The Big Sioux river, which empties into the Missouri four miles below the city, has been gradually rising for several days. It is feared that it may be expected to rise rapidly, reaching a higher point than for the past seventeen years.

It overflowed a great extent of country, sweeping away bridges, fences and everything in its course. The damage to property is incalculable. The Missouri is rising gradually. Its tributaries above are much swollen. Very high water in river is anticipated.

EAUCLAIR, Wis., April 12.—The ice gorge has at last broken. The river rose three feet in less than an hour. About two miles of ice came off, carrying immense quantities of booms, chains, pliers, etc. So far no accident has occurred. Most serious dangers may be considered over. From appearances we judge that most of the works between here and the Falls must have gone. The ice about the Falls is quite solid.

The Beecher-Tilton Trial. BROOKLYN, April 12.—Mr. Beecher was promptly on hand this morning and took the stand immediately on the arrival of Mr. Beach.

Said he sometimes visited Mouton's house daily, and again in October than once a week. There were few visits after May during the year 1871. After the publication of the Woodhull scandal these visits were very frequent.

I recall two conversations with Mrs. Mouton about Mrs. Woodhull. She said her husband thought very highly of Mouton. He was a very fine woman. I told her my knowledge of her was entirely derived from others. There never was a word with her about receiving Mrs. Tilton on my account. I never said it was her duty to co-operate with Frank and try to keep the story quiet. Never said anything of the kind to Mouton. Talked with her about Mouton about attending church in 1870 and also in 1872 and 1873. Recollect on two occasions seeing her at church.

I recollect on two other occasions when I called to see Mouton. Mrs. Mouton said to me, "Why don't you call sometimes to see me, or pay a social visit, instead of business visits to Frank?" This I did not do. Mouton never called on me. I never conversed in that manner. She never so accused me by allusion or implication.

I never said that if Tilton published a letter of apology it was useless for me to try to live it down. She never advised me to go to my church and confess the story. I never said it would be better for me to go out of life.

This is pure, absolute fiction. I never told her I suffered the tortures of the damned, having to appear in my church with cheerful face.

Here several emphatic denials, embracing a contradiction of the whole of Mrs. Mouton's evidence, were made in dramatic language, creating great applause in spite of all the efforts of Court officers to quell it.

Meeting of the New Board of Control.

The new Board of Control recently elected, consisting of Messrs. Alexander Brown, Wm. Dunn, Adam Geis, Estus K. Taylor, S. V. Joyce, after having been duly sworn in and received their certificates of membership, met today for the purpose of effecting a permanent organization.

Mr. Wm. B. Dunn officiated as President pro tem.

As the law which provides for the day of the first meeting of a new Board was very indefinite on this point, it was decided that an organization should be effected to-day, and the same be ratified in a meeting next Monday. The law referred to reads that the new members of the Board of Control shall meet the second Monday of April after their election.

This accordingly left the matter very dubious as to whether the second Monday in April was meant, or the second Monday in April dating from the time of their election was referred to.

The election of a President was then proceeded with. Messrs. Dunn and Turpin were nominated, and on ballot Dunn was declared elected, having received three votes out of five.

On motion, the election of a Secretary was postponed until next Monday, until which time the Board adjourned to meet again.
