

The Secret of Health is Elimination of Waste

Every business man knows how difficult it is to keep the pigeon holes and drawers of his desk free from the accumulation of useless papers. Every housewife knows how difficult it is to keep her home free from the accumulation of all manner of useless things. So it is with the body. It is difficult to keep it free from the accumulation of waste matter. Unless the waste is promptly eliminated the machinery of the body soon becomes clogged. This is the beginning of most human ills.

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY

DR. TRIMMER

The Regular and Reliable Specialist

I treat successfully the cases I undertake and accept no fee from those that cannot be successfully treated. That is why I continue my visit year after year, while other specialists make only a few visits and cease to return.

That I have been eminently successful in all chronic diseases is proven by the satisfactory results obtained in difficult and long standing cases which had baffled the skill of many other physicians.

Being a graduate of one of the best schools of regular practice in this country, having had vast hospital experience and many years of extensive practice, I have become so proficient that I can locate and explain your trouble in a few moments. It costs no more to be under the care of an experienced physician than an inexperienced one.

I successfully treat CATARRH, Eye, Ear, Nose, Throat and Lung diseases in early cases.

STOMACH, LIVER, KIDNEY, HEART, Nerve, Blood and Skin Disorders.

GALL STONES, Gravel, Rheumatism, Neuralgia and Bright's Disease in early stages. Inflammation of the Bladder and diseases of the Female Organs. Gout or Big Neck treated scientifically.

PILES, FISTULA AND FISSURE treated without the use of the knife or detention from business.

DISEASE OF MEN I have a special treatment which I would like to explain to you.

If you or your family have any of the above diseases call and see me at once, as a delay may be dangerous. Consultation costs you nothing and is confidential.
