

Free Child's Remedy

What mother is not looking for something that will help her children in the little ills of life, something for the stomach trouble and the bowel trouble? Long ago she probably has become convinced that a child cannot readily swallow a pill or a tablet, and that to "break them in half and crush them" is an annoyance; that usually they work too drastically, and are nauseating and too powerful for the little one's stomach.

Any mother who will take the trouble of sending her name and address can obtain a free sample bottle of a remedy that thousands of other mothers are using and now paying for. This remedy is Dr. Caldwell's Syrup Pepsin, and the offer of a free trial bottle is open to any mother who has not yet used it. Having used it and convinced yourself that it is what you want, you can obtain it in the future from your druggist at fifty cents and one dollar a bottle, just as so many others are doing, the free sample being simply to convince you of its merits. It is the best way to begin on it. Mrs. L. Davis of 187 W. Harrison street, Chicago, and Mrs. Mary Belford, 1710 Coke street, Louisville, Ky., both started with a free sample and now they write that they have never been without a bottle in the house since.

It is undoubtedly a great family remedy, as it is adapted to all ages, being mild and pleasant to take and yet thoroughly effective. It is especially the ideal remedy for children and women and old folks, who need something pure, mild and natural. It has the advantage of being a thorough laxative and yet contains tonic properties. Use it for the most stubborn constipation, indigestion, liver trouble, sick headache, sour stomach and such complaints with a guarantee that it will cure.

Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. I explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For either request the doctor's address is Dr. W. E. Caldwell, R. 500 Caldwell building, Monticello, Ill.

W. H. Snyder Writes of His Visit to Canada.

Swift Current, Saskatchewan, Canada, July 5. Editor Reporter:—By your permission I will give a short write up of some of my friends I would, of north western Canada. I left Leon April 16th, joined my wife at Oskaloosa, Iowa, visited a few days in our old neighborhood, leaving there April 20th, via Iowa Central, for St. Paul, after spending one day in St. Paul we went to Winnipeg via the Grand Trunk R.R., crossing the boundary line at Emerson. After spending a few hours in Winnipeg, we took the C. P. R. going west stopping at Portage La Prairie about 56 miles west of Winnipeg, there visiting with a sister of Mrs. Snyder for a week. This is a beautiful country all surrounded by lakes, a fine place for fishing and speared and shot some fish in creeks leading out from lakes. This is in the province of Manitoba and a country that has been settled for 40 years. The soil is very fertile and judging from a good improvement it must be a good improvement country. Continuing our journey west, our next stop was at Swift Current, about 500 miles farther west a division point on the C. P. R. where we were met by our son, Walter, who we found very nicely located about 7 miles from town, already having sowed 300 acres of wheat. This is in the Province of Saskatchewan, and is a new country, it being all laid open to ranchers seven years ago, and the very first settlers came in here in 1903 and not very many until 1904 and 5. The C. P. R. is the only railroad in this part of the country. It runs from the Atlantic to the Pacific. The Great Soo R. R. coming from St. Paul makes connection with the C. P. R. about 100 miles east of Swift Current, making this the greatest passenger route in the U. S. or Canada. Swift Current is a town of about 2,000 population and is growing very rapidly. You can see from 25 to 50 new buildings under construction at the present time, town property advancing very rapidly and very high. Small business buildings that would cost probably four or five hundred dollars, renting for \$50 to \$80 per month, owing to location. They have some very substantial buildings. One department store, which covers one-fourth of a block, in which you can buy anything from a tooth pick to a threshing machine. There are seven grain elevators here which report as having bought in the year 1909 one million two hundred thousand bushels of wheat and one-fourth million bushels of oats. There are seven livery barns the smallest of which is as large as any barn in Leon. One large public school building and a number of churches. Swift Current is located on the bottom of Swift Current creek, the creek around being rolling. Swift Current derives its name from the creek which runs through the town. This is a most beautiful stream, rock and sand bottom and the water is as clear as crystal and runs very rapidly. The implement dealers told me that they sold one hundred and sixty-five thousand pounds of binder twine last year. Swift Current takes in a large area of country, being ten miles to the first town east and eight miles to the first town west, no railroads towns south until you get 100 miles into the state of Montana, and north about 110 miles, and homesteaders come from 50 to 100 miles for supplies, some coming with ox teams and some with an ox and a horse. Of course there is not much farming done farther out than 40 to 50 miles, they are just proving up and waiting for the railroads to come. There are proposed railroads all through those districts and are building and grading roads everywhere. Hundreds of railroads camps are scattered over the country. This country is settled with people mostly from the states west of Ohio and Indiana and from the Province of Ontario. Farm land is selling at different prices here, at from ten to forty dollars per acre according to the lay of the ground and distance from town. I think this is a great place to invest in land as prices are bound to advance and it is a good investment for farming. Wheat last year made from twenty to fifty bushels per acre and oats from forty to one hundred. There are lots of bum farming done here. They only plow land every 2 or 3 years and drill wheat in stubble, some disc and harrow before drilling the crops put in this year looking fine, but those that were drilled in stubble are not so good as it has been unusually dry this spring and summer. The earliest wheat is just coming in head. Harvest usually begins here about the 10th of August, and as soon as harvest is over threshing commences. About the middle of May we started for sunny southern Alberta, stopping at Lestbridge about 260 miles west, a city of about 12,000 population, having in the last three years made a growth of from 1200 to 12,000. We visited there with a niece for a few days. This is a fine city with fine shade trees, which are very uncommon in this country. Next we went 40 miles north to Carmangay where my brother is located on a new railroad just being built through to Calgary, about 100 miles farther north. This is a very nice country to look at and had a wonderful boom up to this spring, but as they failed to get the usual amount of rain in May and June it looks as though the crops would be a failure this year, and the boom has ceased. Farming is done on a large scale and mostly by steam power, seeding as much as 40 and 50 acres in one day with one rig. Carmangay is just one year old, has a population of 600 and is located on the banks of the Little Bow river. The land lays fine and every foot can be plowed, and last year they raised 44 bushels of wheat per acre and 82 bushels of oats. I expect to buy some more land before I leave here, as I think a man will double his money in a few years besides a good income from the crops. The boys like it here and expect to stay here and farm, but we expect to come back to Iowa to live. I think this is a great place to make money, and if I was twenty years younger I

would sure stay here, but it looks a little too much on the pioneer order for a man of my age. We expect to go to the western coast on our way home, and will be there by the 1st of September. Must close.

SAFE AND SURE.

Among the medicines that are recommended and endorsed by physicians and nurses is Kemp's Balsam, the best cough cure. For many years it has been regarded by doctors as the medicine most likely to cure coughs, and it has a strong hold on the esteem of all well-informed people. When Kemp's Balsam cannot cure a cough we shall be at a loss to know what will. At druggists and dealers, 25c.

ONLY ONE BEST.

Leon People Give Credit Where Credit is Due.

People of Leon who suffer with sick kidneys and bad backs want a kidney remedy that can be depended upon. The best is Doan's Kidney Pills, a medicine for the kidneys only, made from pure roots and herbs, and the only one that is backed by cures in Leon. Here's Leon testimony:

Mrs. Mary A. Hinds, of Leon, Ia., says: "I think just as highly of Doan's Kidney Pills now as I did five years ago when I gave a public statement in their favor. At that time I was troubled considerably by a retention of the kidney secretions. I also had pains through the small of my back, and if I over exerted, I became worse. Hearing of Doan's Kidney Pills, I procured a box from L. P. Van Werden's drug store and was surprised at the prompt way in which they brought me relief. I have used this remedy quite often during the past five years and it has never failed to help me."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.
