W. B. Patton, known as the "peculiar comedian," will appear here Friday night in his latest and best play, "Lazy Bill." The unique character of Dr. Bill Hale the good natured country physician, affords the popular comedian a first class opportunity to display his ability as a laugh maker. Unlike many stars, Mr. Patton does not believe in occupying entirely the center of the stage, and so in "Lazy Bill" his company has an equal chance with himself to win favor. All of the characters in the play are good and many of them new to the stage. An excellent supporting company has been engaged, beautiful scenery and effects are carried, and taken as a whole, it is a worthy presentation, entirely out of the ordinary, its sentiment and tone of the highest.

## There Are Reasons for These Low Prices

The low prices that we are able to make in our "Home Furnishing Department" are possible for three excellent reasons; the goods are bought at right prices—the selling expense in this department is very small—a slim profit is all we want.

**OUR BUYING SYSTEM.** The goods for this department are bought in large quantities, mostly solid bales, all from one house, and on a strictly cash basis.

**LOW SELLING EXPENSE.** All being on the second floor, we have no extra rent to pay; insurance, light, heat, clerk hire amount to almost nothing.

**SMALL PROFIT ON EACH SALE.** A small percentage of profit on a large volume of business looks better to us than a big profit on a smaller business.
