Thirsty For Knowledge.

"Now, children," said the history teacher in her most impressive manner, "I wish you to remember that the time to ask questions in my class is whenever anything is said which you wish explained. Do not wait until the time comes for recitation and then complain that you did not hear or did not understand when I talked."
"Yes'm," chorused the scholars cheerfully.
"Very well," said the teacher, "we will begin today with James I., who came after Elizabeth."
The new scholar raised his hand.
"What is it?" asked the teacher graciously.
"What made him come after her?" asked the new scholar eagerly.

Marked For Death.

"Three years ago I was marked for death. A grave-yard cough was tearing my lungs to pieces. Doctors failed to help me, and hope had fled, my husband got Dr. King's New Discovery," says Mrs. A. C. Williams, of Bac, Ky. "The first dose helped me and improvement kept on until I had gained 58 pounds in weight and my health was fully restored." This medicine holds the world's heating record for coughs and colds and lung and throat diseases. It prevents pneumonia. Sold under guarantee at L. P. Van Werden's drug store. 50c and \$1.00. Trial bottle free.

Horse Meat.

"A horse's head over a butcher shop in France signifies a horse meat butchery. I wish we had them here," said a food faddist. "We will have them here some day too. Why? Because of all the animals eaten by man the horse is least liable to disease. The horse, unlike the ox, is never tubercular. He is the cleanest of all feeders as well. And his flesh is really good—tender, rather sweetish and fine grained. As the automobile drives the horse from the marts of labor he will enter on account of his immunity from consumption the food marts, and we'll get a little variety in our monotonous round of beef, mutton and pork."—New York Press.

Mrs. McRaney's Experience.

Mrs. McRaney, Prentiss, Miss., writes: "I was confined to my bed for three months with kidney and bladder trouble, and was treated by two physicians but failed to get relief. No human tongue can tell how I suffered, and I had given up hope of ever getting well until I began taking Foley's Kidney Remedy. After taking two bottles I felt like a new person, and feel it my duty to tell suffering women what Foley's Kidney Remedy did for me." Bell & Robinson.

"What are 'mournful numbers'?"
"They are the figures which a woman uses when she has to give her real age."

Itch cured in 30 minutes by Woolford's Sanitary Lotion. Never fails. Sold by W. A. Alexander Druggist.

One Lone Ladybug's Good Work.

To one lone ladybug is due the destruction of the San Jose scale, which did millions of dollars' damage to the fruit trees of California. When the pest had become a positive menace, the department heard of a species of bug in north China which was fatal to the scale. A large number of the bugs were procured, but all were dead except one when they reached this country. This one insect was taken to Washington and became a ward of the government. She rewarded her keepers by laying about 5,000 eggs. In an incredibly short space of time she had a flourishing family of several billions, and the reign of the scale was over.—Van Norden's Magazine.

A Personal Appeal.

If we could talk to you personally about the great merit of Foley's Honey and Tar, for coughs, colds and lung trouble, you never could be induced to experiment with unknown preparations that may contain some harmful drugs. Foley's Honey and Tar costs you no more and has a record of forty years of cures. Bell & Robinson.

Paid In Advance.

A gentleman who was in the habit of dining daily at a certain restaurant in London said to the Irish waiter who attended him:

"Instead of tipping you every day, Pat, I'll give you your tip in a lump sum at the end of the month."

"Would ye mind paying me in advance, sorr?" asked the waiter.

"Well, that's rather a strange request," remarked the gentleman.

"However, if you are in want of some money now here's half a crown for you. But did you distrust me that you asked for payment now?"

"Oh, no, sorr," grinned Pat, pocketing the half crown, "but O'm lavin' here tomorrow!"

This Is Worth Reading.

Leo F. Zelinski, of 68 Gibson St., Buffalo, N. Y., says: "I cured the most annoying cold sore I ever had, with Bucklin's Arnica Salve. I applied this salve once a day for two days, when every trace of the sore was gone." Heals all sores. Sold under guarantee at L. P. Van Werden's drug store. 25c.

Bill Nye and the Englishman.

In one of his burlesque sketches on English history Bill Nye spoke of Julius Caesar's jumping into the water as he approached the English coast, wading ashore, running up to London and walking through Regent street.

"An acquaintance of mine reported to me," said Mr. Nye, "that he had asked an Englishman how he liked the story. 'Not at all, not at all,' was the reply. 'That fellow Nye doesn't know what he's about. There wasn't any Regent street then, you know.'"—Lippincott's Magazine.
