Last Sunday night as Fred Schmitt and David Brammer were going home from church there were a couple of boys on horseback came riding up behind them and Mr. Schmitt's team became frightened and threw him out over the dash board, bruising his face up pretty badly. He had a couple of young ladies with him, and they remained in the buggy. The team ran into Mr. Brammer's buggy and tore off a wheel and he was pitched out under his horse's feet, and the buggy ran over him and bruised him up considerably, but he held on to one of the lines and turned his team into the wire fence which stopped them before any more damage was done. The two young ladies in his buggy held on and were not hurt but were pretty badly scared. It was a narrow escape for all the parties and they are thankful it was no worse.

My appetite was very poor and my general condition was much run down. I have been taking Foley's Kidney Pills but a short time and now sleep as sound as a rock. Cook in Comfort

You no longer need wear yourself out with the weakening heat of an intensely hot kitchen. You can cook in comfort. Here is a stove that gives no outside heat. All its heat is concentrated at the burners. An intense blue flame (hotter than either white or red) is thrown upwards but not around. All the heat is utilized in cooking—none in outside heating.

New Perfection Oil Cook-stove

entirely removes the discomfort of cooking. Apply a match and immediately the stove is ready. Instantly an intense heat is projected upwards against the pot, pan, kettle or boiler, and yet there is no surrounding heat—no smell—no smoke.

Why? Because The New Perfection Oil Cook-Stove is scientifically and practically perfect. You cannot use too much wick—it is automatically controlled. You get the maximum heat—no smoke. The burner is simple. One wipe with a cloth cleans it—consequently there is no smell.

The New Perfection Oil Cook-Stove is wonderful for year-round use, but especially in summer. Its heat operates upward to pan, pot, or kettle, but not beyond or around. It is useless for heating a room.

It has a Cabinet Top with shelf for keeping plates and food hot. It has long turquoise-blue enameled chimneys. The nickel finish, with the bright blue of the chimneys, makes the stove ornamental and attractive.

Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet. Every dealer everywhere; if not at yours, write for Descriptive Circular to the nearest agency of the
