Davis City.

Frank Cartwright, who has been seriously ill, is reported better.

Frank Githens has moved from Pleasant Valley and will occupy his house on Clark street.

The R. M. Black house and lot was sold at auction one day last week, being bought by Grant Griffith for about \$900. Mr. Griffith built the house and sold it to Mr. Black about nine years ago for \$1800.

Frank Githens has bought the barn and lots owned by L. A. Brown in the west part of town and intends starting a chicken ranch.

Theodore Merrifield, one of F. M. Ricks' section men, met with a bad accident. A rail fell on his foot, breaking two bones and cracking a third one, so he is compelled to walk on crutches. Fortunately the rail fell with the flat side down for if the sharp edge had struck him it would have cut his foot off. Mr. Merrifield has a large family of small children and the accident just as winter is coming on is a bad one for him.

Invitations have been issued for the wedding of Mr. George Howell, of Omaha, and Miss Afton Hembrey, on November 30th.

Mrs. Maggie Cummings and Mrs. Mattie Horn made a drive to Akron, Mo., Saturday to see their niece, Mrs. Paul Scott, who is in a very precarious condition, suffering from rheumatism which has gone to her heart.

Corn gathering is in progress, and all who want work are sure of a

job. Corn is not turning out as big a yield as was predicted, very little of it going over fifty bushels to the acre. On the Judd farm, and on the farm known as the old Wm. McIntosh farm, it is going as high as 65 bushels to the acre, but many others report from 40 to 50 bushels per acre.

One of George Daniels' little boys had the misfortune to fall and break his arm one day last week.

Our city was again visited by fire last Wednesday afternoon when the dwelling on Main street owned by John Hamilton and occupied by Jacob Bigley was burned to the ground. It was known as the old Cummings house and was one of the oldest in Davis City. It was insured for \$250. Part of the household goods were saved but most of their winter's vegetables and all their beds and clothing upstairs were burned. Mr. Bigley has nine little children, two pairs of twins under five years of age, and the family is to be pitied as he has a hard time providing them with the necessities of life and clothing.

Alfred Burrell has opened up his store and held an auction sale Saturday.

W. D. Mitchell was so well pleased with South Dakota that he traded his 88 acre farm here for 320 acres near Fresno, owned by E. O. Lovett. The Dakota land was valued at \$10,300 and the Mitchell farm at \$11,000. Mr. Mitchell gets an advance of nearly \$3,000 on his 88 acres in ten years. Mr. Mitchell will go to his new home about the first of January, but his family will remain here until school closes.

The M. E. quarterly meeting was held in this city last Sunday. Why is it that so little is said or known about our quarterly meeting now? In former years they were announced weeks before hand and everyone had a chance to go, but last Sunday many even of their own members did not know of it in time to attend.

Revs. Campbell and Elmore, ministers of the Christian order, are holding a series of meetings in the Union church and will continue over this week, but the attendance is not as large as it should be for a town the size of Davis City.

Christian Church Notes.

The rain last Lord's day kept some away from our services, but the attendance was good under the circumstances. Our Bible school 78 notwithstanding the bad morning. The evening service was well attended and splendid attention was given by young and old.

Next Lord's day morning the pastor's theme will be "Paul's Experience in Paradise." The evening theme will be "The Story of How a Soldier Became a Christian." Will you be one of the number?

Run Over By His Team.

Last Saturday just after noon as county treasurer-elect W. C. Cozad of Morgan township, was driving to Leon he met an auto a couple of miles southeast of Leon. His team is a rather fractious one and he got out of the buggy and went to their heads to hold them while the auto passed, but he was unable to control them and they knocked him down and ran over him, bruising him up quite a bit. The team ran on west as far as the home of Clem Jenkins where they were caught, after having torn up the buggy considerably. Neither of the horses were injured.

Trying to Get Water.

The Leon Electric Co. have been up against a stiff proposition in the way of securing an adequate supply of water for several months and have exhausted every available source in order to keep the electric plant running and supply the court house with water, as their big well just east of town has nearly failed. As a last resort they are now at work putting in a pipe line from their well east of town to the well on the farm of Roe Caster known as the sand bank well, and when it is completed they hope their water trouble will be at an end. The building of the pipe line will cost them nearly a thousand dollars, but they are not the kind to stand back for expenses when their business and that of their customers is going to suffer.

Curley

"Curley" Craig, the deliveryman at Bradfield & Gardner's grocery was kicked by one of the horses driven to the delivery wagon last Friday noon and is carrying his left arm in a sling. "Curley" has tried conclusions with this horse's heels on several occasions now and has some out second best every time, and he says no more of the strenuous life for him.

J. E. Corwin, state inspector for the state board of control, was here last Friday inspecting the Decatur county home. He found that Steward Shira had everything in tip top shape as usual and complimented him highly on the way he runs the county home. He also commended the building of a silo at the county home, as the board of control have had silos erected at all the farms owned by the state, it having been demonstrated that silage is the most economical feed that can be used and secures the best results with stock.

The life of a good wagon ought to be equal to the life of a good horse.

Yet the life of most wagons is about one-third as long. Over and over again you twist out a tongue, you hear the spokes rattling in their felloes—you see the wheels dish until they cannot stand a heavy load, the bed breaks down and the axles spring and you wonder *why*.

Every I. H. C. wagon (no matter what the model may be) is made only by experts, who know the strain it must stand and every part of an I. H. C. wagon is made to stand that strain. That is why I. H. C. wagons outlive even your expectations. A dealer everywhere.

**Attend The
Colt Show
at Leon.**

Farmers and others who are interested in good horses are urged to attend the colt show which will be held at Leon on

Thursday, December 1st.

There are lots of good colts in Decatur county, and many of them will be shown at this colt show. But I want especially to call the attention of lovers of good road horses to the colts which are sired by my Hackney Stallion Hockwold Bordeaux, the only good road stallion in Decatur county. All farmers who have Hackney colts are urged to bring them in and compete for the premiums offered. And don't forget to take a look at the fine colts which were sired by my Percheron Stallion, Vindex. There will be some of his colts shown which will surprise you.

This colt exhibit is especially for the farmers and there should be as many farmers present on that day as possible. It will be worth coming to Leon to see.
