A friend of a neighboring newspaper went in the other day with what he thought a good conundrum. "Why is the newspaper like a woman?" The various answers were given—Because it has to have some one to run it—Because it has to be known to be appreciated—Because it changes its dress. The correct answer is "Because every man should have one of his own, and not be running after his neighbors."

C. R. Meeker, the Decatur City merchant, who was among the number burned out in the big fire a couple of weeks ago, was in Leon Saturday, and after a week's persuasion made J. B. Bowsher cough up the west side of their big brick store room at Decatur City, and while this was hard to do, it shows a neighborly feeling for a man with a big stock of goods without a home, as the old frame building on the north side into which he moved his goods after the fire was bought by S. C. Mitchell, of Leon, and rented to S. H. Campbell, who will occupy it with his restaurant, he also being among the number who were burned out, and there was no building left in the town which was unoccupied. This will make Mr. Meeker an ideal store room, and Bowsher & Bowsher will fit up the upstairs of the building for a sample room, and put on a new steel ceiling down stairs, as well as double decking around the west side of the room and building stairs to the second story.
