The Real Thing in Base Burners. The Round Oak with three Flues

gives more heat, size for size, than in any other Base Burner ever made—42 per cent more, almost half—and it's a fact.

New special flue construction gives additional heating surface—that's where we get it—makes the Round Oak Base Burner ahead of all the old types.

And it is a beautiful stove. The nickel ornamentation is rich and smooth—the workmanship and finish are simply unequalled. We furnish the Base Burner book on request. It gives the reasons why it is the first and foremost.
