## ACARD

Trade Palace, Oct. 7. To the Country Readers:

Millinery ever brought to this city. of the annual settling period. The grain man By giving our individual attention ket has been devoid of excitement. Orders have to buying in New York, we have come but slowly and generally with limitation secured a line of Silks. Black a cent or two inside the views of nolders. T Goods Dress Goods, Dometics, Woolens Flannels, Shawls, Table Linens, Blankets, Comforts, Notions and Millinery, at such rates and on such terms as enables us

LOCAL FINANCES.

The money market here is in an unusually satisfactory condition. The large disquences, tocks are well reduced, and in place thereof there are handsome balances to their credit in bank. The banks are well supplied with loanable funds, and are giving their customers any reasonable accommodations that may be required. There is but little inquiry recently for long loans, and a much larger demand in that direction could now be accommodated. But while money is abundant, the greatest care is exercised in the granting of favors. The best commercial paper, or that which is backed by good collaterals, is used at ten per cent, for regular customers, used at ten per cent. for regular customers, and for outside parties at one per cent, a month. Bankers look upon the business

FREIGHT FACILITIES AT PHILADELPHIA.

for Philadelphis; and people may be led to think that the Quaker City, or City of Brotherly Love — and the largest manufacturing city in this country, and we think the largest in the world, Manchester not excepted—is drying up. But not so; her cicizens are wide awake. They have quietly built and own a strictly first-class line of iron steamships—the only line plying between this country and Europe carrying the United States flag. These vessels have all the modern improvements for pashave all the modern improvements for passengers and freight, making good time from grain and produce, and the selling prices for Liverpool to Philadelphia and from Phila-flour and other merchandise.] delphia to Liverpool, forming a weekly line, and through the diligence of their officers and agents at Philadelphia, Chicago, and elsewhere, they are being filled with freight and passengers in both directions. This, the American line, has a large and growing business with Chicago. Some of the beaviest importers of goods in this market are importing exclu- \$1 03@1 05; amber \$1 07@1 16; white, \$1 10@1 15. sively by this line. Philadelphia also owns and controls an Antwerp line of new iron steamships, built for them on the Tyne. This is the line of the International Navigation Company of Philadelphia, and is called the Red Star Line, and like the American BARLEY-\$\ilde{1}\$ 20\text{G1}\$ 25. the Red Star Line, and, like the American line, is running full cargoes fortnightly, gathered up from the Pennsylvania railroad and its feeders. The export and import tions below will be found to be nearly the same trade are increasing as rapidly at Philadelphia, if not more rapidly, than at any other of the Eastern seaboard cities. Philadelphia Brazil nuts, 12@14c, peanuts, raw, 8@12c; roasted, West Philadelphia terminus of the Pennsylvania railroad. This elevator has a system of 600 bins, and can keep 600 car-loads of grain as if in so many cars, and can be easily and speed. The advantage to be derived. has three elevators for grain, the first at the 1114312% ily handled. The advantage to be derived from this is, that the Western shipper can have the very identical grain he ships sold upon its merits. Then they have a second elevator built or iron and brick, atnated at the Washington dock. This has a capacity of a quarter of a million bushels of grain, and is used for storage and transfer into steam and sail ships, and is kept constantly employed in this service. Next in order is elayator threeas we will call it-having been but recently completed. It is, without doubt, the finest elevator ever built on this continent. It is located at Girard Point, the junction of the Schuylkill and Delaware rivers, and is thoroughly fire proof. The bins are of wrought-iron, the walls of brick and stone, the root of iron and slate. Six railway tracks pass through the building, and 24 cars can be unloaded at one and the same time. This elevator has a storage capacity of 800,000 bushels, and a transfer capacity of 1,000 cars in 24 hours. This great elevator has a covered track of dock on each side. The last features of great interest to Western sbippers, when it is understood all freights to Europe go by this means directly to the ship's side. Flour, provisions and other products are loaded in through cars at Chicago and points west, and go directly from the car to the steamship, not being from under cover between point of shipment and Europe. No greater perfection can ever be reached, and no cheaper and

## A CITIZEN. REVIEW OF THE HOME MARKETS.

steam or sail-ships at one and the same time.

more expeditious means of handling or

transferring freight be devised than the one now used by the Pennsylvania Railroad at

Philadelphia. The Girard Point elevator and

dock have 30 feet of water on each side and

at the east end, and have ample capacity to receive and discharge treight—ten or more PINE-

MONDAY EVENING, Jan. 11. There was a somewhat better feeling in the corn market today than at the close of the week although sales were made without quotable advance apon the prices then ruling. Holders are firm and confident of realizing better prices before the close of the present week. There was no wheat disposed of and but little doing in oats. Bran is in good demand and at improving prices. The provision market was quiet. The receipts of hogs continue large and there is an unsettled feeling in the market for product. In the grocery market coffees are reported by private dispatches this morning as easier in New York and offerings were made at %c. less than York and ollerings were made at %c. less than last week. An improved demand would probably be followed by a recovery. Refined sugars are steady and rather firm. There is no change to note in dry goods, but dealers are anticipating fluctuations in some lines of goods during the week. The sales were: 2 cars clear rib sides, 5 days in salt. \$\frac{1}{2} \frac{1}{2} \text{ literary mixed.} \frac{1}{2} \text{ core.} \frac{1}{2} \text{ cars.} \frac{1} \text{ cars.} \frac{1}{2} \text{ cars.} \frac{1}{2} \text{ car days in salt, % ; 10 cars mixed corn. WEEKLY REVIEW. We respectfully ask your immediate attention to the best selected of the past week has not been entirely clear stock of Dry Goods, Notions and the holiday influence, and of the coincident of stock of corn in store is accumulating steadily about 10,600 bushels having been added during the week. On Wednesday and Thursday ther was a perceptible weakness in the market an some sales were made at 1 cent decline from provious quotations. There was, however, to much confidence that the decline would be soon to several to permit of anything approaching. and on such terms as enables us to offer the lowest prices known since 1862. Our prices are alike to all, and Grangers as well as others will find at no other house more attractive goods or lower prices.

L. S. AYRES & CO., TRADE PALACE.

FINANCE AND BUSINESS.

GENERAL MARKET REVIEW.

GENERAL MARKET REVIEW.

GENERAL MARKET REVIEW.

GENERAL MARKET REVIEW.

Much confidence that the decline would be soo recovered to permit of anything approaching free movement. On Saturday the advices wer of a more encouraging tenor to holders, but the severe cold—with the thermometer marking be low zero all day—effectually suspended busines that there were no transactions. Nearly 50, we bushels of oats were sold during the week a very satisfactory prices to the party who have been holding them sometime. There was no general movement of that grain, however, almost all of it being controlled by a single firm in wheat there has been but little doing; there has been no shipping demand and militers find so much d fficulty in disposing of product that they are not buying so freely as usual. There is but little doing in seeds and that in a very small way and prices are without quotable change. Way and prices are without quotable chang Hay is in abundant supply—fully equal the demand—and setlers are willing to mail

THE PROVISION MARKET bursements of the past two months for hogs has been very dull and transactions have been and corn, of which Indianapolis has produced an abundance this season, are finding their way back to the banks through the various channels of trade. Collections have been steadily improving for the past two been steadily improved the past two been steadily improved the past two bee and corn, of which Indianapolis has pro- limited in volume. The heavy receipts of hogs been steadily improving for the past two here have superior storage facility and their armonths, and since Christmas considerable rangements contemplate the holding of the best amount of old indebtedness have been settled with the merchants here. The full purchasts were made prudently, and, in consequences, tocks are well reduced, and in place

ST. LOUIS, Jan. 11 .- Cotton-The market is un-Saturday at 33.

Railroad bonds were quiet and firme, except Toledo & Wabash, St. Louis division, which declined I per cent.

Stocks opened strong, and advanced 1/3/4 per cent. generally, but Pacific Mail and Atlantic & Pacific telegraph were marked exceptions, the former advancing 1/4 per cent. and the latter 4 per cent. At the second call prices showed a decline of 1/4/2 per cent. At the second call prices showed a decline of 1/4/2 per cent. At the second call prices showed a decline of 1/4/2 per cent. Iake Shore, Western Union, St. Paul, Pacific Mail and Atlantic & Pacific telegraph leading the downward movement. There were sales of Western Union as low as 75%, seller 3/2 days. The weakness in this stock resulted partly from a b II being introduced in the House for the construction of a government telegraph line between Washington and Boston. Pacific Mail fell off on the account of trouble in the directory, Messrs. Alexandre, Taleott and Gulon having tendered their resgnations. Lake Shore weakened on the report that the directors would be enjoined from paying the dividend. During the last hour of business seeks were unsated of shoulders and clear rib sides at 7/4/2 lend; total respect that the directors would be enjoined from paying the dividend. During the last hour of businesses stocks were unsateled, heavyand lower. shanged; sales were made of good to ordinary at that the directors would be enjoined from paying the dividend. During the last hour of business stocks were unsettled, heavy-and lower, and closed generally at the lowest prices of the day. The principal break was in Northwestern, which went off nearly 2 per cent. Lake Shore broke down to 74%, Pacific Mall to 34%, Western Union to 75%, St. Paul to 53% and Union Pacific (sales were made of jobbing lots clear rib sides at \$400 per matter to 53. The remainder of the list was correspondingly depressed.

The total sales of stocks to-day were 237,000 shares, of which 41,000 were Pacific Mall, 57,000 shares, of which 41,000 were Pacific Mall, 57,000 (shares, of which 41,000 were Pacific Mall, 57,000 (shares) (should be shore, 7,000 only, 6,000 Wabash and 19,000 Union Pacific.
