The Cordial Balm of Syricum and Tonic Pills. NERVOUS AMD GENERAL DEBILITY Premature Decay, Over-Indulgence in; the use of Oplum, Alcoholic Drinks, Tobacco, etc. NERVOUS DEBILITY,

Is characterized by a general languor or weak-ness of the whole organism, especially of the nervous system, obstructing and preventing the ordinary functions of nature; hence, there is a disordered state of the secretions: constipation, scanty and high-colored urine, with an excess of earthly or limey scaling indicative of waste of earthly of limely scalment, indicative of waste of brain and nervous substance, frequent palpitations of the heart, loss of memory, and marked irresolution of purpose, and inability to carry into action any well defined business enterprise, or to fix the mind upon any one thing any length of time. There is a great sensitiveness to impressions, though retained but a short time, with a flickering and fluttering condition o mental faculties, rendering an individual what is commonly called a whiffle-minder, or fickle-

minded man. There must of necessity be in each individual, different symptoms, according to his peculiar organization, habits, pursuits and temperament, which all serve to shape the manner of the manifestation of their nervous disturbances, constituting a difference as marked as are their physical peculiarities dissimilar and peculiar to themselves. These differences, in the man-ner and form of their manifestation, do not indicate any necessary difference to be followed in the treatment of any case where disease has its origin in physical injury; the same remedies being alike applicable to the weak as to the strong; to the sturdy as to the sickly, varied only in degree of quantity and duration in the use of them in order to overcome the disease. Nervous Debility, or what is generally regarded as such, is as protean typed in its peculiarities as are the dreams of the shipwrecked mariner who, in his struggles for safety, lies down exhausted for a moment's sleep upon the wreck upon which he floats, with all the elements of destruction in more accountable. wreck upon which he house, with an the exments of destruction in mad commotion
around him, when the first instincts of his nature are a longing for a something solid upon
which he may find a standing place.
