If you find any substance in your baking injurious to health made from baking powder in it is can there is

\$1000
In it for you

Calumet has been backed for years by an offer of \$1,000 for any substance injurious to health found in the baking prepared with it.

Does not this and the fact that it complies with all pure food laws, both State and National, prove that Calumet is absolutely pure?

With the purity question settled—then Calumet is undoubtedly the best Baking Powder. It contains more leavening power; it is more uniform—every can is the same. It assures better results—and is moderate in price.
