Some person desiring to create a panic in this office, deposited a plump, well rounded pocketbook at the door during the small hours of Tuesday night. It was empty of course. The best way to cure poverty, is to sit down and growl about it. This will be sure to make one rich, and then the habit of growling about everything is so agreeable to everybody. Parties desiring to have wedding or ball invitations printed, should not fail to call at this office. The latest line of stock with the latest faces of type, will give you a large field to choose from. The wound is serious and painful but no bones are injured. Dr. Holtzendorff was called and dressed the wound. The members of the amateur opera company who will produce "Mikado" in this city during the coming holidays are working hard and conscientiously to perfect themselves in the various roles and will no doubt give a most creditable performance. Mr. George A. Kleinschmidt, the tailor, wishes to give notice to the public and his many friends, that on November 27 '94, he will move his shop to the rooms now occupied by the Democratic club over the Miller restaurant, where he will be pleased to meet all. Warren Collin's coat which was stolen from him by two tramps, was returned over the Vandalia line on Wednesday. It was recovered at Maxenkuckee Lake but the thieves escaped. Sheriff Smith and Marshall Meyers are after them and their arrest is only a matter of time. The ladies of the Methodist church will give one of those famous Thanksgiving dinners in the lecture room of that church Thanksgiving Day. The price charged to entitle ye mortals to participate, will be twenty-five cents. Of course everyone is cordially invited. We haven't got the necessary nerve to ask some of our former friends to leave at this office, well, about the day before Thanksgiving, a nice, plump, fat turkey. But if such a thing should happen, we would be perfectly willing to enter that amount of credit opposite his name. J. A. Molter has opened an office over Miller's restaurant, where he will be found in the future. He is handling insurance, building and loan stock in connection with real estate. Mr. Molter is a young man, but has plenty of push and energy, and there is no doubt that he will succeed. One thing that would add greatly to the railroad facilities of Plymouth, would be the establishment of a union depot. This could easily be arranged as all the tracks cross at one place, and a depot common to the three railroads running in here would be a boon to the travelling public. "Mikado" costumes have been engaged from one of the leading costumers of Chicago and neither pains nor expense will be spared to make this a production of more than ordinary merit. Special scenery is being constructed for "Mikado" which will add greatly to the merit of the performance. The members of the Epworth League will give an Orange social in the lecture room of the M. E. church this evening. A good time may be expected, as these entertainments are prepared not only for a financial benefit, but for such social intercourses that are truly appreciated by those who attend them. Warren Collins, of this city, was relieved of a waterproof coat while riding on a freight train coming from South Bend on Tuesday evening. Two tramps took a fancy to the coat, and by a little persuasion induced Collins, not only to

hand over his coat, but also to leave the train suddenly while it was going at a high rate of speed. A revolver of heavy caliber was the persuasive power. It is claimed that the men are known and it is probable that they may be traced and arrested. Andy Amann America's, greatest and funniest German comedian, supported by that vivacious little vocalist, Josie Le Coi, and the most expensive company of artists ever put into one cast, in the successful comedy, "A Clean Sweep," will be at the Centennial opera house one night only, Saturday evening, November 24. Are you aware that the INDEPENDENT has a first-class job department in connection with its office. We are prepared to do all kinds of printing on short notice, such as: Letter heads, note heads, statements, bill heads, envelopes, circulars, legal blanks, business cards, visiting cards, and in fact everything needed that can be produced at a printing office. We solicit a trial. Gideon Wilhelm, aged about six years, died of membranous croup on Wednesday evening. The death is particularly sad one, from the fact that the mother, Mrs. Hi Wilhelm, left home one day last week for South Bend. Early this week young Gideon was taken sick, the neighbors and friends rendering all the aid possible for the little sufferer. In response to a telegram the mother returned Wednesday and was at the bedside at the death of her little boy. A school boy defines the latest fad as follows: "The bloomers dress is a pair of trousers, very baggy at the knees, abnormally full about the pistol pockets, and considerably loose where you strike a match. The garment is cut decollete at the south end, and the bottoms are tied around the ankles or the knees to keep the mice out. You can't put it on over your head as you do your corset, but you sit on the floor and pull it on just as you do your stockings one foot in each compartment. You can easily tell which is the right side to have in front by the button on the neck-band." Every day a number of tramps drift into Plymouth and enjoy the luxurious sleeping accommodations of the city calaboose. It is due to the efforts of Marshalls Meyers and Mead that these gentlemen of indolent leisure are induced to continue their weary wanderings after only partaking of Plymouth hospitality for a few hours. Unless this class of citizens is watched closely by the police everywhere, and more especially the smaller cities, they quickly become a nuisance. The way to treat them is, to give them some place to sleep at night and then send them on their way. The next lecture under the auspices of the Plymouth Centre, of the Chicago University Extension, will be given in the K. of P. hall, Tuesday evening at 7:30 o'clock. The subject will be French History and will be delivered by Prof. Howard Grose, of Chicago. The idea of obtaining the K. of P. Hall is a good one, as it will afford greater facility for the accommodation of those who are interested in this course of popular lectures. These lectures will be given on every Tuesday evening and are worthy of extensive patronage. On Tuesday evening, Dec. 4, stereopticon illustrations composed of scenes in France and Russia will be given. Mrs. T. A. Borton, the wife of Dr. Borton is laying dangerously ill with Brights disease of the kidneys, but at the time of going to press was reported as somewhat more comfortable. Her daughter Miss Grace Borton is at her bedside and another daughter, Mrs. Mabel Beebe, of Wilmette, Ill., was expected last evening. The third daughter, Mrs. C. W. Boyd, of Salt Lake City, Utah, has been telegraphed for and is in all probability on her way here now. Every care that the most advanced medical attention can desire is being rendered the sick lady, and it is hoped that she may recover but the case is a very serious one. It has been said by some one who has been given credit as a man of great ability and able to think more than two things at a time, that some business men will not advertise in a paper because some other merchant has placed an ad in the columns of the paper previous. It is hard to imagine what impulse would drive with a merchant, causing him to take such a view in regard to a legitimate business transaction. We have been informed frequently and it is a truthful saying "That competition is the life of trade." This being a fact, with your well displayed advertisement or locals in a paper that is read will bring you in your share of patronage, despite the appearance of another merchant's announcement in the same issue. But if opposing a business man's judicious ad, would draw from the man who is described above, what effect does it have upon the merchant that does not place his name before the community in the newspaper? There will be a turkey shoot, given by Wm. E. Hand, Jr., on the farm of Henry M. Hand, five miles south of Plymouth on Monday Nov. 23. A number of local nimrods have signified their intention of being present and good sport is anticipated. Both shotgun and rifle experts will be given an opportunity to win a good turkey. The bills distributed by Mr. Hand speak of this as an "old fashioned shooting match." This is rather vague, and doubtless

many sportsmen would like to know what traps would be used and under what rules the match would be held before going out there to shoot for turkey. We always believed that an "old fashioned shooting match" for turkeys meant putting a turkey in a crate or box with just its head and neck exposed to view and plugging heavy bullets from a lengthy flint lock rifle at the inoffensive "gobbler." But we believe that Mr. Hand's shooting match will be conducted on more modern lines than these. At any rate, a good time is anticipated for all who attend on Monday. Demoralizing Literature. The extensive issue of what is absolutely cheap and nasty reading for the youth of America, is one of the great demoralizing agencies of this day. All of this kind of books and papers may not be absolutely improper, but they are demoralizing and worse than worthless. They, as a rule, abound in accounts of rascals, vagabonds and trifling immoral adventures. The heroes are sharpers, tramps and villains and all true and manly spirit of modesty, fidelity, purity, economy, temperance, industry and generous manhood in the majority of works of cheap fiction, are ridiculed. Their principal scenes are those of disreputable resorts. They are low, unclean and unmanly, and the generation of boys who read and imbibe their spirit, will only grow up to be men of ill repute. In this age many parents consider themselves so busy that they do not exercise the proper care of the literature their boys are studying, until it is often too late to remedy the evil. This kind of reading to a boy, is a poisoned fountain which destroys virtue and honesty, and is sapping the morality of the rising generation and is a matter which should arouse more attention than it does. Cabs. A new kind of cab, propelled mechanically, has been tried in Berlin. It resembles a large bath-chair with two seats, and is driven by a petroleum naphtha motor. It has three wheels and carries two persons, one of whom controls the machine. The motor develops nearly two-horse power, and gives a speed of eleven miles an hour. Germans the Best Educated. Germany now is the best educated nation of the continent, yet only 100 years ago German teachers in many parts of the country were so poorly paid that they used to sing in front of the houses in order to add to their income by odd pence. Wanted. One hundred bushels of apples, will pay market price. Northern Spies preferred. BENNETT & JACOX. Wanted. Representative in every township to solicit subscriptions for the Marshall County INDEPENDENT. Liberal commission paid. Write or call at this office for particulars. Cash. We want to buy for CASH, White and Burr Oak BOLTS. Also Water Elm Butts, random length, not less than four inches at small end nor over eight inches in diameter. Delivered at our factory. Having recovered sufficiently in health, I am now prepared to give my business full attention. I would be pleased to see all of my friends and customers at my new quarters over the restaurant in the rooms formerly occupied by the Democratic club on end after the 27th of November. Respt. yours, GEO. A. KLEINSCHMIDT. Job Work. We would modestly inform the business men of Plymouth, that our facilities for job work, are of the best. In purchasing material for our job department, we took special care to secure the latest faces in the job line. We have one of the best workmen that could be secured in Chicago, and we mean just what we say, when we GUARANTEE our work to give entire satisfaction. All we desire is an opportunity prove our to assertions to be correct. JOHN S. BENDER, Attorney at Law, PLYMOUTH, IND. Office over Shoemaker's Restaurant. Will promptly attend to all business entrusted to him in the line of his profession.
