I have seen the Exposition And completely done the Pike, I have taken in Niagara, And saw many things I like, But I missed the tooth and lip show When old Booker dined with Ted For they shone in all their glory While they were being fed. Chorus. Teddie is a splendid fellow But his teeth were unburned yellow While hunting grizzlies on the mountain wild. Booker is a dandy nigger But his lips will get no bigger, For they did their growing when he was a child. There's a thought that makes one tremble, For who knows what might have been Had old Booker's savage instincts Returned to him again, For he might have slain poor Teddy For his ivory and his hide, j Like his fathers did the elephant In the country where they died. Chorus. The greatest thing in Teddie He carries in his mouth, For his teeth are simply famous In our country north and south. Then we'll sing about his greatness, And scare our kids at dusk, By showing them the picture Of his boggy, boggy tusk. The above was received from Bessie Ribjabbber's brother with a note explaining that he found it in sis's trunk and didn't know whether it was intended for an ode or a sonnet. He showed it to his pap and he said it was "doggerel," and the boy wanted it published so that sis will quite writing poetry and help her ma with the dishes. Chamberlain's Cough Remedy No one who is acquainted with its good qualities can be surprised at the great popularity of Chamberlain's Cough Remedy. It not only cures colds and grip effectually and permanently, but prevents these diseases from resulting in pneumonia. It is also a certain cure for croup. Whooping cough is not dangerous when this remedy is given. It contains no opium or other harmful substance and may be given as pleasantly to a baby as an adult. It is also pleasant to take. When all of these facts are taken into consideration it is not surprising that people in foreign lands, as well as at home, esteem this remedy very highly and very few are willing to take any other after having once used it. For sale by L. P. Van Werden.
