets, which represent the solid medicinal ingredients of Peruna.

Not a Stranger to Her. The conductor of the Pullman car had for some time had his eye on the man who seemed to be fishing for an excuse to speak to the lady across the aisle. The passenger finally left his seat and took one beside her, and when they had conversed for a few minutes the lady seemed to be protesting, and the conductor's opportunity had come. He stepped forward and said: "Madam, if this man is forcing his attentions upon you he must resume his own seat."

"He is not exactly a stranger to me," she admitted. "But you seemed to be annoyed, madam."

"I am not exactly annoyed, but I wish he wouldn't talk to me." "I am simply arguing a case," explained the man. "Yes, but there is nothing to argue. We have been married and divorced twice, and now I've married another man, and we can't be married again until he dies. Give it up, Jimmy—give it up and go back to your seat."—Chicago News.

Truth at Second Hand. Heard in the Calcutta Police Court.—Hemraj, pleader to chief presidency magistrate, in informing his honor that one of his witnesses was absent: "The man has fallen unwell, your honor; and he has sent a man here to say that he is dying and cannot come."—Allahabad Pioneer.

One Way to Wisdom. "I think," said the girl youth's father, "it's about time you stopped this foolishness and began to acquire a little wisdom."

"My scheme," replied the youth, "is to acquire wisdom by first determining how foolish I can be."—Philadelphia Press.

RUBBER STAMPS. All kinds of Rubber Stamps Made to Order. Self-inking Dates—something new, ink and looking pads. Send for Catalogue to Lock Box 219, Fort Wayne, Indiana.

Sincerely Up to It. "Hard a-lee!" roared the skipper of the yacht, for the third or fourth time. "What do you keep yelling 'hardly' at me for?" bellowed the amateur wheelman. "I'm doing the best I can."—Chicago Tribune.

Clear white clothes are a sign that the housekeeper uses Red Cross Ball Blue. Large 2 oz. package, 5 cents.

Called for Blood. The two eminent scientists had differed in opinion concerning the morphology of certain gasteropod mollusks, and the dispute had become bitter.

They began to indulge in personalities. "You harrivorous chondropterian!" exclaimed the distinguished savant with the convex spectacles.

"You supercilious snuffboxer!" retorted the equally distinguished pundit behind the umbracole, trembling with rage. Instantly they sprang at each other, and nothing but the quickest kind of interference on the part of the other eminent authorities prevented a tragedy in high scientific circles.—Chicago Tribune.

# RAKIDY GARDEN

More husky young men die from over-exertion on the football field than in the harvest field.

Keep the old sow as long as she continues to give you a good litter. Do not turn her off simply because she is old.

All animals thrive best when fed at regular meals and given each time no more than they will readily consume.

Brain is a good deal better feed for fattening steers than most farmers understand. When you can buy it at a low price, try it.

Those who have to buy hay may console themselves by recalling that in the spring of 1879 they sold in New York at \$40 to \$48 per ton.

The proportion of profit is usually greater where small numbers of stock are handled than otherwise. That's where the small farmer comes in.

When you are feeding poultry scatter the feed around so the birds will have to hunt for it, as it will give them exercise and prevent them from gorging themselves.

The udder of the cow suffering from garget should be well bathed with very warm water, to which has been added an ounce of cooking soda, and after bathing it should be well rubbed with an embrocation composed of 1 lb. and turpentine.

Statistics show that 99 farmers of 100 keep hens. It is estimated that 75 per cent of this number raise mongrels and crossbreeds. Now that the campaign for pure-bred cattle, hogs and even field seeds is on, it would seem wise to reduce the number of mongrel poultry.

An osage hedge if trimmed up five or six feet, may be converted into a first-class hog and cattle-light fence by adding about six barbed wires. In a year or two when the branches grow out again over the wire it makes an impregnable barrier to live stock's exit or entrance.

Barley as a feed for live stock is much commoner in European countries than it is in the United States. In this country it is confined more largely to States of the Pacific slope.

By-products left from the breweries are usually used as stock feed. Barley is a crop that can be raised in a great many different climates and is superior of maturing a crop than some other of the small grains.

New Variety of Red Clover. A recent Government bulletin gives accounts of new kinds of clover obtained from Russia. The variety that has been most promising is that called Orel. One great advantage of this type is that it is hairless. Every reader, who has examined either red or mammoth clover must have noticed the abundance of hairs, so-called, on the stem, and the midget and skeleton of the leaf. It is this hair or fuzz that renders red and mammoth clover so exceedingly dusty, and we suspect it is this that causes it to turn black and spoil so readily in bad weather. The hair furnishes the very best opportunities for accumulation of the fungi which are the cause of the heating of clover hay. One of the merits of alsike is that it is smooth like the Orel clover.

In most places where it has been tested this variety yields much better than any of the native varieties, and where it has failed it has been in comparison with varieties of similar origin. It has much more leaf growth, but is about two weeks later, coming in alone after the mammoth clover; so much later, in fact, that it is not only to procure seed from the clover crop, but is not of north latitude 43. It is not recommended as a substitute for the common red or mammoth, but as supplementary to either one, particularly in sections north and west of the present limit of clover growing.

Care of Turkeys. At the Manitoba Station an experiment was made as to the gains by turkeys confined in pens, as compared with those that ran at large. Those pens were given all they would eat clean of a mixture of wheat, oats and barley, 2:1:1. In the morning the grain was fed the turkeys which were not in the evening it was fed whole. It was noted that the turkeys were apparently more fond of oats than of the other grains, so toward the end of the fattening period the proportion of this grain was increased. A little grain was fed the turkeys which were not confined in addition to the food which they could gather. The five turkeys in pens weighed on an average, 6.55 pounds each at the beginning of the test. During the forty-two days of the feeding period the average gain was 4.65 pounds, 6 pounds of grain being eaten per pound of gain. The turkeys running at large also weighed at the beginning of the test 6.55 pounds each and made an average gain of 1.85 pounds. On both cases the greatest gains were made during the first three weeks of the period. It is stated that the penned turkeys when dressed, shrank 5 per cent less than those running at large and that they were plumper and were in every way more inviting in appearance.

Fungus Growth on Grains. Smut is annoying to farmers, as it not only causes loss, but compels one to cease using the seed from his crop, which may be of some valuable variety. So damaging has been smut on all kinds of grain that the United States Agricultural Department has issued several special bulletins on the subject. The loss of grain from smut in this country is very large, and yet the matter has received but comparatively little attention. Smut is caused by minute parasitic fungi, the spores, or seed-like bodies, which form the black, dusty mass that takes the place of the

To-day I piped my future ma-in-law. She got aboard my Pullman and she scared. Three babies into fits the way she rattled my baggage if I ever saw a cracker-box to equal mother's jaw. A hard-wood finish face all nailed and squared. She ossified the gripman when she stared. And me? Well, I was overcome with awe. But, being Pansy's ma, 'twas up to me to hand her something pit-a-pat and swell. And so I says, "Hello, Queen Cherokee! What ho! for Pansy? Hope she's feeling well." And in response, a trill tart but game, "She mind her business—hope you feel the same."

I don't think mother picked me out to win. To be the steady her darling child. She thinks I am a kick-up, something wild. And no sweet girl should wear my college bun. She thinks I'm some too piffly with my chin. And my soft prattle simply gets her riled. I've got my keys with her, to put it mild. I don't belong, because I am not in. Say, how, with such an Iceberg on the track.

Can you conduct my car to married bliss? I hoped that I could whistle Pansy back. And lo! I got a frostbite of this! I'd wrastle death for her, I'd fight her!

But stab me if I'll pry her ma! Even as I stood with cobwebs in my tower. A cloudy vision came and flagged the bow. Give forty rah-rah-rah! O Joy, O joy!

'Twas Pansy like a fairy in a bow. Warbling, "Ho! the car!" With all my power. I yanked the bell. My brain was all afloat. My heart cut pin-wheels, stole a base and throut.

"Sammy"—and knighthood was in flower. I helped her on. My shoes were full of dirt. I says, "How's Ma?" She answers, "Going home." I doffed my lid and ventured to repeat. The breeze had put the weather on the bun.

Then she replied, not seeming sore or vexed. "It may not be so punk on Sunday next."—Wallace Irwin, in Success Magazine.

Lower California Is Valuable. The impression that Lower California, which, it is said, the United States is seeking to acquire from Mexico, is an arid and rocky waste is erroneous, says an American journal which he founded, animated and personified, for reasons that concern him and do not call for our approval or disapproval. We are delighted to place our columns at his disposition. In them he may express his opinions with perfect frankness. Under this happy condition M. Henri Rochefort, 77 years old though he be, has recommenced his "slapdash, virulent" daily pamphlets against men who happen to be in power.

Miss Elizabeth Robins has written a novel to be called "The Convert." It is a story of the woman suffrage movement, with the scene laid in London. Miss Robins is certain to have appreciated the higher aspects of this long fight against masculine and feminine prejudice. The fact leaves the ladies at Westminster last spring was not confined to the excited suffragists. It seized most of the critics who scoffed at the petticoat warriors, as well as most of the policemen who faced them. The theme of woman's suffrage, though conducive to emotional aberration, had made startling and vital in the highest degree. It served Marco Prevost for an interesting if rhapodic study, and there is every hope that Miss Robins' book, coming from the better situated sex, will surpass "Frederique."

Sill in the Race. Cyrus Greenough decided that the methods of New England were too slow for him, and had, therefore, moved to a stirring Western town. From his new residence he sent a paper now and then to one of his old friends.

"I guess Cy has struck just the spot to suit him," this old friend said one day, as he opened his big wallet and drew out a newspaper clipping. "There's been a good many things, first 'n' last, that have made me think so, but you just pass your eye over that, and he handed the clipping to his neighbor. "Read it out," he said, and the neighbor read:

"The tornado which struck this town yesterday afternoon completely demolished the dwelling-house of Cyrus Greenough, one of our prominent citizens. When seen by our special report men, Mr. Greenough was in the best of spirits, he and his wife and three children having recently moved into the vestry of the Presbyterian Church.

"Mr. Greenough spoke of his satisfaction in the fact that his wife was unharmed, and his business could go on without interruption. Although he was somewhat bruised about the head and arms, Mr. Greenough was able to demonstrate the workings of his new patent shoe-lacing with ease and clearness. Price five cents a pair, three pairs for ten cents."

The Trout in His Lair. Whoever has had the privilege of lying at full length on some mossy overhanging bank while watching a large trout in his lair perceives that a true figure has yet to be drawn of him. Even photography can give no hint of the way in which the spotted dorsal fin undulating loosely athwart the broad back, of the perpetual fanning of the pectoral fins, of the capacious lips opening and closing, the half open round mouth, the luminous brown eye, the ceaseless slow vibration of the powerful tail, nor can he adequately describe the darting and suddenness of the dash, or the lightning touch of the surface, the quick return to the old position and the resumption of the poise, with head elevated at a slight angle, pectorals all tremulous and floating water circles emanating from every slight motion of the body. It is also worth while to watch a trout rush four feet up a perpendicular fall of water, pause, tremble violently all over, and in a moment throw himself clear of the stream and fall into the basin above at an elevation of about three feet more.—Arthur P. Silver, in Outing Magazine.

Not to Be Wasted. Ben Cary had near his house a swamp, which was a breeding place for hundreds of man-eating mosquitoes. Some enterprising neighbors, who learned of the crude oil treatment, went to Ben and tried to persuade him to exterminate the pests.

"Exterminate 'em?" said Ben. "Not much. Not much. Why, Mrs. Cary an' I just paid thirty-two dollars for screening 'em from man-eating mosquitoes. Some enterprising neighbors, who learned of the crude oil treatment, went to Ben and tried to persuade him to exterminate the pests.

"Not much," replied her bad little brother, "that'll gi'anne an excuse to chuck 'em slippers away."—Philadelphia Press.

Turned Down. "Beg pardon, sir," said the waiter, with outstretched palm, "but 'aven't you forgotten something?" "No," replied the departing guest, "but I'm trying to forget it. Good bye."—Catholic Standard and Times.

Almost a Creation. Jinks—That bathing suit is quite a creation, isn't it? Winks—Well, let's see. A creation is made out of nothing, isn't it? Yes; that's almost a creation.—Judge.

Sure! "Does you think dar's a watermelon patch in heaven?" "I shod do," 'twouldn't be heaven without one!"—Atlanta Constitution.

# BITE FOR BOOKWORMS

Mrs. Frances Hodgson Burnett has become editor of the Children's Magazine. Mr. Vivian Burnett, her son, has become a manager.

The Saturday Review says the following has never been told in print before: "Ruskin had been inveigling against 'usury'; a bishop of Manchester defended the custom, though of course not in its worse form. A worthy acquaintance wrote to Ruskin taking up arms for the bishop. Whereupon Ruskin replied: 'You and the Bishop of Manchester are dangling over the pit of hell, and you want me to sprinkle you with rose water.'"

Limerick compositions are engaging the versifiers of Boston. A prize of \$100 is offered for the best finishing line to ditties such as this: If you search from Rhode Island to Maine, Throughout the whole Yankee domain, By day or by night, What can equal the sight—

One week the prize was given to the person who wrote: Of a maid that is fair but not vain. The reason for this decision has not yet been disclosed.

M. Henri Rochefort, who has withdrawn from the Intransigent, is supposed to have lain down with a managerial will whom he took for a sheep. The firebrand journalist has escaped enough to stay to be a welcome addition to the editorial staff of the Patrie.

Emile Massard, its director, says that "M. Henri Rochefort leaves in his wake, as he found, animated and personified, for reasons that concern him and do not call for our approval or disapproval. We are delighted to place our columns at his disposition. In them he may express his opinions with perfect frankness. Under this happy condition M. Henri Rochefort, 77 years old though he be, has recommenced his "slapdash, virulent" daily pamphlets against men who happen to be in power.

# FAMILY'S SKIN TROUBLES.

Eczema, Heat Rash and Scap Affections Amie Different Members, But They Care Them. "My wife had eczema for five or six years. It was on her face and would come and go. We thought we would give the Cuticura Remedies a trial. We did so, and she has never had a sign of eczema for four years. I myself used Cuticura Soap and Cuticura Ointment some time ago for falling hair. I now have a very heavy head of hair. We used Cuticura Remedies for our baby, who was nearly bald when young. She has very nice hair now. She is very fleshy, and we had so much trouble with heat that we would bathe her with Cuticura Soap and then apply Cuticura Ointment. It would dry the heat up so much quicker than anything else. Mr. H. B. Springmire, 322 So. Capitol Street, Iowa City, Ia., July 10, 1905, and Sept. 16, 1906."

Fitness of Things. Medders, who had eaten a hearty breakfast of ham and eggs, with the usual evidence of the meal on his shirt front and waistcoat—for Medders was a bit careless in his feeding—leaped back in his chair with serene satisfaction. "Well," he said, "I feel better. I'll go and order that suit of clothes I have been intending for the last month or more and add to my wardrobe."

"If you will take my advice," suggested the feminine autocrat of the breakfast table, surveying him with marked displeasure, "you'll get a pepper and salt."

"What for?" "To go with all that egg."

TESTED BY TIME. A Cure that Has Held Good For Years. Mrs. Mary Crumlish, of 1130 West Third street, Wilmington, Del., says: "Some years ago I began to feel weak and miserable, and one day awoke from a nap with a piercing pain in my back that made me scream. For two days I could not move and after that I had backache and dizzy spells all the time. My ankles swelled and I ran down dreadfully. I was nervous and had awful headaches. I wonder that any medicine could do what Doan's Kidney Pills have done for me. They cured me four years ago and I have been well ever since."

Sold by all dealers. 50 cents a box. Foster-McMillan Co., Buffalo, N. Y.

The Same Old Mother. "Now, Jamie," said a school teacher, "there were only one pie for dessert, and there were five of you children and papa and mamma to divide it among. How large a piece would you get?" "One-sixth," replied Jamie, promptly. "But there would be seven people there, Jamie. Don't you know how many times seven goes into one?" "Yes—and I know my mother. She'd say she wasn't hungry for pie that day. I'd get one-sixth."

How's This? We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, O. We are the undersigned, have known F. J. Cheney for the last 15 years, and believe perfectly honorable in all business transactions, and financially able to carry out any obligations made by his firm. Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is sold internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. The name is blown in glass, sold by all Druggists. Take Hall's Family Pills for constipation.

How's This? The numerous "help" who have "had good characters but lost them" do no worse of than the domestic mentioned in a newspaper clipping. "An' there's been a good many things, first 'n' last, that have made me think so, but you just pass your eye over that, and he handed the clipping to his neighbor. "Read it out," he said, and the neighbor read:

"The tornado which struck this town yesterday afternoon completely demolished the dwelling-house of Cyrus Greenough, one of our prominent citizens. # KIDNEY TROUBLES

The kidneys are essential organs for keeping the body free from impurities. If they should fail to work death would ensue in very short time. Inflammation or irritation caused by some feminine derangement may spread to some extent to the kidneys and affect them. The cause can be so far removed by using Lydia E. Pinkham's Vegetable Compound that the trouble will disappear. When a woman is troubled with pain or weight in loins, backache, swelling of the limbs or feet, tired feeling under the eyes, an uneasy, throbbing feeling in the region of the kidneys, she should lose no time in commencing treatment with

Lydia E. Pinkham's Vegetable Compound. It may be the means of saving her life. Read what this medicine did for Kate A. Hearn, 520 West 47th Street, New York, who writes: "Dear Mrs. Pinkham:—I owe a debt of gratitude to Lydia E. Pinkham's Vegetable Compound for it has saved my life. I suffered with kidney trouble, irregularities and painful periods, and my blood was fast turning to water. I used your medicine for some time and it has made me strong and well."

Lydia E. Pinkham's Vegetable Compound made from native roots and herbs cures Female Complaints, such as Pains and Displacements, and Organic Diseases. Dissolves and Expels Tumors at an early stage. It strengthens and tones the Stomach, cures Headache, General Debility and invigorates the whole system. For derangement of the kidneys in either sex Lydia E. Pinkham's Vegetable Compound is excellent.

Mrs. Pinkham's Invitation to Women. Women suffering from any form of female illness are invited to write Mrs. Pinkham, at Lynn, Mass., for advice. It is free.

# One trial will convince you that Sloan's Liniment

will relieve soreness and stiffness quicker and easier than any other preparation sold for that purpose. It penetrates to the bone, quickens the blood, drives away fatigue and gives strength and elasticity to the muscles.

Thousands use Sloan's Liniment for rheumatism, neuralgia, toothache, sprains, contracted muscles, stiff joints, cuts, bruises, burns, corns or colic and insect stings. PRICE 25c, 50c, & \$1.00. Dr. Earl S. Sloan, Boston, Mass., U.S.A.
