

## Olive Oil for Medicinal Use

Olive Oil is a valuable medicine and is coming more widely into use. It is widely employed as a laxative, especially for children, and is valuable in any condition where the system is to be cleansed or the vitality to be built up. Only the best oil should be used for medicine, and as much of that sold is inferior, it will pay to always get our fine brand of Imported Italian Oil. It is sweet, bland, of highest medicinal value, and is sold by us only in this locality.
