# The Famous Rayo

Is the Lamp of Real Beauty

because it gives the best light of all lamps. The Rayo gives a white, soft, mellow, diffused light—easy on the eye because it cannot flicker. You can use your eyes as long as you wish under the Rayo light without strain.

The Rayo Lamp is low-priced, and even though you pay \$5, \$10 or \$20 for other lamps, you may get more expensive decorations but you cannot get a better light than the low-priced Rayo gives. A strong, durable shade-holder holds the shade on firm and true. This season's new burner adds strength and appearance.

### CURE CATARRH.

It's Easy, Pleasant, and Costs But a Trifle.

How many readers of The Reporter know that in Inland Australia where the mightiest of eucalyptus trees grow in abundance, that there is no consumption, catarrh or diseases of the respiratory tract.

The refreshing balm drawn out by these trees fills the air and is breathed into the lungs by the inhabitants and all germ life is destroyed.

If you have catarrh you cannot go to Inland Australia except at great expense, but you can breathe right in your own home the same pleasant soothing, healing, germ killing air you would breathe if you were living in the eucalyptus district of Australia.

Just breathe HYOMEI; it is made from Australian eucalyptus and scientifically combined with thymol and other Listerian antiseptics.

Pour a few drops of HYOMEI into the inhaler and breathe it. As it passes over the catarrh infected membrane it kills the germs and heals the raw, inflamed surface.

HYOMEI is guaranteed to cure catarrh, coughs, colds, croup and sore throat, or money back. Complete outfit including inhaler \$1.00. Extra bottles of HYOMEI cost but 50 cents. Sold by VanWerden & Kopp and druggists everywhere.

To break up a cold in head or chest in a few minutes, pour a teaspoonful of Hyomei into a bowl of boiling water, cover head and bowl with towel and breathe the vapor.
