

NEW GOODS.

Our stock of Dry Goods, Millinery and Notions for spring and summer is now very full and complete. The purchases were made by Mr. Ayres in person, who remains in New York the entire season and buys only when the goods are the right kind and quality, and the prices are the very lowest that cash can obtain. To farmers and mechanics we can offer the best goods in the market at prices as low as any house in the west. Come and see for yourself.

L. S. AYRES & CO., Trade Palace, Indianapolis.

CENTAUR LINIMENTS. Allay pains, subdue swellings, heal burns, and will cure rheumatism, sprain, and any flesh, bone or muscle ailment. The White Wrapper is for family use, the Blue Wrapper for animals. Price 50 cents; large bottles, \$1.

Children cry for Castoria. Pleasant to take—a perfect substitute for Castor Oil, but more efficacious in regulating the stomach and bowels.

FINANCE AND BUSINESS.

GENERAL MARKET REVIEW.

The Bulletin, under date of last Friday, says: In the markets for securities there were large transactions in registered 10-40's, the business to-day and yesterday amounting to close on to \$1,500,000, and all of it was done at private offices, and at about 110, the closing quotations having been \$106 1/2.

These large purchases, and the fact that they were all traceable to one house gave rise to a report that the State of New York, having failed, by reason of a technicality, to get the \$3,000,000 new 5 per cent. bonds recently bid, was investing in 10-40's, which can be had at about par in gold. A good part of these bonds sold was for the account of banks relinquishing their circulation under the new banking law, otherwise the supply of bonds would have been inadequate for such an exceptional demand.

The Inter-Ocean is trying pretty hard to make up a strong case of logic for better times. When facts take the place of argument its views will be exceedingly welcome to the public. It says in the issue of yesterday: There have been some indications during the past week or ten days of a revival of activity in the money markets generally.

The bank of England has recently raised its rate of discount, and of course the London markets outside of the bank advance accordingly. There has been a faint ripple of activity in the New York market and a hardening of rates of interest in New York movement has not as yet reached this market, but the approach of time when our banks will be called on for large amounts of currency to pay for wheat is being anticipated by the banks in their declining to loan at the present low rates of seven per cent. on call loans for over thirty days. But while the demand for currency will probably cause a decrease of deposits in the banks, both here and in New York, within the next two weeks, it will not necessarily make a tight money market at any time this fall.

There is a general feeling in New York in accordance with what we learn there is a growing disposition among capitalists there to buy railroad bonds and other good securities. We learn to-day of a positive offer of eighty cents on the dollar being made in New York for \$1,000,000 of the bonds of a new short line of railroad which is now in operation from a point on the Missouri river. The same bonds were offered in vain in New York at less a price a few months ago. This is another instance, in addition to the several mentioned in this column, of the general feeling in New York, week to week, to show that capitalists are recovering confidence in Western railway bonds.

The Journal of Commerce remarks: It has been stated in several newspapers that the secretary of the treasury doubted his ability to place the 4 1/2 per cent. bonds, and that he would, in a recent report, ask Congress to raise the interest on the hundred million of them to 5 per cent. This is thoroughly an error. He has the utmost confidence in the ability of the syndicate to dispose of the five within the time they promise, and of his ability then to make a successful negotiation of the 4 1/2 per cent. In any event he intends to try, and has no idea of asking for an increase of interest rates.

THE IRON MARKET.

The Railway Review is watching the iron trade pretty well, and finds that the quotations this week are without change. If the tide is turning, as is confidently asserted by some, it is just now at the turning point where it stands perfectly still, but is sure to go up rather than down. In the Eastern markets a firmer feeling is reported. Pig iron is moving more rapidly from the Lehigh valley. Bar iron is in considerable inquiry, but sales are not large, those of the rise in price to 3 cents at Philadelphia. The manufacturers are bound to maintain this and carry it up to 3-10 if possible, which they claim will afford as low a profit as they can stand.

Notwithstanding the greater firmness reported everywhere, there is to be no speculative purchases as yet. The strike of the Lake Superior miners did not affect the market. It has now terminated quietly. The receipts of iron in this city by all routes during the week ending August 1, were 2,516 tons manufactured iron, 40 tons iron ore, and 1,200 tons pig iron. The shipments were 2,211 tons manufactured iron and 290 tons pig. A detailed statement is given below.

The receipts of iron Mountain ore at St. Louis for July were 12,200 tons. For the seven months ending July 31 the receipts were 72,093 tons.

The British iron market is showing a wonderful improvement. Prices are going up and business is increasing. Makers' prices, July 29, were:
