### Ames College to Test Seed Corn Free For Farmers.

The loss to Iowa farmers from planting poor seed corn, will be greater the coming season than in many years, unless active measures are taken to prevent it. The poor condition of seed corn is due largely to the heavy rains in the fall which filled the ears with water, and then the early hard freeze which followed. Tests made at the State Corn Show held at Des Moines, and at the College Corn Show held at Ames a few weeks ago, show a startling condition. Samples which were the very best in appearance, and which often came from our best seed corn men, were entirely dead; and very many were weak and unreliable for seed purposes.

In order to help Iowa farmers to secure good seed corn, the Agricultural College is offering to test free of charge, all samples of corn sent them, thereby making it possible for every farmer to know definitely whether or not his seed corn is safe to plant. Care should be taken in the selection of this sample for test, in order that it may represent accurately the true condition of the seed supply.

Make up the sample as follows: Select average ears at random from the entire lot of seed, or at least in so far as this is practicable. From each of the ears so selected, remove with a knife two kernels, one from each side of the ear. Place all of these kernels in a strong envelope or small sack, and mail to the Farm Crops Department, Ames, Iowa, for a germination test. Send with this corn a statement of the amount of seed you have, when it was gathered and how it was stored.

It is quite probable much of the corn from the 1908 crop will be bet-

ter for seed than that grown in 1909. Those who have any old corn should send samples of this also, picking out the sample as indicated, and accompany it with a statement of the amount, condition, etc.

As there will be a large amount of this work to be done, the samples should be sent as soon as possible to the Farm Crops Department, Ames, Iowa. The department will mail a report of each test at the earliest date possible.

### Soldier Balks Death Plot.

It seemed to J. A. Stone, a civil war veteran, of Kemp, Texas, that a plot existed between a desperate lung trouble and the grave to cause his death. "I contracted a stubborn cold," he writes, "that developed a cough that stuck to me, in spite of all remedies, for years. My weight ran down to 130 pounds. Then I began to use Dr. King's New Discovery, which restored my health completely. I now weigh 178 pounds." For severe colds, obstinate coughs, hemorrhages, asthma, and to prevent pneumonia it's unrivaled. 50c. and \$1.00. Trial bottle free. Guaranteed by Van Werden & Kopp.

It is not uncommon when the truth is stretched that it flies back in the face.

### HEED THE WARNING.

Many Leon People Have Done So.

When the kidneys are sick they give unmistakable warnings that should not be ignored. By examining the urine and treating the kidneys upon the first sign of disorder, many days of suffering may be saved. Sick kidneys expel a dark, ill-smelling urine, full of "brick-dust" sediment and painful in passage. Sluggish kidneys cause a dull pain in the small of the back, headaches, dizzy spells, tired, languid feelings and frequently rheumatic twinges.

Doan's Kidney Pills are for the kidneys only; they cure sick kidneys, and rid the blood of uric poison. If you suffer from any of the above symptoms you can use no better remedy. Leon people recommend Doan's Kidney Pills.

Edward Beck, N. Main St., Leon, says: "About two years ago I began to suffer from kidney and bladder trouble. I had pains in my back and sides and a lameness when I arose in the morning. The kidney secretions became irregular in passage, I had headaches and felt tired and languid. Finally I began using Doan's Kidney Pills and in less than a month all symptoms of kidney complaint had left me. I am now in good health, but I occasionally take contents of a box of Doan's Kidney Pills as a preventive of further trouble. I am glad to recommend Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

## The Tenderfoot Farmer

It was one of these experimental farmers, who put green spectacles on his cow and fed her shavings. His theory was that it didn't matter what the cow ate so long as she was fed. The questions of digestion and nourishment had not entered into his calculations.

It's only a "tenderfoot" farmer that would try such an experiment with a cow. But many a farmer feeds himself regardless of digestion and nutrition. He might almost as well eat shavings for all the good he gets out of his food. The result is that the stomach grows "weak" the action of the organs of digestion and nutrition are impaired and the man suffers the miseries of dyspepsia and the agonies of nervousness.

To strengthen the stomach, restore the activity of the organs of digestion and nutrition and brace up the nerves, use Dr. Pierce's Golden Medical Discovery. It is an unfailing remedy, and has the confidence of physicians as well as the praise of thousands healed by its use.

In the strictest sense "Golden Medical Discovery" is a temperance medicine. It contains neither intoxicants nor narcotics, and is as free from alcohol as from opium, cocaine and other dangerous drugs. All ingredients printed on its outside wrapper.

Don't let a dealer delude you for his own profit. There is no medicine for stomach, liver and blood "just as good" as "Golden Medical Discovery."
