CITY LIQUOR LICENSE MADE \$500 A SALOON

Council Takes decided Action Under New Law—After Roller Skaters In Business Section—Dumping Ground Secured For Garbage.

The council Monday night fixed the liquor license in Plymouth at \$500.00. The motion was made by councilman Swindell and seconded by councilman Clizbe, and the vote on the motion was unanimous.

Councilman Bowell objected mildly at first thinking the sum should not be made to the limit, but he voted for the Swindell motion when the time came. Mr. Swindell said that the state legislature had given a few saloons a monopoly of the business which he believed ought not to have been done, but since it had been done, the proper thing for the council to do was to put the license as high as they could. The rules were suspended and the motion put through to third reading and passed finally. The ordinance as passed was an amendment to section two of ordinance No. 200 which fixed the amount of the license.

This ordinance means that the saloons in Plymouth will have to pay \$700 a year, \$200 to the county and \$500 to the city.

Mayor Cleveland being absent, Councilman Bergman was made Mayor pro tem and presided during the evening.

After Roller Skaters.

The council went after the roller skaters. The city attorney was instructed to prepare and have printed signs warning all not to skate on the sidewalks within the following district: On LaPorte street from Walnut to Water; on Center street from LaPorte to Adams; on Michigan street from the bridge to Adams street; Washington and Garro from Water to Walnut streets.

Let it be distinctly understood by the roller skaters that they may still skate on the street if they wish but not on the sidewalks on penalty of arrest and a \$5 fine. It was discovered that there was already an ordinance against roller skating on the sidewalks, any where in the city. It was passed Sept. 8, 1896 and in ordinance No. 208. The council did not wish to enforce this ordinance to the full extent, but the skating in the business district is such a nuisance that they thought it should be stopped in the business district. Crowds of boys have made travel not only inconvenient but actually dangerous at times.

Dumping Ground Provided

Councilman Bowell stated that the city had secured a dumping ground for the city garbage from Herb Gibson. It is in the rear of Gibson's property, along the river and the city pays him \$10 a year for it. Mr. Gibson is to look after the dumping and cover the garbage whenever necessary. The committee has been in search of a place for the past three or four weeks, said Mr. Bowell, and secured this place about a week ago. Garbage is already being dumped

there and cared for.

Councilman Swindell said it was time to begin thinking about sidewalks, and a motion was passed that all citizens knowing of walks that were needed be requested to notify the council, so that they would know where to order walks.

Gene Knappen was given license to build cement walks. This is the first one to be granted this year.

The courthouse electric lights are to be looked after. Committee chairman Vangilder will get the committee together this week and they will investigate the distribution of the lights in that part of the city.

The clerk was instructed to order new dog tags for this year. As soon as they come the city will again be looking after the collection of the dog tax.

J. A. Molter was present and stated that the Walnut street sewer at North street had become stopped up and the water was filling the cellar of his house there. He hired a man and opened it to ascertain the trouble and found that the two catch basins had become blocked with stones and trash and both needed cleaning. He found the job bigger than he expected and reported to the council, inasmuch as he had no right to work at the city's sewer. Marshal Jacoby, who is acting street commissioner, was instructed to get some men and make the needed repairs. He will also clean out all the catch basins in the city.

Mr. Molter also made the city a proposition for a dumping ground on his vacant area between the Lake Erie and river, but this having been provided for, his offer was not considered.

H. E. Buck put in a claim of \$100 for the death of his horse, which mired down recently in one of the city excavations. The bill was referred to the city attorney.

W. A. Roberts made objection to his water rent bill, which he thought excessive.

The following bills were allowed and ordered paid:

Wall Papers All Your Own

There's one great advantage in selecting wall papers from our stock—the designs you pick will not be seen on your neighbors' walls. Our great variety makes it possible for us to furnish satisfactory papers for houses all over town and still have each house papered differently.

Another advantage is that our papers are all the latest designs—the most artistic designs, too, that have been produced this year.

Our papers are bought direct from the manufacturers and you only have to pay our small profit. Our prices cannot be beaten anywhere.

It's time to paper now. Don't put off the work until the most beautiful papers are gone. At least come in and see what there is in our stock.

We can afford you every wall paper advantage that you can get anywhere and many advantages impossible to obtain elsewhere in this locality.
