"What does he say?" inquired Rochefort, looking the least bit annoyed. The reporter translated the words, and furnished the information that he was probably a granger.

REVENUE.

ROCHEFORT. "When I get to London I shall be able quickly to visit France, it circumstantially requires no further explanation."

"Do you think the commune will play any future part in the French politics?" "I can hardly say. We are strong in London. I know many of my compatriots...

"Where is your destination, monsieur?" "I go to Geneva, Switzerland. It is there that I shall be free. My plans are very simple. I go to New York, and remain there only four days at most...

"Will you go to Belgium?" "No, certainly not. You lived there once?" "Yes; but that was when Belgium was under a different regime. Then Belgium was ruled by liberals, and I was safe."

"How did you like San Francisco?" asked the reporter of Rochefort. "Very much; but I only spent one day there. I don't speak English at all, and it is no good my stopping anywhere unless I can have French society."

"No, but I attended service in the great synagogue. It was a most peculiar sight. The ceremonies were very extraordinary. They are a queer people, those Latter-Day Saints."

"The public are anxious to know the correct particulars about your marvelous escape, monsieur. Are you at liberty to give them?"

"The Chicago Times should have them, willingly if I felt at liberty to make them public. I would gladly publish them to the world, but the brave men who assisted me would, if their names ever were disclosed, become objects of the bitter persecution of MacMahon and his tools."

"The district can not possibly go republican under circumstances most favorable to that party. The candidate whose chance for nomination is next to that of Mr. Hamilton, is Walpole G. Colerick, also a young man. As a lawyer, he has an excellent reputation and is descended from a good stock."

"The aggregate of the insurance will hardly cover a third of the loss. Among prominent insurance agents in Denver, their risks may be summed up: Messrs. Winne & Cooper think out of \$40,000 in risks, about \$25,000 will have to be paid by the following companies: Hoffman, of New York, St. Paul, of St. Paul, Girard, of Philadelphia, American Central, of St. Louis, London Assurance, Home, of Columbus, O., and Pennsylvania, of Philadelphia. Messrs. Wanless & Patterson have total risks in Central amounting to \$43,000. They expect their losses to reach nearly \$100,000. This will be borne by the Home of New York; Imperial, of London; Manhattan, of New York; and Fireman's Fund, of San Francisco. Crater & Cobb calculate their loss will reach \$21,000, which will be distributed among the German America, of New York; St. Joseph Fire and Marine, of St. Joe; Insurance Company of North America, of Philadelphia; Continental, of New York; Phoenix, of Brooklyn; and Underwriters' Agency, of New York. Some other agents have comparatively small risks. Measures have been adopted for the immediate adjustment of all claims for indemnity."

INDIANA POLITICS.

THE POLITICAL CAULDRON.

CANDIDATES FOR CONGRESS. WHO STANDS UP FOR CONGRESS IN THE TWELFTH DISTRICT? HOW THE MOST PROMINENT CANDIDATES FOR THE CHANCES ARE DIVIDED AMONG THE ASPIRANTS.

From an Occasional Correspondent of the Sentinel. FORT WAYNE, IND., May 23, 1874.—We are in the midst of the excitement of an opening campaign. Candidates are stationed at every street corner, waiting to gobble up the runaway mechanic or business man as he goes to or from his work.

There are in the city four possible candidates for congress for the twelfth Indiana district, not counting Shanks, who will probably be the republican candidate for re-election. Of these four democratic candidates, the one most in favor so far as I can learn is Mr. Andrew Hamilton.

He is a nephew of our distinguished congressman, Judge S. H. Holman of the third district. Mr. Hamilton received a common school education, after which he graduated at the college at Crawfordsville. He then went to Germany, where he spent several years in study and travel.

He is eminently scholarly, and he is one of the most magnificent private libraries in the state, if not the very finest. Many of his books are very rare, and were obtained at great cost in the course of his travels in Europe.

A FIRE AT CENTRAL CITY.

HOW IT STARTED, TRAVELED, AND WHAT IT DID—ONE HUNDRED AND TWENTY-FIVE BUILDINGS DESTROYED—THE RISKS OF INSURANCE COMPANIES.

The Central City, Colorado, Register of May 23d, gives the following account of a very destructive fire in that city: The fire originated about 10:30 A. M., or perhaps a few minutes later, in a Chinese wash-house or laundry, on Spring street.

The fire broke through and communicated with adjoining sheds and out-houses. From the best information obtainable, it appears tolerably certain that the Asiatics were engaged with their women in some kind of heathen worship, or celebration of rites only known to themselves, in which an iron or tin vessel, filled with burning coals or combustibles, figured prominently.
