THEATRE CHANGES HANDS

Balfours Take Control of Orpheum After Short Trial. Many Changes To Be Made.

Jan. 7—The Balfours have taken charge of the Orpheum and have moved to Plymouth. They have met with success here during their few performances in our city and will make a number of changes in our local theatre.

The manager claims that the least number of tickets sold any night during their show was 285 paid admissions and that one day they sold nearly 1200 tickets.

The troupe has given excellent satisfaction and receive praise from all who attend.

The manager expects to have uniformed ushers before long, and Alfred Scheets will probably be head usher. A change of program will be given and many new and interesting specialties are being arranged for.

C. M. Walker gave up the management on account of too much other business to attend to.

HAVE PRACTICAL SCHOOL

Unique Institution Operated in LaPorte by Dr. Edward Rumely, Preparatory School.

Out in the little town of LaPorte, Indiana, is the Interlaken School, an institution which is so uniquely practical in its scope and aims as to be unusual.

Edward Buckrum writes of this unusual school and its unusual head, Dr. Edward A. Rumely, in Human Life for January. Dr. Rumely is no mere theorist in education. He is a keen alert, up-to-the-minute man affairs. Besides being a graduate physician, a graduate of German universities, the founder and president of a successful and unique boarding-school, he is an officer in active control of big affairs in a million dollar corporation.

The purpose of this school is to train boys in worthy and self-reliant character; to make them sound and vigorous of body and soul, practical and skillful in work, able to think clearly and express themselves cogently; to develop in them truth, helpfulness, courage of will,—in short, to train the sons of the directing classes of our civilization to become fit leaders of men in this industrial republic.

"Keener and keener has grown the demand," says Dr. Rumely, "for schools that will prepare our boys for the practical things of life. The men who are great in the nation today were not reared in the city flat. They were trained, most of them, by hard work on a farm—in the open, teaming fields, driving the patient-toiling horses, caring for cows, ducks and chickens, doing the manual training of chores, and playing hard when they had a chance."

Just how this clear-sighted, far-seeing educator is carrying out his theories, and what kind of boys are the product of his training is made apparent by the writer of this very readable article. Would there were more Dr. Rumelys at the head of American institutions.

Legislation for Hospitals.

Superintendents of the hospitals for the insane in the state have joined with the state board of health in an effort to obtain legislation looking to a change in the formal list of questions to be answered on admission of any patient to the hospital. The list is prescribed by law, and action by the general assembly is necessary before any change may be made. The list, as now used, is held to be incomplete, in view of modern methods of collecting and compiling vital statistics.

To Institute Rector.

Tomorrow morning at the regular 10:30 o'clock service at St. Thomas church, the Bishop of the Diocese of Michigan City, the Rt. Rev. John H. White will institute the Rev. Benj. F. P. Ivins as Rector of the Parish. The Bishop will preach the sermon and the Christmas music will be repeated. It will be an unusually interesting service and the public is cordially invited to be present.

THE APOLLO GIVES STAG

Over Twenty of the Members Partake of a Swell Banquet at Hill's Cafe.

Jan. 6—The Apollo Club gave a stag party at Hill's cafe last evening. About twenty members gathered to enjoy the occasion. A fine supper had been prepared and Clifford Burkett held the seat of honor and acted as toastmaster for the evening. Every one responded with sharp, spicy talks as their names were called. William Hendricks gave an excellent talk on "Good Fellowship," which the others claimed was the best of them all.

They adjourned at 10 o'clock, all declaring they had spent a most delightful evening. The following is the menu which was set before the boys with the emphasis on the half chicken:

- New York Counts Waffer Crax
- Cold Slaw
- Noodle Soup Pearl Crax
- Celery
- Shrimp Salad Lettuce Leaf
- ½ Baked Chicken
- Cream Gravy Sage Dressing
- Mashed Potatoes
- Oyster Patties Cranberry Sauce
- Buttered Rolls Escaloped Corn
- Peach Pie Ice Cream
- Coffee

Postcard Shower.

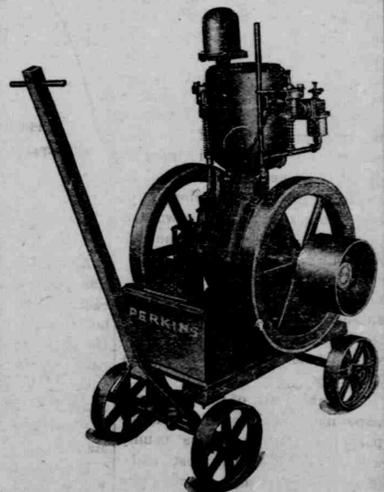

Mrs. D. E. Moore of Plymouth, who lived in Pierceton for many years and was a very active worker in the Presbyterian church, was remembered by a large number of her friends on her seventieth birthday last week, and was given a postcard shower. In reply Mrs. Moore writes as follows:

"Many thanks to my Pierceton friends for their kind remembrance of me the past week. Although seventeen years have past since I moved from there, they made me feel that absent, I was not forgotten. Again thanking you all.

Mrs. D. E. Moore.
 —Pierceton Record.

Notice.

The local health officer has no right to retain a pupil from school solely upon the authority with which he is vested, only upon the basis of the contagious diseases listed by the State Board of Health, viz small pox, diphtheria, measles, membranous croup, scarlet fever and whooping cough. Mumps, although considered, contagious are not so listed, hence on that disease he has no jurisdiction. But teachers in all schools, private, parochial or public, shall without delay, send home any pupil who is sick, and said teacher shall inform the local health officer as speedily as possible and said health officer shall examine into the case and act as is required by the law and the rules.

J. S. MARTIN,
 Local Health Officer.

Installation Service.

The installation of the Methodist Sunday school teachers and officers for the ensuing year will occur tomorrow morning at the 10:30 service. Every officer and teacher is urged to be present. Also every parent and pupil, thus showing your interest and thereby giving encouragement to these worthy workers.

Sunday school at twelve o'clock. Start the New Year right by bringing another with you. Your efforts may lead others to better work.

Medicines that aid nature are always most effectual. Chamberlain's Cough Remedy acts on this plan. It allays the cough, relieves the lungs, opens the secretions and aids nature in restoring the system to a healthy condition. Thousands have testified to its superior excellence. Sold by All Dealers.
