

HOME AND FARM.

Twelve acres of ex-Postmaster General Creswell's Maryland farm produced \$2,500 worth of peaches this year.

In feeding pumpkins to milk cows, remove the seeds. It is admitted that the seeds reduce the flow of milk.

The latest returns place the Cape Cod cranberry crop at 70,000 bushels, twice as much as the yield in the other parts of the State and Rhode Island.

There is a scarcity of hogs in the country which will make them valuable for some months. But it is astonishing in what short time this condition can be changed.

It is common to laugh at the Yankee farmer who digs among the rocks, but Abraham Melvin, of Weare, N. H., who has been in the business of wool-growing and raising sheep of the best blood for the market, the past fifty-six years, and has accumulated \$100,000, is about to sell his 2,000 acres of land and his 2,000 sheep, and retire from business.

It is good policy for farmers to hold so much unproductive land? Certainly it can not be on any other ground than that the value of the land is increasing enough to cover taxes and interest.

To CURE BEEF FOR DRYING.—To four gallons of water add one pound of brown sugar, one pint of molasses, two ounces of saltpetre and fine salt until it will float an egg.

To KEEP SWEET POTATOES.—A correspondent of the Cincinnati Gazette says: "Procure dry forest leaves; place in a barrel or box a layer of leaves, then a layer of potatoes, and so on."

Gen. Meredith's fine six year old cow, Ruberta, which has been trimmed all over with red ribbons at the fairs during the season, dropped a calf on the 16th, which \$1,000 would not buy.

WINTERING PLANTS.—More house plants are injured by too high a temperature and too dry an atmosphere than by cold.

DAWNBROOD CELLARS.—The Rural New Yorker has a contributor who says: "How frequently have I known farmers to put all kinds of vegetables into one cellar and that one under the dwelling house."

How to MAKE APPLE-BITTER.—When apples are ripe, make up three barrels of cider. Then pare and core four bushels of apples.

PLANTING TREES.—A. S. Fuller counsels some equities in the New York Tribune about starting an orchard.

The preservation of length of the tap-root upon trees has much influence upon the growth, health or longevity, than the length of a dog's tail has upon his affection for his master.

SALT FOR BUTTER.—The New York Bulletin says: Prominence has lately been given to the question of what is the proper salt to use in the manufacture of butter, and so important has the matter become that a short time ago a committee was appointed by the Butter and Cheese Exchange to make an investigation and report.

ABOUT CANARY BIRDS.—A clever writer for the Inter-Ocean says: Canaries are like flowers, they do not thrive unless their keepers love them.

PAGES CLIMAX SALVE.—Is a compound of Aconite with many other extracts and balsams. We warrant it to cure Scrofula and Salt Rheum, Fever Sores, Piles, Freckles, Chills, Chills, Coras, inflammation of the Eyes, Broken Breasts, Sore Nipples, Cuts, Bruises, Burns, Scalds, Colic, Rheum, Liver Sores, etc.

TO ALL WHOM IT MAY CONCERN.—Notice is hereby given that George Besodier, of the county of Marion, and State of Indiana, has under and in accordance with the provisions of an act of the General Assembly of the State of Indiana, passed March 1, 1869, made by indenture, duly signed, acknowledged, delivered and recorded in said county, a general assignment of all his property, real and personal, to me, the undersigned, in trust for the benefit of all his bona fide creditors, and that he has, as required by said act, duly filed with the clerk of the Civil Circuit Court in and for said county a true copy of said indenture, and that he has, as required by said act, duly made and filed with said clerk the oath and the undertaking required by said act, and that he has, as required by said act, duly made and filed with said clerk the oath and the undertaking required by said act, and that he has, as required by said act, duly made and filed with said clerk the oath and the undertaking required by said act.

THE MINISTER'S WORK.—Thus, though the ministers of Christ are called to a field of thought peculiar indeed, a field whose work is not to be done in the ordinary way, it is a field in which the statesman or scientific mind repairs, and secures a definite answer to a definite inquiry, yet the stewards of God's mysteries are setting forth constantly on a basis of fact, and though the clergyman may contain an unbroken wine, yet they who drink it carry over afterward a sweeter life, and soul and hope.

THE BISHOP OF LINCOLN, ENGLAND, THINKS the cure of souls and the training of race-horses inconsistent occupations, and he has accordingly addressed the members of the House of Bishops, the owner of Apology, the winner of the St. Leger. Mr. King owns two valuable horses in the diocese of Lincoln, and Bishop Wordsworth calls upon him to give up his pastoral charge for his race horse.

THE HUGS, DRASIE, GRIPING, STOKENING PILLS, constructed of crude, coarse and bulky ingredients, are fast being superseded by Dr. Pierce's Pleasant Purgative Pills, or Sugar Coat, Concentrated Root and Herbal Juice, Anti-Bilious Granules—the "Little Giant" Cathartic or Maltiva in Parvo Physic. Modern chemical science enables Dr. Pierce to extract from the juices of the most valuable roots and herbs their active medicinal principles, which, when reduced to little Pellets or Granules, scarcely larger than mustard seed, renders each little Pellet active and powerful as a large pill, while they are much more palatable and pleasant in effect.

Dr. Ira A. Thayer, of Beaconsburg, O., writes: "I regard your pellets as the best remedy for the conditions for which you prescribe them of anything I ever used, so mild and certain in effect, and leaving the bowels in an excellent condition. It seems to me they must take the place of all other cathartic pills and medicines."

PAUSE and consider whether it is better for your present trouble and future health to use the Balsam Capillaire, which drives a cure full-tail, having a horrid taste and still more disgusting smell. The grand and important remedy is the Samaritan Gift. It is a certainty of cure in the short time of two to four days, besides being pleasant to take, having no smell or unpalatable taste, and can be used without the knowledge of the most intimate acquaintance. The Gift is the only known remedy that cures the hair, and can be used without the knowledge of the most intimate acquaintance.

BENHAM'S

Musical Review.

A 32 page Monthly Magazine. Circulation, 120,000 copies annually. Each number contains \$1.50 worth of music.

The Review is devoted to Music, Art, Literature, and its readers. It is second to none in popularity. It is second to none in circulation. It circulates almost entirely in families. It accepts but a few first-class advertisements, and displays them with a permanent advertisement.

Its advertising rates are lower than those of any other musical journal. It is not a class journal, issued solely for the purpose of advertising the interests of its publisher. Its editorial columns are never filled with advertisements or business puffs, either of its publisher or any body else, and no amount of money or influence is expended in procuring such a single word of advertising into that portion of the magazine.

ONLY \$1 PER YEAR. SAMPLE COPY 10c.
