BRITISH MINERS TO REST A WEEK

Important Issue Interjected into Congress by Caucus.

TO MAKE UP SUGAR DEFICIT

Washington, March 2.—The important issue of an income tax has been thrown into congress in an emphatic manner by the Democrats of the house.

At a caucus of the majority party of the house a bill proposing a 1 per cent tax on all net incomes in excess of \$5,000 was unanimously indorsed. The bill will be passed within the next two weeks.

The levying of this income tax is the means proposed by the Democrats for meeting the loss of \$53,000,000 a year in revenue caused by the placing of sugar on the free list. A bill removing the duty on sugar has been reported by the ways and means committee. It was also indorsed by the Democratic caucus with the members from Louisiana and Colorado, sugar producing states, bitterly protesting.

The Democrats of the house present a novel method of evading the supreme court decision declaring the income tax unconstitutional. While they acknowledge that the tax proposed by them in the present bill is an income tax pure and simple they describe it as an extension of the corporation tax law, which the supreme court has held to be valid.

They have, accordingly, embodied their income tax scheme in an amendment to the corporation tax law, which was passed by congress on the recommendation of President Taft. This amendment purports to extend the corporation tax law to individuals, firms and co-partnerships having an annual income of more than \$5,000. The term "business" as employed in the bill is held to embrace everything about which a person can be employed and all activities which occupy the "time, attention and labor of persons for the purpose of a livelihood or profit." Accordingly the terms of the bill apply to professional men as well as to men of business and to all employees except those who draw their salaries from state, county or municipal governments. The president of the United States himself will be taxed \$700 a year if the bill passes, and each member of the house will be separated from \$25 annually.

The unexpected appearance of the income tax issue in congress caused a big stir here and completely overshadowed in importance the radical action taken by the Democrats in placing sugar on the free list.

The Democrats expect that the proposed tax will raise between \$50,000,000 and \$60,000,000 annually.

SCHOOL HOUSE MADE SOCIAL CENTER.

The use of a school house as a "social center" is told of in a letter from a cousin of Mrs. Underwood who lately moved to near Miami, Florida.

The writer tells of the new comers flocking in to settle the country that has been made available by the great drainage system that has been established, a large per cent of the people being new residents, and therefore unknown to each other. There is a school house, of course, and the letter of a meeting at the school building one evening, where men, women and children met for the purpose of having a social visit, and getting acquainted with each other.

Many times in new settled localities a saloon is the first place started, and over the bar men drink and get acquainted, leaving the women to get together as best they can at a quilting, or some such neighborhood meeting. This meeting of all at a school house is a good idea, and is working the "school house social center" scheme just right. At a church of any given denomination, some feel more at home if they are members of the same set at their old home, while those who are affiliated with other denominations feel a reserve that chills. At the school house all have an equal right, and meet each other freely on common ground. These people have the proper conception of the use of the school house, and their example is worth following.

ADHERENTS TO ROOSEVELT INCREASING

REPORTS FROM MANY STATES EAST AND WEST TELL OF GAINING STRENGTH IN COL.'S FOLLOWING.

PRESSURE OF PEOPLE FELT CURRENT OF POPULAR OPINION TOO STRONG FOR POLITICIANS WHO WANT TO NOMINATE TAFT.

Washington, D. C., Feb. 28, (Special)—Reports received at the Headquarters of the National Roosevelt Committee in Washington, today, show a steady advance in Roosevelt sentiment in practically all of the states. California, Ohio, Louisiana, Texas are lining up for Colonel Roosevelt and the sentiment in these states, expressed in various ways, shows a decided tendency for the Progressive cause.

Colonel Cecil Lyon, National Committeeman for Texas telegraphed today stating his position. He expressed himself as being heartily in favor of Colonel Roosevelt for President, and said he would do all in his power to attain a delegation for him. Over 90 per cent of the Republicans in Texas, says Colonel Lyon, are for Roosevelt. He states that there is virtually no Taft sentiment except among office-holders and that he expects every delegate from the Lone Star state will be for Roosevelt, under absolute instructions.

Pearl Wight, Republican National Committeeman for Louisiana states that if the State Central Committee of Louisiana will authorize a primary Colonel Roosevelt may count upon a solid delegation from that state.

M. Lissner, Chairman of the State Central Committee of California, has telegraphed that out of 46 members of the Committee asked for an express of preference for Republican Candidate for President, 34 have declared in favor of Colonel Roosevelt. Six have expressed a preference for La Follette, four for Taft and two for Cummins. Mr. Lissner states that in his opinion the Roosevelt sentiment in the State Central Committee prevails in the ratio of ten to one, which he believes is the fair express of Republican sentiment in the state. "I feel confident and predict that the Roosevelt ticket of delegates to the National Convention will be endorsed by the Republicans of California at least two to one," says Mr. Lissner.

From Ohio, the President's home state, come advices showing that votes received from 85 out of the 88 counties give Colonel Roosevelt an overwhelming majority. Test votes have been taken by several Democratic and Independent newspapers and in practically every instance Mr. Taft has been snowed under by the adherents of Colonel Roosevelt.

Supporters of Colonel Roosevelt are working hard to capture the Tennessee delegation to the Chicago Convention. The leaders in this movement are optimistic and state that they have a good chance of downing the administration machine.

PLANNING FOR TWO MILES OF TOWN PAVING

BOURBON BOARD HAS PLANS AND SPECIFICATIONS TO MEET NEW COUNTRY ROADS TO BE BUILT.

WILL COST OVER \$50,000

W. E. Hess and Wm. English of Plymouth Are Officials of Town and Assist in Work.

Special to the Republican:

Bourbon, March 1—Bourbon is planning for over two miles of street paving this spring and summer which will cost upwards of \$50,000.

W. E. Hess of Plymouth, who is town attorney, was in Bourbon Wednesday night attending a meeting of the town board at which they approved the preliminary improvement resolution passed by the board at a special meeting held Feb. 5, covering the proposed paving. The board also fixed March 12 as the day for receiving bids on the new paving.

This new and extensive improvement is to be made on Main, Center and North streets. On Main street, it will extend to the town limits on the north and to the town limits on the south. On Center street, it will go to the town limits on the east and to the town limits on the west. On North street, the street running north of Fribley's big store, it will extend 265 feet east and 265 feet west of Main street.

This will make a total of about two miles, and will affect about 125 property owners. Among these property owners, Mrs. John W. Parks of Plymouth has three acres which will be affected. Town surveyor Wm. English estimated that if the best kind of wood block were used in the paving it would cost the town \$83,000, and if brick were used, it would cost fully \$50,000. This would make an average of at least \$400 for each property owner.

There was a large crowd at the meeting, but no remonstrance was offered, and it looks as though the paving would go through. The underlying purpose of this extensive plan of improvement is to make connecting points in the town for the new proposed macadamized roads in the country, the petition for which is to come before the board of county commissioners next week. Reports from the country seem to indicate that the township will vote for good roads, although there is some opposition.

Will Have Lights Too.

Not only is Bourbon planning this extensive paving system, but her merchants have already bought and have on the ground ready to install, the new tungsten post lights. Twelve of them will be put up in the busi-

Are You Aware?

That the article which is an every-day utility and has intrinsic value in it, by reason of the best service and economic expense to maintain is the Gas Light, which costs but One-fourth of a Cent per hour for a Hundred Candle Power Light. Incident of a Western Visit.

Everybody most knows the old veteran James L. Mosher of Union township. He can tell stories of war times and never get tired, and in cracking a joke he is well up with Dr. Hume in versatility. Jim has just lately returned with his good wife from an all winter visit with relatives and old friends in Colorado, and other western parts.

He was asked about the weather. Well it was cold, the thermometer going down to twenty-five and thirty at times, but the air being dry, one does not feel it so badly as here.

As an illustration of the degrees of coldness, and how it affects a man he told of old Uncle George Gerard, who when asked how cold it was at his house, said that he got up one morning and put some wood on the fire, and before he could get back again his feet were frozen solid, and as he went back to bed to get warm they clanked over the floor like slabs of ice.

"Remember Hank Messersmith," said Jim. "Sure, everybody knows Hank." "Well one morning when Hank came down from his cabin, and was asked how cold was it up at your place last night? He said, 'Well I got up and built a fire, and soon heard something that sounded like logs rolling off the roof, and stepped outside to see what the matter was. Blamed if the smoke had not frozen and was breaking off in chunks and rolling down.'"

When asked if the people out in Colorado drank "Lion Coffee," Mr. Mosher said that they did, and he drank a little himself.

TRIES TO SAVE LORIMER

Haney Files Brief Likening Senator to Martyrs.

Counsel Makes Plea of Res Adjudicata and Assails Character of Evidence Heard.

Washington, March 2.—Investigation of the election of William Lorimer is characterized as an inquisition and the junior senator from Illinois is likened to historical martyrs of church and nation in a voluminous brief filed with the special senate investigation committee by Attorney Elbridge Haney. Bitter arraignment is made of the four confessed bribe takers of the Illinois legislature, of the private detective and other agencies in the work, and of what is characterized as "popular clamor" demanding that Senator Lorimer's seat be vacated.

The brief covers two arguments: First, the doctrine of res adjudicata, which is that the case was settled by the vote in the senate of 46 to 40, March 1, 1911, exactly a year ago, and, second, that the evidence heard "is incredible, worthless and incompetent."

The bitter and sensational allegations in the brief come when Attorney Haney expresses his opinion of the evidence produced to prove Senator Lorimer's seat was obtained by fraud and corruption.

That Senator Lorimer and his counsel do not intend to rest with the decision of the committee is indicated by the comments on the doctrine of res adjudicata.

President Honors W. D. Howells.

Washington, March 2.—President Taft is in New York city today. He will attend the dinner which Colonel George Harvey is giving to W. D. Howells this evening, in honor of the latter's seventy-fifth birthday.

Farmer Killed in Fall.

Newark, O., March 2.—Charles Guichert, a wealthy farmer, fell from a sixty-foot ladder at his home near Granville and was instantly killed. The top of his head was crushed.

What We Never Forget

according to science, are the things associated with our early home life, such as Becklen's Arnica Salve, that mother or grandmother used to cure our burns, boils, scalds, sores, skin eruptions, cuts, sprains or bruises. Forty years of cures prove its merit. Unrivaled for piles, corns or cold-sores. Only 25 cents at L. Tanner's and Fred Wenzler's.

Old papers now on sale at the Republican office.

MASONIC COUNCIL MEET.

Twenty-eight Members From South Bend Visit Plymouth and Give Work After Banquet.

There was a big time Friday night at the Plymouth Council of the Masonic orders. A class of sixteen was initiated into the mysteries of the lodge by a team from South Bend. There were in all twenty-eight from South Bend, among them being Dr. N. S. Lindquist and Chas. McLaughlin.

The party arrived here on the Vandalia at 5:45 and went at once to Clifton's restaurant, where they banqueted. The work as given by the South Bend team was said to be very fine and was much appreciated by the Plymouth members of the Council. This is the next higher order than the Commandery. The South Bend visitors went back on the Lake Erie at 9:15.

BUSINESS LEASED.

Haslett Packing House At Rochester Goes to Joe Swindell & Bro. of Plymouth.

A short time ago the firm of Haslett Brothers, produce merchants, was dissolved by mutual agreement, Stewart being the retiring member and Foster continuing the business.

Foster Haslett called at the Republican office Monday night and gave particulars of a new deal which has just been closed, whereby Joe Swindell & Bro., Plymouth, have leased the Haslett packing house and business and take possession on the first of March.

Foster retained his passenger truck and reserved storage room for the same at the yard. He will engage in a general passenger transfer business as soon as the lake season opens as well as carrying parties to and fro between neighboring towns.

J. Swindell & Bro. have purchased a brand new Garford auto-truck for Rochester which will be shipped by freight direct to this city. It will be a monster. Forty-five horsepower, four cylinder, four speeds ahead and one reverse, front tires 4 1-2 inch cushion, rear tires 4 1-2 inch dual. This truck will be used exclusively for the conduct of their produce transportation. They will also have a smaller Reo truck for business about the city.—Rochester Republican.

NEW HOME

THE SEWING MACHINE OF QUALITY.

NOT SOLD UNDER ANY OTHER NAME.
