News Summary.

The report of the destruction of Government trains by the Mormons has been confirmed.

Two rows of folding iron chairs have been placed in each aisle of Mr. Beecher's church in Brooklyn. The average attendance at his church is three thousand.

An extensive fire occurred at Lockport, N. Y. last week. Loss \$150,000, principally mills, flour and grain.

Hon. Chas. Sumner has returned to his home in Massachusetts, and will resume his seat in Congress. He is much better but not entirely recovered.

A fire occurred in the building of the State bank of Missouri, on last Saturday a week ago. Not much damage was done. The desk of the specie paying teller was burned but as the bank has suspended specie payment, it was not considered a loss.

The Royal Mail Ship Niagara, arrived at New York last week. It reports heavy failures in England; an increase in the rate of discount by the Bank of England; cotton very dull and decline in bread-stuffs. Food is scarce and high at St. Paul, Minnesota, but corner lots are said to be very low.

A steam carriage for common roads has made its appearance in the streets of Pittsburgh. It turns corners readily—traverses eight uneven roads without difficulty and runs eight miles an hour with a pressure of sixty pounds.

WASHINGTON, Nov. 20.—According to the present intention, ex-President Lamar, of Texas, will be appointed Minister to Nicaragua.

Affairs in Utah occupy the attention of the administration, but no definite action has been taken in view of the latest advices from that territory.

Sir Wm. Ousley will, by appointment, have a formal interview with the President to-morrow.

The Mississippi river was full of ice on the 20th inst., and navigation, north of Dubuke was then closed.

Bayard Taylor was married on the 27th of October, at Gotha, Germany, to Miss Hansen. He will spend the winter at Moscow.

About nine hundred 'desperate' murders have been committed East, lately, for particulars subscribe for a cheap New York weekly.

A negro woman at Hamilton, Ohio, came to her death last week by a discharge from a gun barrel which she was using for a fire poker. The load had been in the gun for thirty years.

G. O. Mullenix, who was to have been hanged, at Greencastle, on Friday, for the murder of his wife, was granted a respite of thirty days by Governor Willard.

On the 21st inst. fires occurred in Ro-

chester N. Y., destroying \$100,000 worth of property, two men killed by falling walls—in Columbus, Ohio, burning Deshler's Block, including several large stores—in Louisville, destroying \$30,000 worth of property, and in Mobile, burning \$150,000 worth of goods and buildings.

At New Orleans, on last Friday morning, there was a 'white frost.' Ours was about six inches deep.

Charles R. Demming was arrested at Indianapolis last week for purloining letters containing money from the P. O. He was in the employ of the Sentinel office and had before, we believe, borne a good reputation. Post associations ruined him.

Gov. Walker left Kansas one week ago this morning for Washington.

Marcus J. Parrot, delegate to Congress from Kansas was in Cincinnati yesterday. He was a day-toutian formerly if we rightly remember. Mary Mulligan, formerly a servant in the employ of Dr. Burdell and Mrs. Cunningham, obtained a judgment last week in Cincinnati against a Mrs. Ruggles, a Fourth st. dress-maker, of \$400 for slander. Mrs. R. will learn to 'hold her tongue.'

The Great Eastern.

The launch of the mammoth steamship heretofore known as the Great Eastern, but now formally christened "Leviathan," commenced at noon on the third inst. The usual means were used to move the vessel, but for some time without avail.—After about three hours labor, the ship had moved about six feet by the stern and a little over four feet by the bow, when one of the powerful purchase chains broke, and the work had to be temporarily suspended. Operations were to be resumed as soon as the accident could be rectified; and London papers of the afternoon of the 3d, say it was confidently hoped that the ship would be afloat at highwater on Wednesday the 4th.

During the operations, a sudden strain on one of the drums caused it to revolve with great velocity, throwing several of the men into the air like straws, and knocking down others with great violence. Four men had their arms and legs broke, and one died as he was being conveyed to the hospital. Immense numbers of people, including many distinguished men, assembled on shore and on the river to witness the launch.

LATEST.—The Times of Wednesday says that a postponement of further efforts to the 2d of December had been resolved upon, and that in the meantime the ship will stand in great danger of settling, owing to immense pressure (12,000 tons) upon the new-made earth.

Washington in a tight place.

When Colonel Lee, of New York, was collecting subscriptions for the equestrian bronze statue of Washington, now standing a monument of patriotism and art at the corner of Union Park, he had occasion to visit an old curmudgeon in the neighborhood, and pulling out his subscription paper, requested him to add his name to the list. But old Lucere declined, respectfully.

"I do not see," he said, "what benefit this statue will be to me, and five hundred dollars is a great deal of money to pay for the gratification of other people.

"Benefit?" replied the Colonel; "why, sir, it will benefit you more than anybody else.—The statue can be seen from every window of your house; it will be an ornament, and add dignity to the whole neighborhood and it will perpetually remind you of the Father of his country—the immortal Washington!" "Ah, Colonel," answered old Lucere, "I do not require a statue to remind me of him, for I always carry Washington here," and he placed his hand upon his heart. "Then let me tell you, replied Colonel Lee, "if that's so, all I have to say is that you have got Washington in a tight place!"

A young lady asked a gentleman the meaning of the word surrogate. "It is," replied he, "a gate through which parties have to pass on their way to get married." "Then, I suppose," replied she, "that it is a corruption of SORROW-GATE?" "You are right Miss," replied her informant, "as woman is an abbreviation of woe to man."

A lawyer to avenge himself upon an opponent, wrote the word "Rascal" in his hat. The owner of the hat took it up, looked ruefully into it, and turning to the Judge exclaimed, "I claim the protection of the honorable court. The opening counsel has written his name in my hat, and I have a strong suspicion that he intends to make way with it."

MISTAKEN AS TO THE CAUSE.—The New York Tribune insists that the cause of our commercial disasters at the present time is to be found in the fact that we have no "protective tariff," and is again advocating with renewed zeal that fallacious and long ago exploded political heresy. It points to Russia as a country where industry is prosperous, and where monetary revolutions, and panic are scarcely, if ever felt. This state of things it attributes to the protective tariff, which has always existed in that nation. It forgets that Russia has a hard money currency; that all business transactions are based upon an actual and substantial foundation, instead of a false inflated paper credit system, which it clings to and sustains in the United States.

It is to that fact, and not to her protective tariff, which is really a hindrance to her prosperity, that Russia enjoys her exemption from these disastrous monetary revolutions. The latter are the necessary incidents of the issue of bank paper money, and will occur at periodical intervals just as long as it is tolerated.—*Cin. Enq.*

THE WEATHER.—When you wish to know what the weather is to be, go out and select the smallest cloud you can see, keep your eye upon it, and if it decreases and disappears it shows a state of the air which will be sure to be followed by fair weather; but if it increases in size, you may as well take your great coat with you, if you are going from home, for falling weather will not be far off. The reason is this: When the air is becoming charged with electricity, you will see every cloud attracting all less ones towards it till it gathers into a shower. And on the contrary, when the fluid is passing off or diffusing itself, even a large cloud will be seen breaking to pieces and dissolving.

TAXPAYERS of Marshall county will take notice that I will receive nothing in payment for tax, but Gold and Silver, the currency of the Bank of the State of Indiana, at the State Bank of Indiana, the State Bank of Ohio and its branches, the Free Banks of Indiana, now at par, and the par funds of Kentucky and Virginia banks; and County orders, to the amount of county tax.

TEN PER CENT PENALTY will be added on and after the first Monday of March, 1858, on all taxes not paid before that time.
